While the county was far removed from the scenes of actual conflict, the location of the state capital within its borders made it one of war activity. The recruiting of troops, the establishment of Camp Lyons (near Worthington), Camp Jackson (now Goodale Park), the location of Camp Chase, four miles west of the county-seat as a depot for the incarceration of military and political prisoners, fast days, bond days, Sanitary Fairs, atrocity tales of Confederate sympathizers poisoning wells, the low moral tone of the County occasioned by the steady influx of nyphs du pave the confinement of Morgan's Rebel Raiders in the Ohio Penitentiary, and the bitter political battles waged by the "Union" and Democratic parties for control of state and local administrations, were reasons enough to impress upon the minds of Franklin County inhabitants the seriousness of civil conflict.

Although a war of atmosphere was everywhere in evidence, it did not seriously disturb the business of the county. Manufacturing expanded, building was accelerated, and agricultural products increased despite the loss of manpower occasioned by heavy volunteering, thanks to the use of the newly invented mechanical reaper.

During the bitterest years of the war, church services were well attended, colleges in the county continued to operate with enrollments slightly less than in pre-war days, and capacity audiences filled the theatres and other spots of entertainment.

By 1866 the last vestiges of war were disappearing. Camp Chase with rows of barracks, guarded by a single unarmed sentinel, was silent and gloomy in its decline.

Next Week: B. F. Gard — Early Columbus Doctor.

High School TB Script Writing Contest Set

"TV Spotlights TB", a trail-blazing educational venture, will be launched in Columbus and Franklin County high schools May 2 by the Tuberculosis Society, WBNS-TV, and the Columbus Gallery of Fine Arts.

The new school project will offer high school students the opportunity to learn about the omnipresent community health problem, tuberculosis, through writing and presenting their own TV scripts. To participate, students must write 20-second spot announcements about TB and illustrate the subject matter with a sketch.

Twenty semi-finalists will be selected by the co-sponsors to participate in studio auditions at WBNS-TV. The top six entries will be chosen from the semi-finalists, and will be given the opportunity to present their scripts over the air on a popular WBNS-TV show. In addition, three scholarships, valued at approximately $300, to Columbus Art School, will be awarded to the best visual presentations among these six.

Winning scripts will be presented on WBNS-TV during the summer months with the student's own voice transcribed.

"TV Spotlights TB" kits are being delivered during the next 10 days to every high school in the county. Extra copies, including project rules, can be obtained by calling CA. 4-3241.

HIPPOCRATES

Hippocrates, the "father of medicine" was compelled to compound his own simple prescriptions. How he would have revelled in our ample stocks! He'd need a guide, to be sure. For at least nine-five per cent of our wares were unknown in his day. Medicine is progressing steadily. And it is our obligation — and privilege — to keep pace with this progress. Thus, you will find us always well prepared to compound your prescriptions.

Hilltop Lions Give School Tape Recorder

Presentation of a high-fidelity tape recorder and tachistoscope to the West Broad Street Elementary School last Thursday night by the Hilltop Lions Club marked the beginning of a Lions project which will bring needed special equipment to nine Hilltop and West Side schools within the next three-week period.

The initial presentations were made at a meeting of the West Broad PTA. The tachistoscope is a device for flashing film strips on a screen at controlled intervals and will assist in remedial reading instruction, memory training, and in other educational problems.

Presentation of the tape recorder to Miss Matilda Stuart, West Broad principal, was made by Harold James, chairman of the Hilltop Lions sight saving committee. Jack Mitchell, chairman of the club's community betterment committee, presented the tachistoscope.

Plan Other Gifts

Also scheduled to receive tape recorders from the community betterment committee were Westgate, West Mound, Highland, West High, St. Mary Magdalene, St. Aloysius, and Holy Family schools. Each tape recorder retails at about $250. John Burroughs School will receive two record players.

The sight saving committee will give electrically-illuminated Snellen eye charts, for the testing of pupils' eyes, to St. Mary Magdalene, St. Aloysius, and Holy Family schools. In addition, this committee has purchased another tachistoscope for presentation in the near future to another Hilltop school.

Local schools made their own choice of gifts and were limited only by funds available, according to Al Dalley, immediate past president of the club.

For the most part, funds for these gifts came from the $5,500 profit realized on last year's sale of the annual newspaper, "The Hilltop Lions Tale," which is also called the "Sight Saving Edition."

This year's sale of "The Hilltop Lions Tale" will take place on the evening of May 20, when some 300 salesmen will take the paper to every house on the Hilltop. An auction of the newspapers at noon May 19 in the Colony Restaurant will precede the public sale.

Because of the excellent results in last year's paper sale, the sight-saving committee was able to more than double its expenditures in the current club year, which began July 1, 1954, according to Committee Chairman James.

This one committee of the Hilltop Lions has spent and committed more than $2,200 in the current club year.

Eye Examinations

The committee has provided eye examinations and bought glasses for dozens of pupils of families unable to shoulder the expense. Principals of local schools have been asked to refer such cases to the committee.

Other sight saving expenditures include contributions to the Ohio Lions Research Fund and purchase of a tape recorder and special braille typewriter for Pilot Dogs, Inc., 619 W. Broad-st, a non-profit organization which trains and furnishes dogs to guide the blind.

Three children in one Hilltop family and four in another have been "adopted" by the committee, with the Lions paying for all of their many eye treatments and special corrective glasses needed by these youngsters, whose families have not been able to handle the large additional financial burden.

Four other Hilltop children have had their hospital and surgery bills for expensive eye muscle surgery paid for by the committee. The committee also met one month's mortgage payment of $100 on the Columbus Association for the Blind, Inc.'s Monett House at 221 E. Mound-st.

It continued its annual sponsorship of the Girl Scout Troop at the Ohio Blind School, 5220 N. High-st, and helped support the Children's Hospital Eye Clinic with substantial contributions.

"In fact," summarized Chairman James, "we've done everything we could to lessen the burdens of the blind and near blind and to aid in research into the causes of eye disorders."

Where does help come from when it's needed most?

Disaster?

No, nothing like that!! . . . We merely use this illustration to call your attention to other needs of the Hilltop community.

We have reference here to that everyday thing of helping this community and the people who live here and work here. We have a joint obligation and a job . . . that of working together as neighbors and friends.

The business people of the Hilltop . . . many of whom do not live in this community . . . have always recognized that they have an obligation to this community just as long as they have investments here . . . And too, they have a special interest in the community in that they are serving the people who do live here . . . some 65,000 of them!

And the people of the Hilltop have an obligation to their community in that they must stand up for everything that is good for the Hilltop. They have their homes here, their children are being raised here . . . and their daily lives are being lived here.

This joint obligation of the people who live here and the people who are in business here is an important one. Never a day goes by but the business firms of this community contribute something in time, energy, leadership or financial support to worthwhile Hilltop projects.

This is a reminder to all these 65,000 Hilltoppers that the business people of this community appreciate their patronage and support.

Help comes first when it is needed from friendly neighbors. Let's be alert to our jobs ahead . . . by working as friendly neighbors!

Your Handy Helpful Hardware Man suggests:
HOW TO PAINT EXTERIOR CONCRETE

A lot of homeowners hesitate to take on the job of painting exterior brick or concrete. But this big, coarse job of painting can be made fairly easy by the use of a roof brush or a clean, long-handled floor brush. A large tub can serve as the paint container. Cement paint, which applies a thin layer of cement and pigment, can be used if the surface has never been painted before. But it can't be used over another coat of paint. In this case, use a good grade of exterior rubber-base paint.

Local Man Named Rock Of Ages Sales Manager

Harold Heinzelman

A Hilltop man was recently appointed as sales manager of Rock of Ages Corporation, the largest granite producer in the world. He is Harold L. Heinzelman, of 3037 Crescent-dr.

Heinzelman has been with Rock of Ages since 1938, when he joined the company as a district sales manager. His success in this position led to his promotion in 1950 to Western division sales manager, and in 1954 to field sales manager.

For the past 20 years, he has made his home in Columbus, and most of this time has been on the Hilltop, where he has been active in fraternal and church work.

He plans to move his wife, Lillian, and a younger son, James, a West High School junior, to Barre, Vt., the home of Rock of Ages, during the coming summer. His elder son, John, a naval lieutenant, resides in Elizabeth City, N. C. with his wife and daughter.

JUNIOR COW-POKES, ATTENTION! Buckle on your six guns and come a runnin' down to Seiller's Saturday afternoon from 1 to 2. The Wrangler, popular star of the WBNS-TV show, Western Round-up is making a personal appearance at that time in the children's shoe department of Seiller's to inaugurate the opening of the U. S. Keds play shoe season. Harry Graham promised plenty of comic books and other presents for all Wrangler fans.

LIONS PRESENT GIFTS—Formal presentation of a new high-fidelity tape recorder to West Broad Street Elementary School was made last Thursday night by the Hilltop Lions club. Shown left to right are Miss Matilda Stewart, school principal; Jack Mitchell, chairman of the club's community betterment committee; and John Dickson, Lion president. The club also presented the school with a tachistoscope, given by sight saving committee, headed by Harold C. James, in a portion of the regular PTA meeting program. RECORD Photo

Hilltop Y's Men Told Of Heritage In Ceremony

"This YMCA you will serve as Y's Men is in its essential genius a worldwide fellowship of men and boys united by common loyalties to Jesus Christ for the purpose of developing Christian personalities and building a Christian society," stated Robert Strachan, Ohio Regional director of the International Y's Men's Club of Cleveland before a group of over 200 men and women to honor the Hilltop Y's Men during their induction ceremony into the International Federation of Y's' Men's Clubs.

"The YMCA reaches out to all mankind in more than 29 countries in the world. Last year in the U.S. alone its expenditures reached $112,000,000 and the Y had capital assets and endowments worth $367,000,000.00 Strachan stated. "For our 1800 branches in the U.S. and Canada, we laymen employ nearly 3800 professionally trained men to do the kind of job we want done," asserted the Ohio regional director.

This address was part of the program of the Hilltop Y's Men's Club Charter Night, held at Hoge Memorial Presbyterian Church on Tuesday, Apr. 19. The welcoming address was given by Dewey C. Parris, chairman of the Charter Night program. The invocation was by the Rev. George H. Alexander of the Hilltop Christian Church.

C. Carlton Hartley, chairman of the Hilltop YMCA Board of Management, acted as master of ceremonies. Henry Grimes, International secretary-treasurer, presented the club charter.

Six members of the Newark and Lancaster Y's Men's Clubs performed the induction ceremonies, at which time 24 new members were inducted. Charles Thompson, International director, made the inaugural charge to the officers.

William Hardgrove, president, Hilltop Y's Men, accepted the gifts presented to the group and the Rev. A. J. Wold, pastor, Hoge Memorial Presbyterian Church, spoke the benediction.

Hilltop Shriners To Receive New Candidates

A FORETASTE OF THE FUTURE will be in store for new candidates the Hilltop Shrine Club at the group's Spring get-together. Presiding at the initiatory rites before the initiation ceremony of the downtown Shrine Club will be new Hilltop officers, left to right, William Boothe, president; Edgar G. Final plans have been completed for the reception of new candidates into the Hilltop Shrine Club at the get-together meeting scheduled for Thursday, May 12, in the West Gate Masonic Temple, according to William Boothe, club president.

Although announcement cards have been mailed to all Shriners on his records, L. E. Saunders, secretary-treasurer, said the meeting is open to all Shriners, regardless of whether or not they have received notification of the pre-ceremonial rites.

As in the past, the semi-annual affairs of this nature, candidates will receive a sample of what is in store for them later at the initiation rites set for a future date at the downtown Masonic Temple. Other than this slightly ominous announcement, President Galloway would divulge no further details of the May 12 program.

A BOON TO YOU

Both Readers And Carriers To Benefit In New Record Delivery Pay Plan

Did you ever want to be a newsboy? Or do you have a boy that has been a newsboy or wanted to be one?

Most every boy at sometime has had a desire to have a paper route. For the most part there have always been far more boys that wanted to carry papers than there were papers to carry.

This was found to be true on the Hilltop about four months ago when the Hilltop Record circulation manager advertised for boys and he had an avalanche of replies.

At that time, some 65 outstanding young men of the Hilltop were hired to deliver your copy of the local community newspaper each Wednesday after school.

These boys have been going through a trial training period leading up to establishing a business for themselves

Families living in the area where carrier boy service has been set up have been receiving their paper each Wednesday afternoon. This policy will continue and as soon as routes can be established in the remaining area of the Hilltop proper these families will likewise receive their paper by carrier on Wednesday evening. There has been a wide approval of the new delivery time which allows people who work to receive the paper the same evening it is printed.

Starting about May 13 those families not having paid-in-advance subscriptions to the Record will be contacted by their carrier boy and asked to pay him at the rate of 20c per month for his service. The boy will receive a large portion of this monthly collection in his monthly pay and in prizes awarded for good service. This collection will be made about the middle of every month for that month.

Every Record carrier will have an identification card and each person making a payment to a carrier is requested to be given a regular printed receipt for that month's payment.

This plan will not affect subscribers living in rural areas or outside the Hilltop. They will continue to receive their paper by mail.

Subscribers living outside the Hilltop in the west of the city will notice that news of that area is no longer carried in the Record but is now carried in the new Franklin County News. Such Record subscribers however will also receive the Franklin County News until their Record subscription expires.

Bike Safety Glowing Tape A Good Gift

Six hundred bikes on the Hilltop will shine out as their young riders ride the streets at night, a safety precaution which will be given to them by the Hilltop Kiwanis Club next week.

Sam Alford, Kiwanian, stated that on Thursday, May 12 at 2 p. m., 850 boys and girls at West High School will vie for the 600 pieces of safety tape which glows in the dark. There are 1,200 bicycles at West according to reports.

Anyone who signed up to receive the "life-saving tape" must present his bike on May 12 washed clean so that the tape will stick.

Stickers are being made available to both junior and senior high school students at West High, Alford announced.

Camp Chase Post Auxiliary Plans Poppy Meeting

The American Legion Auxiliary of Camp Chase Post 98 will hold its regular meeting on Friday, May 6, at the Post House, 3211 W. Broad-st, at 8 p. m.

Mrs. Edward Thompson, who visited the Open Poppy Shop on Sunday, May 1, at the Veterans Hospital at Sandusky, has arranged a poppy program. The unit will have honored their Gold Star Mother guest, and will present each with a velvet poppy.

Mrs. Thompson, assisted by Mrs. Lillian McVay, are making plans for the Annual Poppy Sale which precedes Memorial Day.

There will be an all-day poppy party on May 11 at the post home for making the big poppies, cemetery wreaths, and decorations for the soldiers' graves.

Memorial Services Set By Legion

Camp Chase Post 98, American Legion, will sponsor services in memoriam of our war dead on Monday, May 30. The services will be held at Sunset and Alton Cemeteries.

The first service will be held at Sunset at 10:30 a.m. and immediately following, a service will be held at Alton. The Rev. Harold Dutt of the Westgate EUB Church will officiate.

The group will decorate the cemeteries on Sunday, May 29.

Mayor Sensenbrenner Tops For Re-Election In Voting

THE 26TH ANNUAL BIRTHDAY PARTY of Camp Chase Post No. 98, American Legion, and the auxiliary was held on Saturday, Apr. 30, at the new Everglades Restaurant. There were 296 persons present. Entertainment was furnished by Mrs. Lena Mazza and her accordion and "The Professors of Harmony" from West High School consisting of Bill Brennon, Danny Grant, Bob Straus and Bob Sutton. Speaker of the evening who Robert Bangham from Wilmington who is executive secretary of the Ohio Society of Certified Public Accountants. The highlight of the evening was the annual $1,000 gift presentation to Mrs. Bertha Frieburg, 2603 Indianola-av. Shown left to right are Ray McVay, post commander; Mrs. Lillian McVay, auxiliary chairman of the party; Mrs. Louise Boothe, auxiliary president; and Harry Richter, past chairman of the party. A Community Venture

One Hundred Percenters And All For 'Y' Building Fund

Saturday night was not the loneliest night of the week to many Hilltoppers as they danced and worked at the Hilltop Y's Men's Spring Frolic held at West High School Apr. 30. Ever penny earned from the dance, 100 per cent, was turned over to the Hilltop YMCA Building Fund. According to William Hardgrove, president of the Y's Men, more than $400 was raised for the building campaign.

There were more than 100 civic minded Hilltoppers who contributed of their time and talent to raise money for the Y building.

For example the gifts included soft drinks given by local bottling companies free, tickets for the dance printed gratis, and labor in selling the tickets and conducting the affair was all donated.

Carl Hartley's orchestra of nine pieces played throughout the frolic. The orchestra donated their services as a contribution to the building fund.

The money was raised in several ways by the Hilltop Y's Men. Advertising was sold to leading merchants on the Hilltop in the Apr. 27 issue of the Hilltop Record with the entire amount of money received being turned over to the building campaign. Members of the club sold the ads and the Record employees donated their time in preparing the ads for publication.

Tickets were sold for the dance with the proceeds going to the campaign. Refreshments were donated for sale during the dance by the Seven-Up Bottling Company, Pepsi Cola Bottling Company and Get-Up Bottling Company, all of Columbus.

The prime object of the Y's men, stated President Hardgrove, was to have no expense involved in the project, allowing the entire proceeds to go 100 percent to the YMCA Building Fund. A complete tally of the money has not been made since ticket sales receipts have not all been turned in.

More Foot Patrolmen Needed To Protect Hilltop—Phillips

"Columbus has the best fire department in the country, but it doesn't have a large enough police force to be effective in an emergency."

This opinion was voiced by Leo Phillips, director of city public safety, at a meeting of the Y's Men's Club of the Hilltop YMCA Tuesday, Apr. 26, at the Casa Maria Restaurant.

"Motorized patrolmen are ineffective as a deterrent to crime," declared Phillips. He maintained that more foot patrolmen are needed to give the Hilltop and other sections of the city the necessary protection.

"Over 500 traffic tickets are issued daily, but only 300 are paid," he continued. "Over $150,000 is lost because Columbus does not have the manpower to enforce their payment."

At least 2½ policemen are required per 1000 population. We do not have nearly that many here," said Phillips.

Phillips boasted, "Columbus is the fastest growing city in the USA."

"We need more money and we need more men in the police force, and what we need most of all are foot patrolmen," concluded the safety director.

Six Boys To Learn Of Government In Buckeye Boy's State Program

Robert Taber

Dave Parker

Donley Wray

Lew Neer

Brian Lewis

Bill Bethin

Six boys were chosen from two high schools to go to Buckeye Boy's State from June 10 through 19 to become familiarized with government on city, state and national levels. To be selected the boys must have averaged a 'C' or better in school and excelled in leadership, character, scholarship, service and school activities.

A panel of seven men chose the boys. On the panel were members of various Hilltop organizations: Richard Wilson, Richard Martin, William Burns, J. Curtis Allen, Donald Hamill, George Levissy and Ray McVay.

The five boys chosen from West High School and one from Holy Family High School are being sponsored by the American Legion. The boys and their co-sponsors are:

Dave Parker, Hilltop Kiwanis Club; Donley Wray, Camp Chase Post; Lew Neer, Hilltop Kiwanis Club; Brian Lewis, Hilltop Business Association; Bill Bethin, Hilltop Lions Club; and Robert Taber, The 76 Club.

Alternates for Buckeye Boys State were in this order, West High, John Edwards, Ray Williams, Jerry McLinn, Wade Spangler, and John Love, From Holy Family School, Wayne Wright.

Plan 200 Home Subdivision On Hilltop Set For June 1st

The urge to provide moderate priced air conditioned housing for the public has spurred the Eureka Construction Company, newly formed corporation, to design a 200 home project at an estimated cost of $3,500,000. Work will begin on June 1. The project is located east of Brookshire Park at Eakin, Wayne and Richardson-ave.

Thomas A. Safford, vice-president and sales manager of the new firm has his offices at 1804 Sullivant-av. President of the Eureka Company is Harold E. Luft, 1406 E. Livingston-av. James R. Bolin, 942 S. Richardson-av is secretary-treasurer.

The 47-acre tract of land is a very desirable purchase, said Safford. It is a flat level field close to transportation, schools and shopping areas. It is very close to downtown, he pointed out.

There has been a good demand for housing in the area, Safford stated. "For this reason we are beginning the project." All houses will be financed under FHA.

The first home will be only one block from the bus line. This is very unusual as it is more than likely in most subdivisions that the first home is built way back, he said.

Project homes will include a wide variety of homes, no boxes, but excellent houses with basements and full air conditioning, Safford asserted.

There will be three-bedroom, ranch-type homes, featured at the price range of from $12,000 to $18,000.

The development will be handled by a group of Columbus builders. All sales will be handled by the Safford Realty Co. Stockholders of the new corporation include Luft, Bolin, Safford, L. R. Green, 879 E. Livingston-av, and Louis Ruscilli, 881 Harrison-av.

WILL IT REALLY FLY? John B. Israel, 292 N. Eureka-av, pharmacist at West Hill Drug Store, is shown in a helicopter glider he built at a cost of $125. According to Harris Woods, North American Airlines employee and experimental producer of two models of the glider, shown standing, the craft should fly. The plane will fly at 35 miles an hour with a take-off wind of only 10 miles per hour. It weighs 165 pounds. Hilltopper Israel stated he has always been interested in flying, but because of his eyes when he was younger he was unable to enter the field. Now the gadget-minded Israel pins his mechanical ability at getting the trailing edge of his rotor in shape for the take-off which will be done soon at a local air field. Staff photo

With Peg Warren:

About The Hilltop

Happy Mother's Day. The home revolves around "MOM" by instinct she is a, home-maker, psychologist, teacher, philosopher and with love she weaves man's future pattern in life . . . Palm Sunday afternoon, the Clarence Rathburns' daughter, Edith, exchanged wedding vows with Joe Smith, son of Mr. and Mrs. Pearle Smith of Athens in the Hilltonia United Brethren Church. Rev. Carl Wilson officiated at the open church ceremony . . . In the very near future, Rev. Ralph King and his family will move to Newark, where he will assume pastorate duties of the Pilgrim Community Chapel of that city. Rev. King has been in church extension work for many years. A native of Wellsville, O., he is a graduate of Martinsville Bible College, Martinsville, Va.

It's a baby girl for the Al Theados of Peoria, Ill. (She is the former Mary Ansel) . . . A belated happy birthday wish to Mrs. Ida Ball who is 80-years young. Mrs. Ball is a resident of Sun Ridge Rest Home . . . Little Barbara "Barber" Bain postcards "hello" from Mayo Clinic, Rochester, Minn. She plans to be there another six weeks and will enjoy hearing from you . . . Last week, before leaving for the National Secretaries' banquet, Mary Johnson received an orchid with an attached card to the "finest secretary" from her boss, Bishop Hazen G. Werner . . . Friday, Diane Louise Hilf, daughter of Mr. and Mrs. Daniel Hilf, will marry Marvin Lee Geyer, son of Mr. and Mrs. Charles L. Geyer of Grove City in the Bethlehem Lutheran Church . . . Juanita Ann Durham and Mr. William Gary Mosely-Williams of Ferndale, Mich., are planning a summer wedding.

Former Hilltoppers, the Russell Seelys of Pittsburg, are back to stay. Seely is a designing engineer at North American . . . The Michel brothers, George and Fred, veteran employes of the Ohio Bell Telephone Co. are retiring . . . Walter E. Cole Jr., longtime associate of the Columbus Builders Supply, Inc., has been appointed general operations manager. He is a Navy veteran of World War II . . . Recently, Mearl E. Weaver and Howard Harris were feted at the Quarter Century Club Banquet at the Athletic Club. Weaver received a gold watch and Harris a 30-year pin . . . Harry Cline, life member of the Telephone Pioneers and well known in Masonic circles, has retired after a career of more than 46-years as an engineer for the Ohio Bell Telephone.

In 1950, insurance company surveys indicated drivers under 25 had more accidents so their insurance rates went up. Now, some companies are lowering the rate for women under 25. Why? They say that young girls don't take the chances on the highways that boys do. Maybe if the boys had less accidents their cost of insurance would be less too. The Safety Council of the Columbus Chamber of Commerce says, no matter how old you are, drive carefully . . . safely. It's cheaper in many ways.

Long Drive And Broken Jar Win Two Men $5 Each

In the middle of the fairway at George's Drive-In Golf Range at 6980 W. Broad-st has hung a glass bulb containing $5. For a long time the jar has been there without so much as a lucky golfer's ball striking the glass.

This week two men struck it rich when on separate days Fred Haueisen of Hilliards and Ellis O. Chambers of West Jefferson both broke the jar and claimed the reward for a long drive.

TEEN TROUBLES

by John Douglas, M.D. and Mary Douglas

Question: I want to date. My parents won't let me. How can I make them understand?

Answer: first, have a friendly, heart to hear discussion of the matter and find out why your parents object to your dating.

Do they think you're too young? Don't they like your friends? Are they afraid you can't take care of yourself?

Remember, no matter how it seems to you, your parents are only doing what they believe to be best for you. They know a lot more about life than you do. They know a lot more about life than you do. They know the dangers and they want to protect you from them.

If they say you're too young, it may be that the things you want to do are too advanced for your age. Or it could be only that they think you need more sleep—for your health and your school grades.

You might try having some couples over for record sessions, etc. This would let your parents know your friends and the kind of things you do on your dates.

If they don't like your friends, perhaps it's because they don't really know them. Invite them over—for a radio program—or for games—or for dinner. Then discuss them with your parents. They'll tell you why they object to certain ones. It's all for your good.

If they're afraid you can't take care of yourself . . . well, it's up to you to prove to them that you can. You can do this by using good judgment in choosing your friends, by getting home at a sensible hour and by refusing to do things you don't approve of.

Ten-Point Check-Up Is Motorists Safety Valve

It may save your life if your car gets the ten-point safety check-up recommended by the Safety Council of the Columbus Chamber of Commerce. Have an expert check and — if necessary — fix your brakes, headlights, rear and stop lights, tires, windshield wipers, muffler and exhaust system, steering, glass, horn, and rearview mirror. You'll help check accidents if you check your car . . . today.

Three out of four traffic accidents happen in clear weather on dry roads.

Because people turn to him in time of sorrow, he knows so well that is no time for the bereaved to have to hurriedly select a cemetery lot.

"God Could Not Be Everywhere. So He Made Mothers"...runs an Eastern proverb.
LET US THEN SPEAK of our love and our high appreciation for all mothers everywhere; our debt to the mothers who have passed into the Heavenlies, our gratitude to the mothers who remain to grace and adorn our homes, our appreciation for the mothers of today in the midst of their great sacrifices, our tender solicitude for the young mothers and the mothers-about-to-be as they heroically dedicate themselves to the ongoing of the race.

First Aid for Pets and Fishing Volumes Ready for Readers Here

By Mildred Phelps

"First Aid for Pets" by Lean Whitney is a useful new book at the Hilltop Branch Library, 2965 W. Broad-st. Owners of dogs and cats will find it particularly helpful. Symptoms of all types of diseases and ailments are given in full description with recommendations for treatment. Written by a veterinarian, the book is designed to give the pet owner knowledge necessary to evaluate emergencies and to act rapidly and wisely in them.

"Let's all go fishing." In the introduction to his new book "The Complete Book of Fresh Water Fishing," Larry Koller states that it's never important how a man fishes. However, taking a fish or two is a highly desirable result for most anglers, and to this end this book is devoted, to supply you with the how-to-do-it information on catching game fish and to offer suggestions on methods you may not have tried, as well as to arouse your interest in types of fish you haven't yet taken. Methods outlined are basic, all the results of many years of angling experience.

High on the current best sellers list is the novel by Robert Graves, "Homer's Daughter." Here is the story of a high-spirited and religious-minded Sicilian girl who saves her father's throne from usurpation, herself from a distasteful marriage, and her two younger brothers from butchery by boldly making things happen instead of sitting still and hoping for the best. Other books on the list that are on the Hilltop Branch Library shelves are "The View from Pompey's Head" by Hamilton Basso; "Love is Eternal" by Irving Stone; "Gertrude Lawrence as Mrs. A" by her husband, Richard Aldrich; "The Power of Positive Thinking" by Norman Vincent Peale, and "The Day Lincoln Was Shot," by Jim Bishop.

Henry Steele Commager and Richard B. Morris are publishing a new American history series called The New American Nation Series. First book to be published is "The American Revolution, 1775-1783" by John Richard Alden. As the title indicates, this volume covers the great creative movement in our history whose influence was felt throughout the western world. There is little doubt that the American Revolution did much to define and clarify the rights of mankind.

Second volume in the series is by Arthur S. Link. "Woodrow Wilson and the Progressive Era—1910-1917," covers another reform era, this time within the political ranks of the country. Out of the progressive movement of this period have grown many measures enjoyed today, such as minimum wage laws, social insurance, and workmen's compensation. A readable series to watch and enjoy.

New Dodge Trucks Now on Display

The new Dodge trucks with the Chrysler Corp. "Forward Look" are now on display at West Side Motors, Inc., 1350 W. Broad-st. Seven engines with 12 different power ratings are available.

Greatly increased power, new styling, new cabs with wrap-around windshields and rear windows, increased glass area, new automatic transmissions and the expansion of power steering and power brakes into additional models are but a few of the new features designed to reduce hauling costs, improve driver comfort and increase safety.

Maximum gross vehicle weight ratings of the new trucks range from 4350 to 40,000 pounds, while gross combination weights range up to 60,000 pounds.

Guns, Model Guns Youth Designed

An 18-year-old West High School senior has an unusual collection of guns: scale models of the real guns, so excellently constructed that they are hard to tell from the original.

The boy is Mike Matheny, son of Mr. and Mrs. J. O. Matheny, 179 N. Warren-av. Mike has constructed these guns in his spare time and in the wood shop at West. He has his own workshop at home, so that he almost always has a gun in the making.

Among these are reproductions of the Colt .45 automatic, 1848 Colt Dragoon, German M-P .47-50, British Lee Enfield, Thompson submachine gun, Browning Automatic Rifle, and Kentucky Rifle. All are made of wood except the Kentucky Rifle, which is part wood and part metal. These guns were displayed at the annual Arts and Sciences Night at West.

His collection also includes two machine guns and two rifles.

He also collects real guns, and his collection is valued at more than $1700. They date from the Revolutionary War through the Spanish-American War.

Mike has a sister, Linda, in the 10-A at West.

SALEM METHODIST CHURCH, at the corner of Alkire and Demorest-rds, held a rededication ceremony commemorating the completion of extensive remodeling and the addition of a large wing to the sanctuary on Sunday, May 1. Salem Methodist Church Dedicatory Service Held

Salem Methodist Church 2-30T

An addition to the Salem Methodist Church, at the corner of Demorest and Alkire-rds was dedicated Sunday, May 1. A recently completed addition to the sanctuary doubled the church's size and brought the seating capacity to 200.

Bishop Hazen G. Werner gave the dedication sermon. Greetings were brought by Dr. Bland L. Stradley, vice president of Ohio State University.

Charles Everly played the new organ at the special service. The junior and senior choirs sang several numbers.

The morning worship service sermon was delivered by Dr. Lester L. Roush, treasurer of the Ohio Methodist Conference and Board of Trustees. Martha Breech played the organ and both choirs sang.

In addition to enlarging the sanctuary, recent remodeling at the church provided two large social rooms and restrooms in the basement, a new stairway to the basement, a new oil heater and a modern kitchen. Furniture has been ordered for the social rooms and the organ now being used on loan may be purchased by the church in the future.

The ministers at Salem church are Dr. C. A. Moore and E. L. Motter, who have been friends since they were college room mates 37 years ago.

He Who Play Horse May Play Mourner

As a practical joke, a worker took a quart-size bottle of ink and marked it "free wine." Then another worker came along and sampled the bottle. A short time later he died in a hospital — poisoned by a practical joke. The Safety Council of the Columbus Chamber of Commerce says childish jokes, or horseplay, don't belong where men are working.

Heroism of Early Physicians Mirrored in Life of B. F. Gard

Today's column is written by John O. Marsh, former curator of history of The Ohio Historical Society and a member of the historical society's TV committee and committee on State and Local History.

B. F. GARD
EARLY COLUMBUS DOCTOR

The Heroism of early physicians was mirrored in the life of B. F. Gard, a Columbus doctor, who, while performing his professional duties in 1849, succumbed to the ravages of cholera.

A native of Washington County, Gard was educated, in part, at the United States Military Academy. A few months before the graduation exercises of 1828, he resigned and enrolled in the Ohio Medical College, Cincinnati, where he completed the prescribed course of instruction. Practicing in the rural areas of the state during the 1830's and 1840's he moved to Columbus on the eve of the cholera epidemic of 1849.

With the appearance of the pestilence, Dr. Gard's training as a soldier found a reflection in his devotion to duty and to his chosen profession. While a few physicians joined the hundreds who fled panic stricken before the scourge and others refused to treat the malady Gard, realizing the seriousness of th epidemic, volunteered his service and skill to the distraught citizens. He rendered medical service to those afflicted in Columbus, Franklinton, and in the adjoining rural areas. In addition, as one of the seven physicians appointed to assist Dr. Lathrop, prison physician, he treated the inmates of the Ohio Penitentiary.

On July 11, 1849, Dr. Gard succumbed to the then baffling disease he had volunteered to combat. He was buried the following day in Green Lawn, the second interment to be made in the newly established cemetery. He was described by the Columbus press as an "indefatigable worker," a professor of religion, and a martyr to his profession.

Next week: The Junior Historical Societies Plan in Franklin County.

Veterans' Memorial Special Tour Planned By Civic Clubs

Norman T. Peterson, 200 S. Algonquin-av, is treasurer of the planning committee for the 1955 Service and Civic Clubs' Armed Forces luncheon. The affair will be held in the new Veterans' Memorial Building, 300 W. Broad-st, at 12 noon, Monday, May 16, five months before the public opening in October.

This is the first activity to be held in this new civic center building, and the public is urged to take advantage of the opportunity provided for a preview of the facilities which will become available to the whole community in the Fall.

Tickets for this luncheon are available at any Wandt-Bristol Drug Store, and from any member of the Mercator Club.

In addition to getting a chance to preview the new Veterans' Memorial Building, persons attending this affair may hear the Ohio State University Symphonic Choir of 50 voices, under the direction of Professor Louis M. Diercks, and Admiral James S. Russell, chief, Bureau of Naval Aeronautics, give a concise and timely presentation of our efforts to use "Power for Peace."

In Passing

By Esther Weakley

A MOTHER ENTERS HEAVEN

How it would please her to be entering Heaven
Before the saints were up! With ample time
To call on startled neighbors before seven
Before their breakfast things were done. Then climb
The everlasting hills, restrained no more
By that old halting pain; make gingerbread
For all the cherubs in the cloud next door,
And lunch on heavenly manna, honey-spread.
Then for a long and blissful afternoon,
With reunited family gathered round,
I think her spirit would be most in tune,
If from the rainbow remnants she had found,
She might begin a task supremely sweet—
Braiding a carpet for her dear Lord's feet!
—Belle Chapman Morrill. (Reprinted.)

• • •

A few years ago I listened to a Mother's Day sermon via radio delivered by a local minister. He praised the old-fashioned mothers and berated the young mothers of that day—and I suppose of today too, for I understand he is still "deploring" the cigarette-smoking, shorts-wearing mothers of this generation. But did he once give the modern mothers credit for anything? He did not! He should go to a super market some day and watch the young mothers buying scientifically-prepared baby food, and he should ask doctors how anxious young mothers are that their children have all the disease-prevehtative shots. And has he ever seen a young mother stuff a "pacifier" into her baby's mouth if it cries? So they wear shorts and smoke! They also keep clean homes, cook good, nourishing meals, keep husband and children clean, take an interest in politics, work for any worth-while cause (remember the Mother's March on Polio?) and Rev. Who-sis, they even go to church and send their children to Sunday School. My great grandmother raised ten of her own children and six of her sister's and in her day she was considered a "good mother"—but she smoked a pipe. She wasn't Granny without a pipe in her mouth, and a lot of her contemporaries smoked pipes too. I like the young mothers, and have several in my family so I know whereof I write.

TO A LOVELY LADY—MOTHER

They must have taken warm and golden sun
And bright young dreams to make your lovely smile,
They gathered your soft laughter from the wind,
Perhaps your tears from rain; and all this while
I am still remembering when I first
Came to know that angels really stayed,
Little words, your gentle, gentle voice
Along at dusk, when suddenly afraid
I would look for comfort in your eyes;
Close my own, and lest that I should wake,
Gently you would steal away.
You are
The loveliness that only God can make.)

CLAY HILLS MOTHER

Once, her eyes were as brown as an autumn leaf,
Her lips as red as a late summer rose,
She was tall and [illegible] as a young creek willow,
Her skin was smooth and white as snow.
Today at seventy, her eyes have the ageless
Light of a soul in whom memories still blaze,
And upon her face rests a calm serenity
That comes to those who have known want and pain,
Yet of one who has found peace in the simple things of life
That had to do with faith in God, clay rock soil, and rain.
—Myrtle L. Reeder (Reprinted).

HELLO, FOLKS!

I'm your Hilltop Record carrier... the boy who delivers a copy of your community newspaper to your door—every week—good weather or bad!

Now I'm going into business for myself and, beginning May 13, I'm going to ask you to help me in my new venture by paying 20c a month for my service.

Everyone knows that many famous men got started in life as newsboys and I hope I can also make a name for myself. However, I realize that there will be more to my job than just distributing the Hilltop Record. That's where you can be a big help to me, too!

First of all, it's of the greatest importance to both my customers and to me, that I leave copies of the Hilltop Record just where they are wanted... One family may want their copy left at the side door; another at the rear. Just say where—I'll do the rest.

Then, there is also that possibility that, for one reason or another, you do not receive your paper. In that case, just call JO. 9444 and a copy will be rushed to you—pronto!

As you know the Record is one of the best community newspapers in America and has won a long list of awards in newspaper shows. My boss says they will continue to do everything possible to serve the needs of this community. Whenever you have a community news item, let us have it as soon as possible.

Those of you who have paid in advance subscriptions to the Record will not be called on until your present subscription expires. At that time I will personally notify you and arrange to collect for your paper thereafter. In the meantime I want you to tell me if my service doesn't please you.

Remember, I'll be stopping in to see you about the middle of every month and I hope that you will agree that my service to you is worth every cent that I ask. We believe everyone should read the news of the community in the Hilltop Record.

Ninth Annual Hilltop Relays Set At Magly Field

By Woody Owen

Tuesday, May 10, will witness the ninth annual Hilltop Relays at West High's Magly Field. East High, the defending champions, Central, South, Linden, North and the host squad, the West Cowboys, will be the participants.

The strong East squad will again be favored, and should capture its third consecutive team title of this annual event, with the Cowboys expected to give them the most competition.

All field events will start promptly at 7 p.m. The following events are listed: shot, discus, high jump, broad jump and pole vault. Two entries from each school will be in each event. Track events will start at 7:30 p.m. promptly.

Appropriate awards will be presented by the relay queens as soon as the event is concluded.

Only one contestant from each high school will be permitted in individual track events.

Junior high events are limited to the 440 and 880 yard relays. These events will precede the same high school event. Trophies and ribbons will be awarded for these races also.

Scoring for individual events will be 6-4-3-2-1; for relays 12-8-6-4-2. A trophy for the individual high scorer will be awarded. Track events will take precedence over field events when boys are entered in both simultaneously.

All 440 and 880 relays will be run in lanes all the way.

Four tries only will be permitted in the shot, discus and broad jump.

Time Schedule Set

Time schedule and the record for each is as follows:

7:30 p.m.—120 yard high hurdles and all field events 15.4, shot—52 ft. 2½ in., discus—150 ft. 10½ in., pole vault—12 ft. 2 in., broad jump—23 ft. 3¾ in., and high jump—6 ft. ¾ in.; 7:40—100 yd. dash 9.9, 7:45—880 yd. run 1:59.6, 9:05—880 yd. relay (junior high) 1:40.0, 8:15—880 yd. relay (senior high) 1:31.5, 8:25—440 yd. dash 45.1, 8:35—shuttle hurdle relay 59.6, 8:50—two mile relay 8:33.5, 9:00—220 yd. dash 22.4, 9:05—mile relay 3:33.7 9:15—440 yd. relay (junior high) 49.0, 9:25—440 yd. relay (senior high) 45.1.

Baseball Team Ready

West High School's baseball team got back on the winning trail last week as it captured two of the three city league contests in which it participated, and thereby remained in the title scramble, as no team in the league is undefeated and the first round of play is yet to be concluded.

Cowboys Cop Lead

Wednesday, Apr. 27, the Cowboys nosed out Aquinas 3-1 as junior moundsman George Watkins scattered six hits successfully to take a decision over the Terriers' diminutive twirler, Bob Ort, who allowed only three safeties with all runs being of the unearned variety.

Thursday, Apr. 28, the North High Polar Bears blasted out 12 safeties and combined these with some shoddy defensive play by the Cowboys to take a 10-3 decision. Eight of the Polar Bears' scores were unearned, as well as all of those made by the locals.

Tim Lehman, an all-city outfielder, twirled brilliantly for the winners, as the Cowboys could solve his southpaw slants for only four safeties, two of which were of the scratch variety.

Second sacker, Bill Edwards, blasted out three hits and also stood out defensively for the Northmen.

On Friday, Apr. 29, the Cowboys outlasted East to capture a 13 inning marathon by a score of 2-1. Bob Courtney and George Watkins combined to hold the Tigers to six safe blows with the latter receiving credit for the win.

The only score by the Tigers was a 325-circuit blast by Bob Wallace. The Cowboys' winning margin came on a walk to Clapsaddle, Williams' double and a sacrifice by Nebinger. Dave Randall, with four safeties, was the Cowboys' leading stick man.

The Cowboys were to have met Linden in the Central District Tournament on Tuesday, and the winners will meet either East or North on Thursday, May 5.

Hilltop 'Y' Indian Guide Dancers Face Busy Month

By Bob Schmidt

Sunday, approximately 100 Indian Guide Dancers, Big Braves and their families went to Marion to attend a YMCA Indian Guide Induction.

The Hilltop Nation Longhouse induction team composed of Frank Watts, Stan Ruoff, Dewey Parris and Harry Grashal assisted by the Indian Guide Dancers inducted three new Indian Guide Tribes from Marion, into the National Y Indian Guide Organization.

Indian dancers presented the war trail dance, the Apache double dance, buffalo dance, eagle and buffalo dance. Big Brave Red Fox Harry Grashel, is now serving as the official tomtom beater for the Indian Guide dance team.

The Y Indian Guide dance team will perform this evening at the annual mother and daughter banquet at the Westgate Methodist Church. The program will consist of an opening talk by the Big Chief Two Bear, Frank Watts of the Hilltop Nation Longhouse and then a half hour's program will be presented by the Indian dancers.

All of the Indian Guide Braves from the Ten Y Indian Guide Tribes of the Hilltop YMCA Nation are anxiously looking forward to their annual campout at the South Side Y Park May 7 and 8. They will assemble May 7 at 3 p. m. at South Side Y Park at which time they will ready camp and prepare the council ring and campfire for the evening's induction. Three new tribes will be inducted and they are the Apache, Dakota and Seneca.

There will also be other new Braves from other tribes who will also be inducted at this ceremony. Immediately following the campfire induction, the little braves will enjoy Indian lore film and refreshments.

Sunday morning they will enjoy an early morning hike with their dads and also will have an outdoor worship service. Charles Klippel, executive secretary of the boys' branch, will lead this devotional period.

What Do You Think About City Finances?

Now that the primary election is over and both sides are claiming that the results are very clear-cut evidence that they are doing things the way the public wants maybe it is time that the public be brought into the picture and let it be known what is wanted.

Such an opportunity presents itself on this Friday evening at city council chambers when there will be a public hearing on the 1955 budget—four months later than it should be, due to a political move of council.

There can be an doubt that there is a lot of confusion down at city hall and the primary election has served only to muddy the water all the more. It is really too bad for Columbus that there is no more cooperation between the council, auditor and mayor than is present.

Columbus needs a finance director but it is quite apparent that council will make no such concession this year.

On the eve of the primary election council presented a "balanced budget" which cut thousands of dollars from the various departments which will result in but one thing—curtailed services to the citizens of a rapidly growing city.

As of late this past week the various department heads had not received copies of the new "balanced budget" to direct them in their efforts to run their departments and upon inquiry were advised that they were not available. This is indeed a closed corporation!

How do you feel about city finances? Do you want your garbage and refuse to remain in the alleys? Do you want fewer police and firemen? Do you feel the health department should reduce its services? Should we close some playgrounds this summer? Is this the way to balance a budget? Or is it just a simple political method of the Republican council to try to place one of its members in the mayor's office?

You have some say in this matter. Why not be down at council meeting this Friday evening?

Mother's Hairpin

Last Thursday noon on the occasion of the presentation of the Mother of the Year award to Mrs. Catherine Cramer by the Hilltop Kiwanis Club the following poem was read by Mayor Jack Sensenbrenner and we reprint it as a little tribute to Moms everywhere the week after Mother's Day.

The doorbell broke the other day.
Pop couldn't make it ring,
Said he: "I'll have to get a man
To fix the blamed old — thing."
My mother said: "Oh, don't do that.
Think what you'd have to pay."
And then she took a hairpin out
And fixed it right away.

We lost the bankbook key last week.
'Twas when the door was locked;
Pop fumed and said things till
The neighbors were all shocked;
Then Mom she got a hairpin out
An' poked, an' pretty quick
She had the bolt turned in the lock.
The hairpin did the trick.

There's nothin' much that Mom can't do
With hairpins, seems as like,
One day she'll fix Pop's busted watch.
An' next 'twill be my bike;
If we was poor I'll bet that she
Could make hard luck take wings
By goin' round the city with
A hairpin, fixin' things.

Ronald Jones New President Of Hilltop Lions

Ronald Jones

The end of three meetings for the Hilltop Lions Club brought relief to heavy Gold and Purple campaigners. The day of elections came and parties were forgotten as Ronald Jones of Jones Lumber Company was named the new president of the Lions.

During the hotly contested electioneering members of the two party political system vied with one another for political supremacy. The Golds platform was to symbolize the gold rush and its participants acted Dogpatchish in both platform and nature. The Purples were opponents.

One stunt which was considered an especially dramatic portrayal was the pine coffin on wheels with a Gold party body inside sponsored by the Purple party. The Purples wheeled the coffin to potters field . . . which they felt was to be the end of the Golds. The Gold party, on the other hand, had six men from the gas company to play Spike Jones type music with a Dogpatch theme.

Old and new club officers include: John Dickson, General Motors, Ternstedt Division, old president; Ronald Jones, Jones Lumber Co., new president; Ronald Jones, old first veep; John Grassie, Lauterbach and Eilber Insurance Co., new first veep; John Grassie, old second veep; Francis Higgins, General Motor's Ternstedt Div., new second veep; Francis Higgins, old

For the past six years of its existence as a service club on the Hilltop, the local Lions Club has established a record for assistance to the community in sight-saving and welfare work.

Two hundred and eighty men are to participate in the door to door sales.

Fifteen thousand papers will be printed, the composition, ad sales, and distribution of which will be entirely done by the Lions Club.

The proceeds will be spent for community betterment and sight-savings. All of which is spent primarily on the Hilltop.

Earned $5,200 Last Year

Last year's sale netted $6,200. It was spent on eye examinations, glasses, eye charts, tachistoscopes, Christmas baskets, eight hi-fi tape recorders for all Hilltop and West Side public and parochial schools; financing of three buses to take 150 YMCA boys to Old Man's Cave (the club even supplied 20 chaperones); financial aid to Pilot Dogs, Inc., a non-profit organization for the training of pilot dogs for the blind; and $1,800 to needy Hilltop families.

The club has sponsored and outfitted the Little League Baseball teams, and sponsored and staged Easter egg hunts at Westgate Park for 1,500 kids. They have also contributed to the eye clinic at Children's Hospital.

Hilltoppers Seek Clothing For Cancer Clinic

Camp Fire Girls of Columbus will go door-to-door next week collecting specific used articles for the Rays of the Columbus Cancer Clinic.

On the Hilltop pickup of materials will be directed by Mrs. James Matheny, 179 N. Warren-av, chairman; Mrs. Wilbur Stanfield, 78 N. Oakley-av, vice-chairman; Mrs. Ken Dickerson, 3121 W. Broad-st, secretary; and Mrs. Donald Ault, 2922 Fremont-st, treasurer, of the district Camp Fire Girls.

The rays of the Cancer Clinic are in urgent need of men's old shirts (any color); old white sheets and old white pillow slips. The shirts are converted into night shirts by removing the collar and shortening the sleeves, according to Mrs. Matheny, and the sheets and pillow slips are made into bandages, bed pads, and wipes for use for the clinic's cancer patients.

There is a constant need for such items, but at the moment Mrs. Helen Haughton, 642 Bulen-av, superintendent of the Cancer Clinic, reports the ever-growing case load at the clinic, combined with the shortage of funds, makes the need more pressing now than ever before.

The Camp Fire Girls will make the collection all next week. Homes which might be missed during the canvass can notify the Camp Fire Girls office by telephone (CA. 8-4341) and someone will call for the items at a later date.

New St. Agnes Parish To Open Elementary School This Fall

Plans for the formation of a new St. Agnes grade school—the thirty-fifth Catholic elementary school in greater Columbus—were announced this week by Rev. Bennett Applegate, superintendent of diocesan schools.

The Hilltop school will accept first and second graders when it goes into operation, Sept. 6. Classes will be held in the parish hall, the east unit of the new church plant.

Registration of first and second graders has been scheduled Sunday by Rev. Robert R. Schmidt, pastor, following the 7, 8:30, 10 and 11:30 a. m. masses. At that time, information regarding immunization shots and health check-ups will be given out to the parents.

The school will draw pupils now tending St. Aloysius and St. Mary Magdalene Schools. In effect, Rev. Applegate said, it will greatly relieve overcrowded conditions at St. Aloysius.

Two Sisters of Notre Dame de Namur, who resid at St. Joseph Academy, will teach at the school, Rev. Applegate said.

Although classes will open in the newly-constructed parish hall, it is hoped that a school building eventually will be erected on the spacious nine-acre church plot on W. Mound-st, between Wheatland and Wayne-ave.

St. Agnes parish was organized by Bishop Ready in April, 1954. Ground was broken by Rev. Schmidt last September, and the Bishop blessed the cornerstone of the church last Oct. 24. The new parish hall, constructed by the Kent Brothers Co. from plans drawn by Columbus architects Ramsey, Croce and Abbot, is a one-story brick building, featuring a cement block interior and laminated wood beams.

A Chance To Meet Your Carrier Boy And Pay For Your Record

Residents of the Hilltop who have been receiving their copy of the Hilltop Record by carrier boy on Wednesday evenings will have an opportunity to meet their carrier starting this week-end.

Beginning Friday, Record carriers will be calling on all their readers who are not paid in advance. Each month thereafter the carrier will call on you and ask that you pay 20 cents per month for his service in delivering the Record.

Persons who have been receiving the Record by mail previous to the change-over to carriers will not be called on if their subscription has not expired. When it expires the carrier will notify you and will ask that you pay by the month. He will, however, accept payment for six months or a year in advance.

It is suggested that Record readers be sure to ask their carrier for a receipt.

Remember, you are helping a young man establish himself in a business of his own when you pay him for his services as your carrier.

From The
Top O' The Hill
By Betty Daft

I really doesn't seem fair that a little gal's first adventure should end in near-tragedy, but it was so for a tiny Hilltopper last week. Cindy Lou Jones, one-year-old, of 3613 Camp Chase-dr, on her very first climbing expedition last Wednesday, May 4, found a can of paint thinner and swallowed some. She was taken to Mt. Carmel Hospital by emergency squadmen for treatment and returned home, where she was bedfast until Monday. She's coming along nicely now.

Ross Hilton, 13, of 226 N. Wayne-av, travelled alone last week, via TWA, to Redwood, Cal. The young traveller was accompanied by his mother to Chicago, where he boarded a plane for San Francisco. A friend met him there and drove him on to Redwood where he will live with his father. Mail will reach him if sent in care of Anne Hilton, 2760 Blenheim, Redwood City, Cal.

The thoughts of Mrs. Ann Remington, 123 N. Ogden-av, were surely with her son, Jack, on Mother's Day. He underwent an emergency appendectomy at Salida, Colo. Reports are that he is getting along fine . . . Mr. and Mrs. Leonard Robins and sons of London were guests at the Donald Stemm home, 58 N. Oakley-av, on Sunday.

Mrs. Amy Primmer, 35 N. Oakley-av, left Columbus on May 7 to spend Mother's Day with her daughter, Mrs. Keith Crankshaw, and family of Muskegon, Mich. Mrs. Crankshaw is the former Joan Primmer . . . Mrs. Eldon Willis was a surgery patient in Mt. Carmel Hospital last week . . . Mrs. C. Knorr, 186 N. Chase-av, and Mrs. Whiting, 3492 Sullivant-av, have been confined to their homes because of illness.

Mrs. Gilbert (Ethel) Coffman, 105 Eldon-av, and this year's president of West High School Band Parents, is attending classes in Chicago, training to become a Welcome Wagon hostess.

Mr. and Mrs. L. O. Cozad, residents of 546 S. Richardson-av for 19 years, are now at home at 30 Demorest . . . Mr. and Mrs. Paul Churton and sons, Bruce and Pete, of Nitro, W. Va., were the week-end guests of Miss Estella and Miss Eva Burnside.

Mrs. Eugene Baxter, daughter of Mr. and Mrs. Homer Lusk, stricken with polio on her wedding day, Feb. 19, in Ramey, Puerto Rico, is on the road to recovery, according to her aunt, Mrs. "Chubby" Distelhorst. She is now out of the iron lung and has been transported by plane to the Army Hospital, St. Joseph Hospital, Omaha, Neb. She would be most happy to hear from Hilltop friends.

C. C. Watson, 390 S. Powell-av, has returned home after spending the winter months at his home in Hallandale, Fla. His daughter, Mrs. Walter Fee, of Plain City, spent eight weeks with him there and accompanied him home. Their itinerary on the trek north included a visit with a cousin at Lexington, N.C., and stops at points of interest.

A fool and his money are soon parted, but how did the fool get the money in the first place?

"IT'S GRANDMA!" — Looking a little smug, and very well pleased with himself for having out-maneuvered the grownups to reach the phone first, is 16-months-old Steven Charles, pride and joy of Mr. and Mrs. Fletcher Campbell, 792 S. Burgess-av. His mother, Lucille, formerly taught at John Burrouges and his proud grandparents are Mr. and Mrs. Charles Campbell. Donna Veit Is Bride Of James Powers

—J. Curtis Allen Photo

MRS. JAMES E. POWERS

Basket arrangements of white mums, gladioli, stock and ferns decorated the altar of St. Mary Magdalene Church for the nuptial high mass uniting Miss Donna Marie Veit and Mr. James L. Powers on Apr. 16. Rev. Raymond Bauschard solemnized the double ring ceremony at 10:30 a. m.

The bride is the daughter of Mrs. Clarence J. Veit, 234 S. Westmoor-av and the late Mr. Veit. The bridegroom's parents are Mr. and Mrs. William Powers, London, O.

Mr. Roger E. Veit escorted his sister to the altar.

Lace and nylon tulle over satin fashioned the bridal gown, styled with a fitted lace bodice with long sleeves ending in points over the hands, and a portrait neckline outlined with soft folds of tulle. A handkerchief-drape tunic of lace fell over the bouffant two-tiered tulle skirt which extended into a sweep train.

A small pillbox of lace trimmed with seed pearls and sequins held her fingertip veil of imported silk illusion. She carried a spray of white roses with white satin streamers.

Mrs Roger E. Veit served as matron of honor for her sister-in-law. The bridesmaids were Miss Rita Jane Elliott and Miss Virginia Wort. Miss Joan Thornton was the junior bridesmaid.

The attendants wore identically-styled floor length gowns of crystalette and nylon tulle with formal bodices, butterfly bustles and bouffant tulle skirts. The honor attendant's gown was in pink and the others were in blue. They each wore a small hat of tulle and flowers with a circular veil and carried a Colonial bouquet of white roses and carnations.

Mr. Robert Powers, brother of the bridegroom, served as best man and the wedding guests were seated by Mr. Robert Stapleton and Mr. Paul Coleman. The little ring-bearer was David Proffitt, nephew of the bridegroom.

Hostesses for the reception, held at the Dispatch Country Club, beginning at noon, were Mrs. Michael Hackett, sister of the bride; Mrs. Robert Proffitt, sister of the bridegroom and Mrs. Robert Powers.

Mrs. Veit chose for her daughter's wedding, a gown of powder blue faille with beige accessories and a corsage of talisman roses. The bridegroom's mother wore a gown of rose linen with black accessories and an orchid corsage.

The new Mrs. Powers was graduated from St. Mary of the Springs and is employed by the Ternstedt Division of General Motors Corp. Her husband is a graduate of London High School, attended Wilmington College and is associated with the State of Ohio, Department of Highways.

The couple is at home at 5 S. Union-st, London, O.

Fourteen Elliptical Arches Frame Hilltop Church

The new St. Mary Magdalene Catholic Church at S. Roys-av and Guernsey-av has 14 elliptical arches of reinforced concrete arranged in cross form to make the framework.

The building has a 75-foot tower in the center. Outside walls are being faced with Tennessee sandstone and trimmed with Indiana limestone. The walls are backed with concrete masonry.

The concrete arch frame is linked with pre-cast concrete purlins over which is laid a wood roof with copper cover. Concrete will remain exposed on the inner surface of the arches.

The Rev. Raymond Bauschard, pastor since St. Mary Magdalene was established in 1929, reports that this is the first church-type building the parish has erected.

The original building at S. Roys-av and Parkside-rd was designed as a school and the gymnasium has been used for church services. The school has 320 pupils in grades one to eight.

Father Bauschard stated the parish had 100 families when founded 26 years ago, and has grown to nearly 900 families.

Ramsey, Croce and Abbot, Columbus architects, designed the building and are supervising construction. Structural engineering is in charge of Raymond C. Reese, Toledo.

Your House Next?

Will he walk again? That may depend on you. Hope springs eternal in the breast of anxious parents. Love will not give up. The physician's assurance, the minister's prayerful support and the boy's quest for a ground of hope and trust... love, healing, religion—all these come to bless the stricken lad. God, the Great Physician, is in them all, and works with them His wonders to perform. Have you contributed to the polio fund? Have you supported the church and the pastor? Can you assure the cripple of the the community's interest? All the aids of America will rally to the need of our children. The Church and Religion will watch over them. Have we done our bit for the polio fund, the heart foundation, the Church?

Will Radio and TV Replace Newspapers? Some Say 'No'

By Bill Botkin

"Do you, or do you not, feel that radio and television will ever replace the newspaper?" This was one of the questions in the discussion of "The Citizen and the Mass Media" series at West High School on May 6. The answer was do radio and television cover only finitely no, due to the fact that the the highlights of the news, while the newspaper covers both the highlights and sidelights.

This series is part of a study being made at Ohio State University in an effort to determine the effect of mass media on the public. The discussion was held in Myron T. Seifert's ninth period 11B English class. John Birle acted as discussion moderator.

The discussion was tape-recorded, and this recording will be sent to the university for further study and analysis.

Other main ideas brought up in the discussion were: the advantage of two competitive newspapers in a given area; the good done by the sensationalization of juvenile delinquency; the bad effect of the mentioning of the name of a one-time loser under the age of 18; and the fact that reporters sometimes meddle into affairs that are too personal, and are not worthy of publication, although they sometimes are used in human interest stories.

This was followed by a talk and movie on football by University of Cincinnati coach Blackburn and Jack Delaney, former Aquinas and Cincinnati star, now a backfield coach at Cincinnati U.

Well Chosen and Well Done Kiwanians

A double-take on the Hilltop Kiwanis club reveals activities which merit only the highest praise.

Last week on May 5 the Hilltop Kiwanis group honored Mrs. Kathryn Cramer, 188 S. Westmoor-av, widow of Dr. Chet Cramer, as "Mother of the Year"; a fine choice! A woman who has been a shining example to many who have needed understanding and encouragement, Mrs. Cramer has been untiring in her efforts to serve all who have come to know her.

Though plagued by misfortune, Mrs. Cramer has To the Hilltop Kiwanians we offer our most profound been a ray of sunshine in the troubled lives of many. thanks and to Mrs. Cramer, a well chosen "Mother of the Year," we offer our most sincere congratulations.

In the double-take on the Kiwanian scene, tomorrow the Hilltop Kiwanians are going to give "live-saving-tape" to 600 West High School students for their bikes. This tape has been known to be the "glow" which has saved many youngsters from being run over at night whil riding their bicycles.

Though we realize, and hope that every Hilltop youngster realizes, the tape is no substitute for proper lighting of a bicycle at night, the tape will help. Members of the Kiwanis group heartily recommend that bike riders have proper lights on their bicycles and hope that the tape will offer a little more protection to them at night.

Congratulations are in order for a Hilltop club with foresight, an interest in their community and the welfare of its children.

Teen Troubles

By John Douglas, M.D. and Mary Douglas

Question: My mother says I'm just infatuated. How can you tell when you're in love?

Answer: There are no rules which will give you an infallible answer to this question. There are, however, certain differences which usually distinguish love from mere infatuation. For example:

1. Infatuation frequently leaps into full bloom at first sight or after a short acquaintance. Love usually develops slowly.

2. Infatuation may bring with it a sense of uncertainty. You are restless and almost unhappy when you are separated from him.

Love brings a feeling of security. Even when he is far away, you can be more or less calm because you are sure of him.

3. Infatuation often causes you to lose your appetite. And you find you can't study; can't concentrate; can't keep your mind on your work. You may be unusually short-tempered with the family and, in general, rather hard to live with.

When you're in love, you're just the opposite. You study and work harder and you're sweet to everybody—because you're happy and

4. When you're infatuated, you may be interested only in "making love" and at all other times not know what to do to have fun together.

When you're in love, you find lots to talk about and many things to do together. You are friends as well as lovers.

5. Finally, when you're in love, you think of yourselves as a team: as partners in a long-term enterprise — not just as a "thrilling date."

The pedestrian record reflected the fourth consecutive year of improvement for motor vehicle accidents in 1954.

Mail—From San Clamente, Cal.: I live within five miles of a beautiful wild canyon which is inhabited only by a few cattle ranches. A highway goes through it for about 20 miles, following the Jan Juan River. Have been there several times this spring, enjoying the almost totally secluded place and hunting wild flowers. Ohio must be beautiful in spring too, from what I hear. (You heard right) . . . From Troy, N.Y.: When I lived in Poughkeepsie you said I should move to Troy because you can spell Troy. I'm at least ten years older today because an unexpected visitor frightened me ten years' worth and on me ten years doesn't look so good. A cute grey squirrel lives in our front tree. When I stand in the door he climbs up on the screen door, looking for a way to get in, I know now. I always thought he was after food. This morning in my usual half-asleep morning manner, I held the screen door open while I took the mail from the box, and he managed to slither in, unnoticed. I kept hearing a scratching sound in the kitchen and when I finally went in to investigate, he was sitting on the table eating a piece of toast. His tail was hanging down so at first still-sleepy glance, I thought he was a rat, although I had never seen a rat here (I'm knocking on wood!) Next time I'll be awake before I open the door. There is no moral to this but it filled up space.

Here is a stray verse for a birthday card:

HOW OLD ARE YOU?
Age is a quality of mind—
If you have left your dreams behind,
If hope is lost,
If you no longer look ahead,
If your ambition's fire is dead,
Then you are old.
But if from life you take the best,
And if in life you keep the jest,
If love you hold—
No matter how the years go by,
No matter how the birthdays fly,
You are not old!

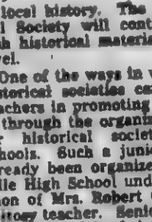
IT HAPPENED IN FRANKLIN COUNTY

Junior Historical Societes Suggested In Local Schools

TODAY'S COLUMN is written by Daniel F. Prugh, Executive Secretary of The Franklin County Historical Society. Mr. Prugh is also curator of the historical society which currently has its business and editorial office in the Columbus Public Library.

By Daniel F. Prugh



With the recent passage of House Bill 76, better known as "The Spirit of '76", teaching of local and state history in the public schools of Ohio has become a requirement. This means that it will be the responsibility of county historical societies to furnish as much local historical material to the schools as they can for use in the teaching of local history. The Ohio Historical Society will continue to furnish historical material on a state level.

One of the ways in which county historical societies can aid school teachers in promoting local history is through the organization of junior historical societies in the schools. Such a junior group has already been organized in Westerville High School under the supervision of Mrs. Robert Gossett, Ohio history teacher. Seniors at Westerville High School take Ohio history as an elective course under Mrs. Gossett. Her junior society is the first of its kind to be organized in Franklin County. Recognizing the vast importance of Mrs. Gossett's venture, officials of the Franklin County Historical Society appointed her to a Committee On Junior Historical Societies which has as its aim the organization of junior historical societies in each of the county's 17 townships. As of today, several schools have expressed an interest in organizing junior historical societies in their schools. The county historical society and Mrs. Gossett will assist the teachers in every way possible, but it is up to the teachers themselves to see that their groups function on a regular schedule.

A dramatic example of the type of projects junior historical societies can accomplish was presented recently at the Ohio State Museum by members of the Junior Historical Society of Blendon Township. Entitled "The Phelps-Griswold Migration," the historical portrait series showed the early history of Blendon Township. Prior to this presentation, Mrs. Gossett showed, via colored slides, the projects now being developed by her junior society. These include restoring of pioneer cemeteries, collecting and preserving of local historical documents, photographing old homesteads, and taking tours of the county.

According to Mrs. Gossett, during the 1955-1956 school term, junior historical society workshops will be held at participating schools rather than at the Ohio State Museum. Organization of junior historical societies is open to both elementary grades as well as junior and senior high schools. Both will be eligible to receive the Clarence A. Swoyer awards and to attend the Annual Banquet of Honor to be co-sponsored by the County Historical Society and a civic organization. For further information contact the historical society at CApital 4-6071.

To us here in the Hilltop "Y" the hundreds of youngsters when registering for the first time are all "Potentials." They are the boys who will take our places twenty, thirty and forty years hence. We see possibilities in every boy and know we can be helpful in bringing them into manhood.
We train boys to be physically strong, we teach them to swim, we teach them how to get on with other boys in their age group. We teach them good sportsmanship. Better boys make better men, better men make better communities.
And so it goes, these potentials starting with us in their early days will be the men of tomorrow we depend on to make a better world in the future. You can aid in this betterment in many ways!

West Juniors Even-Up Their City School League Record

West Junior evened up its city junior high school league record last Tuesday afternoon on the home let by taking a hard earned 1-0, verdict over Barrett Junior High School.

Don Furry and Larry Goodin combined to toss a one-hitter for the Buckaroos, while Dave Grew, 6'5" moundsman for the visitors, allowed the home forces to hit two bingles, with the loss run being unearned.

The Buckaroos' two blows were a single to center by Shoemaker in the second and an infield scratch by Buchanan in the fifth.

The lone safety for the visitors was a ground single to right field by Jim McCaffery in the fourth.

Al Wolnski scored the only run of the contest in the opening inning as he walked, stole second and came all the way home when the throw from the catcher went into center field.

The mound work of Goodin was particularly impressive, as he relieved Furry in the fifth with none out and a runner on first and proceeded to strike out five of the next six batsmen with the other out being made at the plate as the base runner attempted to score after a wild throw.

This Wednesday afternoon on the Cowboy diamond the locals will pit their 1-1 record against Linden's 3-0 with the visitors being one of the three co-leaders in the circuit.

Columbus Motor Speedway Race Season Opens

The Columbus Motor Speedway is all set for its first race of the 1955 season this coming Sunday night, May 15.

A guaranteed purse of $1,000 will await the drivers for the inaugural race night, plus an extra $50 to first place and an extra $15 to second place, in the feature event, given by Ed Brinkman, the track [illegible].

Many improvements have been made at the South Side race plant since the 1954 season, the most notable being the installation of the track "traffic light" setup, new in modern day racing. It will be the first race track in the United States to use red traffic lights on every light pole around the oval. This will be done so that drivers will know immediately that there is trouble on the track and can come to a dead stop without endangering a driver that may have turned over. In addition, much larger green, yellow and red lights have been installed on every turn and a 16-foot "lap light" system is being put in the infield, so that fans and drivers will know exactly what lap the drivers are racing.

Many new cars and drivers will be in attendance Sunday night, along with the "old" favorites, such as Ralph O'Day, Neal Sceva, "Red" Douglass, Herb Saxton, Bill Peddigo, Elzie Whetnall and many more. Time trials will be at 7 p.m. and the first of seven events will start promptly at 8 p.m.

Recreation, Parks Topic, Hilltop Community Council

Nick Barack, of the city recreation department, will be the guest speaker on Thursday, May 12 at 8 p.m. when the Hilltop Community Council meets at the Hilltop YMCA.

William Burns, president of the council, will preside over a vote on possibly joining an inter city council which will be taken at the meeting, according to Elma Boothe. A tally of interests will also be taken as to cutting the budget and parks which is coming before the city council Friday, May 13.

Hilltop Organizations are invited to send representatives or have alternates attend the HCC.

Cowboys Drop Three League Decisions, Record Now 2-5

West High School's Cowboys were virtually eliminated from further title consideration in the City high school baseball league last week as they dropped three more league decisions and now have a record of two wins and five losses.

Monday, May 2, Pitcher Bill Wardle fanned 13 and allowed only three hits as South took a 2-1 decision. Bill Spratley of the Cowboys allowed only two safeties but faulty defensive play again proved his downfall.

Wednesday, May 4, Linden McKinley tallied eight runs in the first frame and then coasted to a 10-5 win over the Cowboys. The only bright spot for the locals was a home run with two aboard in the fourth inning by Bob Courtney.

Friday, May 6, league-leading Central High Pirates defeated the Cowboys for the second time this season, as diminutive moundsman Ken Humphrey scattered five hits in gaining a 2-0 decision. Karl Davis, Cowboy outfielder, was the game's leading hitter with three safeties.

This week the Cowboys engage in only one league contest at South Friday.

HISTORICAL NOVELS

Variety Marks New Book List At Hilltop Branch Library

Variety marks the new book list at the Hilltop Branch Library this week. Novels include: "Oklahoma Run", by Alberta Constant.

Authentic historical background for a good family story. "The Spear" by Louis de Wohl. A rich panoramic novel of Rome following the Crucifixion. "The Cotton Road," by Frank Feuille.

A little known facet of Civil War history, transporting cotton to European markets during the Union blockade of the south.

"The Scotswoman" by Inglis Fletcher. Flora MacDonald is a historical character prominent in the Revolution in North Carolina.

"Fellow Passenger" by Geoffrey Household. The usual excitment of escape and foreign intrigue we have come to expect of Geoffrey Household.

"Venture Into Darkness" by Alice Hobart. A powerful novel of an American business man in China who comes to grips with communism.

"Ride the High Places," by Ed Newcom. A fast moving wide-ranging story of exciting adventures in the old West.

"The High Passes," by John Reese. Another story of the old West. A typical feud over a ranch and a woman.

"To Walk the Night," by William Sloane. A Science fiction novel dealing with possibilities that are not yet scientific possibilities or things yet possible.

"The Saint on the Spanish Main", by Leslie Charteris. Typical breezy adventures of Simon Templar, this time in the Caribbean. Very good.

New Non-Fiction

"Main Street on the Middle Border" by Lewis Atherton. A cultural and economic history of midwestern towns from 1865 to 1950.

"The New Tree Experts Manual", by Richard Fenaka. Anything you want to know about trees, growing, transplanting, pruning, diseases and spraying.

"Gaylord Hauser's New Guide to Intelligent Reducing" by Gaylord Hauser. A relaxed eating plan for wise and intelligent fat people who want to get slim and stay slim for life.

"Have Fun With Your Children" by Frances Horwich. An entire philosophy of rearing children to satisfying, happy adulthood. "Complete Boating Handbook", by Robert Scharff. Boats, buying, repairing, handling, navigating, cruising, and an index to cruising waters and their conditions.

"Bottoms Up", by Cornelia Otis Skinner. Here are gaity, hilarity, variety, though very little profundity.

Library hours are from 1 p. m. Monday through Friday; Saturdays, 9 a. m. until 9 p. m.

West Point, Annapolis Openings Available

There will be one vacancy at West Point and one at Annapolis from the 12th Congressional District (Franklin County) in the classes to enter the academies in July, 1956. The nominations to fill these vacancies will be made by Congressman John M. Vorys from applicants who are actual residents of Franklin County, age 17 to 22, and who are otherwise eligible for appointment. Congressman Vorys will also submit the names of 10 boys to compete for appointment to the U. S. Air Force Academy.

Mr. Vorys is using a United State Civil Service examination to compare the mental qualifications of applicants. This examination will be held on Monday, July 11, at 8 a. m., in Room 400, New Post Office Building, Columbus. Applicants will be examined in vocabulary and reading, understanding of spatial relations, and algebra. Approximately three and one-half hours will re required for the examination.

Applicants for appointment should write to Congressman John M. Vorys, U.S. House of Representatives, Washington 25, D. C., for authorization to take the competitive mental examination and for information concerning the physical examination and other requirements.

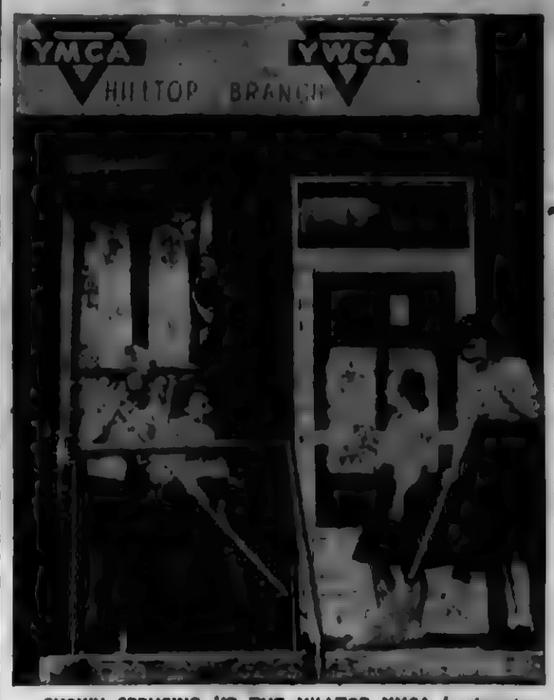
Recreation, YMCA Join In Tumbling

A gymnastic and tumbling show will be presented at the Central YMCA, Saturday, May 14, at 2 p.m. The demonstration is a combined effort of Schiller Recreation Center and the boys' division of the Central YMCA.

Boys and girls ranging in age from nine to 15 years old will be the main participants in the show, which is free to the public.

Among the events which will take place, will be rhythmic gymnastics, fast tumbling, trampoline acts, hand balancing and presentation of a balance beam. The more feminine aspects of tumbling, such as balance, rhythm, poise, and grace will be demonstrated by the girls, as the boys show skills in coordination, ability and strength.

Since the visit of the Swedish gymnasts to the OSU campus, a reawakening in the field of tumbling and gymnastics on the part of certain athletic groups has been evident. This show is in part a climax to the effort of two of these groups.



Since the demonstrations are primarily given by children, it will interest children and so parents are urged to bring youngsters.

Card and Trap Shoot Planned For Sunday

The Hilltop Conservation Club will hold a card and trap shoot on Sunday, May 15 at 1 p.m. at the club grounds, located two miles west of Darbydale off state route 665 and north end of Biggert-rd.

There will be merchandise prizes. Ladies and amateurs are invited to shoot.

Youngsters Join In Y Clean-Up

SHOWN SPRUCING UP THE HILLTOP YMCA headquarters for the Open House on Sunday, May 15, from 2 to 5 p. m., are David Thurston, Clint Hutchinson, Pete Perks, Arleen Roederer, and Betty D'Amico. Part of the ceremony Sunday will be by the HilltopYM-YWCA. The afternoon program will consist of tours of the building, viewing the proposed building plans, and various projects of classes and clubs will also be exhibited. Refreshments will be served. ADD OBSERVATIONS

No doubt about it, there are lots of foolish men in the country . . . I see by the paper where one of them recently married a woman who can throw a discus, weighing about four and one-half pounds, 145 feet.

When you're working, or when you're driving, be careful! An accident may be lurking around the next corner you cut. The Safety Council of the Columbus Chamber of Commerce says take time for safety precautions—and take a new lease on long life and a sound body. Remember, a little care makes mishaps rare.

D A GREAT GUY

Super Kid Wilson Leaving Hilltop Y For Pittsburgh

"The kids of the Hilltop YMCA re sure going to miss that guy," id Harley Groom, a staff photo-rapher. "Why Dick Wilson would et in there with the youngsters nd the only way you could tell em apart was that Dick was ouder. All of the Y boys liked im . . . they did not consider im un-approachable . . . he was ne of them . . . sort of a super-id."

Why the kind words about Dick Wilson, assistant secretary at the Hilltop YMCA . . . well he is leav-ng for a new 'Y' post in Pittsburgh n June 20.

Since August, 1952, Wilson has orked with the boys at the Y eveloping and organizing Gra-Y Clubs, Junior Hi-Y Clubs, setting up the softball and football leagues for these groups. He has been very active in every phase of boys work at the Hilltop Y, said Robert Schmidt, executive secretary of the Hilltop Y.

When Wilson came to the local Y he was a junior secretary, now he has fully qualified himself as a senior secretary, Schmidt stated. Wilson has become a part of the Hilltop community as a member of the Hilltop Lions Club, Westgate Methodist Church, the Hilltop Community Council, and Camp Chase Post of the American Legion.

Before actually settling down in his new post, Wilson will take a two week period to find a home for his wife and one year - old daughter.

In his column in this issue of the Record, Wilson pointed out, "It is with mixed emotions that I break the wonderful ties which I have made on the Hilltop. I want to say once again 'Thanks a million' for the wonderful cooperation and friendships which I have received since being one of your adopted Hilltoppers."

A Thousand Eyes Watching, But Conscience Does It

A young West Broad Street Elementary School student learned the hard way that girls, stones, and street lights don't mix.

The boy, 11-year-old Jimmy Richter, son of Mr. and Mrs. James . Ritcher, of 26 N. Powell-av, was with his girl friend, whose ame we won't mention, on Thurs-ay, May 12, and was throwing tones. One of these unaimed missiles sailed against a city street ight bulb, breaking it.

Jimmy got to thinking about this nd the more he thought about t, the more his conscience bother-d him. His lady friend just aughed over it.

He finally called the police Fri-ay morning before he went to chool and told the officer answer-ng, Lt. Harry Heischman, that he ad broken the light.

Heischman referred him to CA. 1-2211, and he talked to superinten-dent of the city division of elec-ricity. CA. 1-2211 is the City Hall.

Jimmy called there and talked o Robert Tucker, superintendent f the Division of Electricity. Jim-my told Tucker of what he had one. Tucker gave him a lecture, ut told him that the city would ay the $3 this time, but if he ver did it again, he would have o pay for both lights.

Jimmy said of the incident, "I don't think anybody saw me do it; but I felt as if there were thousands of eyes watching me."

Two Generations Have Sat In Their Classrooms

June Retirement To Mark End Of Teaching Careers

By Betty Daft

The lives of Miss Bess Sperry and Miss Catherine Hutt and the story of West Broad Street School are so closely interwoven that the story of the teachers almost becomes a history of the school.

Miss Sperry and Miss Hutt are the two remaining teachers of the original six assigned to West Broad when it was first built in 1911. Their retirement in June will mark the end of their classroom service, but will surely not erase their influence on two generations of Hilltoppers.

Reminiscing about Broad and Hague in those years, they recall that there were only a few houses west of the school and that the children would play in adjoining fields. Watching the growth of the Hilltop from their classroom windows and welcoming sons and daughters of former students has made their choice of profession richly rewarding.

Miss Sperry has spent most of her teaching years with the group she enjoys most, the first graders. "Most rewarding because of their amazing progress in a year's time," is the way she describes her satisfaction in teaching the smallest ones.

She has extended her teaching talents to the church and has served in the primary department of Hope Memorial since the original building was erected on S. Eureka-av. She now serves as secretary and assistant to her sister, Mrs. Ed Hakola, superintendent of the department.

Truly pioneers in the community,

Crash Kills Truck Driver

William F. Devanney, 30, was killed Tuesday afternoon when a 1500-gallon tank truck he was driving failed to make a curve in Route 23, five miles west of Jackson.

Devanney, 45 N. Powell-av, a driver for Columbus Waste Oil Pick-Up & Road Oiling Service, 1032 McKinley-av, was coming back to Columbus after a regularly scheduled trip to Cincinnati and through southern Ohio and Jackson.

The state highway patrol post at Jackson said the tank truck filled to capacity, plunged through a seven-foot ditch and a wire fence and came to rest upside down 25 feet from the highway, its cab completely crushed. Devanney, thrown clear, was found dead five feet from the truck.

The firm for which he worked is owned by his father-in-law, Rex Snedeger at 264 S. Eureka-av. Devanney came to Columbus in January, 1954, and first worked about a year for the Phillips Waste Oil Pick-Up & Road Oiling Service.

Dog Enjoys Life Despite Splint

"HONEYMOON" GOT HURT—No one seems to know just how, but "Honeymoon," the frisky pet of Sue Snider, got his left front leg broken in two places May 5. He limped up to Sue's mother, Mrs. Fred Snider, 2244 Lenore-av, and held up his injured leg for her inspection. Sue shows in the picture how a veterinarian's splint doesn't keep Honeymoon from enjoying life, and especially a steak bone. He gets around in a pretty fast walk but when he tries to run and catch a ball as he formerly did he doesn't quite succeed. Honeymoon is a mixture of fox terrier and chihuahua. Retiring Teacher—

(Continued from Page 1)

her grandparents and her parents were farmers in the area known as Camp Chase, until they built their home at 45 S. Harris. Miss Sperry lived there until a few years ago when she moved to the Althea Apartments, W. Broad-st, at Highland-av.

Miss Hutt and her family moved into their home at 2323 W. Broad-st, the same year she began teaching at West Broad. The daughter of the late Dr. Austin Hutt, she still lives there with her brother, Starling.

Miss Hutt has taught all elementary grades, from the first through the eighth and is now teaching in the sixth grade classroom. "The class that spends most of the term gazing wistfully out the window in the direction of West High."

She believes that children have changed a great deal through the years, but for the most part the change is good. "Children have more freedom now; almost too much for they are still little boys and girls. But theirs is a changing world and they need to grow up more quickly to cope with the demands of modern living. I believe children do need some freedom and responsibility but only to the extent that they can handle it."

Miss Hutt did not confine her guidance to the classroom either, but taught Sunday School at Trinity Episcopal Church for 15 years.

Both have indefinite retirement plans. Miss Sperry will spend the summer in California and is looking forward to spending more time with her extensive doll collection. Miss Sperry's dream is to travel.

Two Open House Projects Planned

THIS NEW BUILT-IN Frigidaire automatic dishwasher has unusually large capacity. It will hold 72 dishes and glasses, plus 48 pieces of silverware on upper and lower racks. Westgate Manor and Miriam Subdivision will feature "Beauty with a Purpose," the theme of a cooperative effort to be conducted by builders of the area, Frigidaire and the Columbus and Southern Ohio Electric Company. These businesses have joined forces to present to the Hilltop the greatest variety of all-electric model homes ever opened to the public for inspection.

Model homes will be opened in these Hilltop areas, as well as all portions of metropolitan Columbus, from May 22 through June 5. They are all new type construction and design homes with a full array of electrical appliances. In addition to the homes being modernistically styled and equipped, the electrical service in these homes has been designed for modern living as well.

Priced in all popular ranges, these model homes are designed to show exactly the type of homes being planned by each builder for his particular subdivision.

Westgate Manor

Westgate Manor features the best in modern electrical living for those preferring apartment life. Located at 587 Wedgewood-dr, Westgate Manor was constructed by Vernon C. Neal, Inc. It now contains 900 apartments of either one, two or three bedrooms designed on a single floor.

Designed in a garden type layout, these apartments feature a private pool opening May 28 for tenants. Each apartment is radiant heated and kitchens contain Frigidaire refrigerators, ranges, disposers, with washers and dryers in the basement.

Also at the development is an elementary school nearing completion and a high school under construction.

Miriam Subdivision

Homes in Miriam Subdivision, which will total 120, are being built by the Bond Construction Company. Located at Brinker-av and Eakin-rd, the model home features year-around air conditioning, tile baths, kitchen valance lighting and wood-burning fireplace. The electrical equipment in Miriam Subdivision is ultra-modern with a built-in Frigidaire oven and four individual electric range burners which flip down from cabinets to counter tops for speedy and efficient usage. Other appliances featured in these homes are refrigerator, washer, dryer, disposer and dishwasher.

Admission will be free at all of these model homes from May 22 until June 5, from 1 p.m. until 8 p.m. every day. In addition, all those visiting any of the model homes will have an opportunity of winning either a new Frigidaire "Thrifty Thirty" Electric Range, A Frigidaire De-Luxe Automatic Washer with "live-water action" and "Float-over rinse," or a 10.3 cubic foot Frigidaire with a separate food freezer. All of these appliances together with many new electrical features for comfortable living will be incorporated in all 10 model homes.

Local Frigidaire dealers are cooperating in this program. Tickets received at the model homes may be redeemed at these two dealers: Westhill Furniture Co., 2864 W. Broad-st, and the Russell Grain Co., Hilliard.

AT THE LIBRARY

'Case Of The Sun Bathers Diary,' Now At Library

By Mildred Phalor

A mystery, a love story and a historical novel are numbered among the new books at the Hilltop Branch Library, 2856 W. Broad-st, this week.

Earl Stanley Gardner's "The Case of the Sun Bather's Diary" is the new mystery, with Perry Mason in his usual role of super sleuth.

"To Each His Dreams", by Sara Bassett, is the absorbing love story of a young man whose burning ambition was to become a writer.

The historical novel, "The Freedom Song", by Neill Wilson pictures pre-Civil War period through the travels of Prome Oldrag, who helped bring freedom to his whole race because he had music in his bones and a yearning for freedom in his heart.

Life is meant to be savored and enjoyed and need not be dull to achieve decency. This philosophy found in Leviticus 2:13 is the foundation for the Arny family way of life pictured by Mary Arny in her light-hearted biography, "Seasoned With Salt."

Another biography, "Prison and Chocolate Cake", is by a young Indian woman of high birth. Despite imprisonment for being Gandhi sympathizers, Nayantara Sahgal's parents sent their two young daughters to America for education. "Prison and Chocolate Cake", by one of these daughters, portrays many Indian customs and reveals reaction of the far east to American custom.

Enrico Fermi, winner of the Nobel Prize and Congressional Medal of Merit was leader of the team which led atomic research in its initial steps. "Atoms in the Family," by Laura Fermi, tells the remarkable story of her husband as a scientist, as a father, and as a husband.

"Winning Personal Recognition," Charles Roth's excellent book on personality, is recommended for general reading. The book is about the human equation of success. Mr. Roth says in his introduction that success depends upon reaching the number of people you need, pleasing them, and winning their confidence and support. Something of worth for every reader.

Anne Lindbergh's "Gift From the Sea" might well have been called Soliloliquies. The author meditates upon the complicated pattern of modern life.

"Everyday Life In the New Testament," by A. C. Bouquet, is a surprising book. It covers phases such as books and libraries, distribution of news, meals and food, births, marriage and deaths.

About The Hilltop

All traffic violators are gamblers, but not all gamblers are traffic violators. Take the fellow who wouldn't think of taking a chance on the Irish Sweepstakes and endangers his life as he hops out on the wrong side of his car; and the high-minded fellow who believes cards or any form of gambling is the work of the devil, but behind the wheel, he is a regular Jekyl-Hyde. How about Papa, who thinks nothing is too good for the little wife and family, but can't turn down one for the road and, in this condition, will he spend a buck for a taxi? . . . Get well wishes to Mrs. Jack (Marie) Kraus, recovering from a broken hip at Mt. Carmel . . . We're happy to report, Bliss Brown, better known as "Brownie" expects to be back delivering the mail again in June . . . Joe Boisverth is back in "civvies" again.

The Keith Montiques (Nancy Smith) are knitting tiny garments. They plan to move soon to their new home in Grove City . . . Well known in insurance circles, Mrs. Doris Sweitzer Hester, is back on the Hilltop to stay . . . Roy L. Deemer, has been awarded the Standard Oil Co. annual award. He will attend Oberlin College this fall . . . Jerry Kirschner, OSU swimming star, is a patient of the Veterans Hospital in Dayton . . . During Mental Health week, Mrs. Vesta Cook received a certificate of merit. A former WAC, she is the matron of Broadway Cottage, the crippled children's cottage at the Columbus State School. Mrs. Cook is the wife of Guy Cook, also an associate of the school.

Miss Grace Ann Graessle and Mr. Ward David Cassell are engaged. The open church ceremony will be an event of June 4 in Holy Family Church . . . This fall, Josephine Marie Yonadi and Felix F. De Luca of Steubenville, are planning to wed . . . Recently, Charles E. Kennedy was elected to the board of directors of the F. G. & A. Howald Co. . . . William W. Jeckell, has been promoted to assistant vice president of the Commercial Credit Corp. in Cincinnati . . . Curt Koons, coach of Mt. Sterling high is resigning and has accepted a position with the Equitable Life Assurance Society of the United States . . . Mrs. Alice Kelly, associate of the Bureau of Motor Vehicles, is home and on the mend after a recent stay in Mt. Carmel . . . Loren Biegler of Surface Combustion Corp. is a new member of the company's 25-year club . . .

Disproving once and for all the idea that Friday the 13th is jinxday, is the arrival of little Belinda Sue Morbitt, third daughter of Rev. and Mrs. Anthony Morbitt of 436 Catharine-st. He is the pastor of the new Apostolic faith congregation now meeting at Terrace-av and Olive-st.

The show sure enough did go on — Mary Ann Gilliven Hillebrandt's spring dance revue, that is. Mary Ann did direct her revue and her mother did serve as accompanist despite the fact that Mrs. Lee Belmert (Claire Gilliven) was in the hospital welcoming her first baby son, Timothy Michael.

All the fun of springtime play can sometime be spoiled for a youngster by an unhappy accident. Ronald Crist of 2480 Valleyview-dr, lost a finger in an unfortunate mishap last week.

Little Jeffrey Cole, 259 Ogden-av, is convalescing at home after surgery. Mrs. C. Knorr was operated on in Mt. Carmel Hospital last week . . . Michael McKnight of Chestershire-rd, who suffered a broken arm recently while playing, is now attending classes at North Franklin.

Mr. and Mrs. Herbert Deems, 26 S. Algonquin-av, are in Cleveland this week attending the annual convention of National Savings and Loan. Mr. and Mrs. Robert Riggs and little daughter, Nikki, 294 S. Burgess-av, are vacationing in Florida with Mrs. Riggs' parents, Mr. and Mrs. Bill Bailey.

Mr. and Mrs. Charles H. Mullis, 305 S. Brinker-av, have as their houseguests, Mr. and Mrs. M. R. Johnson (Mary Ellen Mullis), and son, Kerry of Van Nuys, Cal. Johnson is an executive of the Hughes Aircraft Corporation of Culver City, Cal.

Mrs. Charles Levisay, 26 S. Algonquin-av, is recuperating at home following a stay in Mt. Carmel Hospital. She tells us that the many cards and visits from her friends and from Rev. George Taylor, brightened her hospital stay.

WHAT SHOULD YOU PAY FOR ALL-WOOL CARPETING?

Many people are confused by the term "all wool." In many instances all wool carpeting represents honest value at $10 or more a yard, but some all wool carpeting is overpriced at $3.50 a yard. Can you tell the difference? Most persons can't, and must depend upon a reputable dealer's integrity.

For 20 years we have built up a reputation for honest dealing — giving our customers full value for every dollar they have spent with us.

If you are in need of carpeting or rugs, we suggest that you stop in and see us. We can assure you that, should you purchase from us, you will receive complete satisfaction.

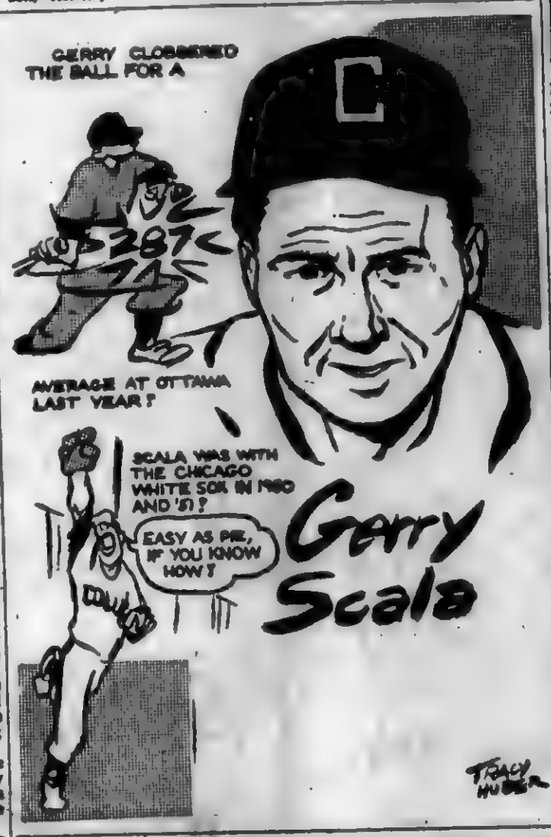
Toys For Tots Can Mean Friends For America

TOKENS OF FRIENDSHIP—Mrs. Oswald Hauser is pictured with some of the 231 tokens of friendship she, her husband and son, Robert, will distribute to Mexican peasant children on their trip through Mexico this summer. Staff Photo

By Betty Daft

"Ambassadors without portfolio of good will, from Hilltop, O., to the interior of Mexico," rather than the usual "tourist," is surely the most apt description of Mr. and Mrs. Oswald Hauser, 31 S. Hunter. The couple, accompanied by their son, Robert, left last week for their third trip to Mexico and because of their visit 231 tiny Mexicans will know, first hand, that Americans really can be good neighbors.

Mrs. Hauser explains that they went to Mexico first in 1951. They found it a land of contrasts with the unbelievable beauty of Mexico City and the stark poverty of the peasants. On that first trip they gave some of these children the candies and cookies they had in their car and, she says, "When we saw their joy over these treats we promised ourselves that if we ever returned, we'd bring some toys.



"We did return the next year and took 100 small toys with us. We distributed them at a school. This time we have 231 items.

"There are so many, many really poor people in the little villages, far away from the border and the big cities. I know we have poor people here, but that kind of poverty is simply unknown in our country. Why, the homes of some of these peasants are literally, only roofs over their heads. The houses are made of saplings with thatched roofs, and while driving along the road we could see right into them; many had no furnishings at all.

"Peasants trudge along these back roads carrying unbelievably large loads on their heads or on their backs in the most primitive fashion.

"If American tourists would take only a few small gifts along for these youngsters it would surely help to create good feeling south of the border. The years ahead could bring many changes and children in our bordering country, growing up with the idea that Americans can be kind, can surely do no harm.

"A child with stars in his eyes, saying 'gracias' as if you really were 'somebody,' is a mighty big return on a dime invested in a toy.

Women To Sell Poppies As A Memorial

The buddy poppy of the Veterans of Foreign Wars Auxiliary of the Camp Chase Post 98 and the Smith Barratt Post 340 will sell memorial or buddy poppies on

Friday, May 20 and Saturday, May 21 in honor of America's war dead.

Disabled veterans of three wars have made the flowers. Poppies are made by those men who cannot leave their beds., Auxiliary volunteer hospital workers bring them the materials and sell the finished poppies. Others sit in wheel chairs at their bedsides, or go to recreation rooms or occupational therapy shops to do the work. For veterans outside the hospitals yet unable to do regular work, the auxiliary's workrooms offer opportunity for employment.

The women who distribute the poppies, unlike the disabled veterans who make them, receive nothing for their efforts, only the satisfaction of having helped brighten the memory of the dead and of having contributed to the welfare of the living.

Deep appreciation is extended to the many high school girls throughout the city who assist the auxiliaries in the poppy sale. Their unselfish service to the organizations is gratifying.

No poppy money is used for administrative purposes. All proceeds are used exclusively for rehabilitation work at the Veterans' Hospitals at Dayton, Sandusky, Chillicothe, Crile, Brecksville, the Childrens' Home at Xenia, as well as Columbus State Hospital and Benjamin Franklin Tuberculosis Hospital. Direct relief work among families and orphans of veterans within Franklin County takes a goodly share of the poppy proceeds.

The joint poppy sale of these two service organizations, The American Legion Auxiliary and the Veterans of Foreign Wars is under the direction of Mrs. E. F. Dellenbach and Mrs. Marie Weisfoot of The American Legion Auxiliary with Mrs. Arthur Bair, president of Franklin County Council of The American Legion Auxiliary; serving for the Veterans of Foreign Wars Auxiliary are Mrs. Ruth Jeffries, president of Franklin County Council and Mrs. Daniel Russell.

New Apostolic Congregation Meeting Now On The Hilltop

Members of the Hilltop Christian Chapel congregation have been busy the past month remodeling the building at 122 S. Terrace-av, to serve as a temporary location until a building program is started.

Rev. Anthony L. Morbitt will serve as pastor. He is presently employed as an illustrator at North American Aviation Inc. and after the Church is established, will devote full time to the ministry. He is 33 years old and has lived at 456 Catharine-st for the past nine years with his wife, Eileen. The couple has two daughters, Patricia Ann, five and Marlene Kay, 19 months.

Born at Holsopple, Pa., he came to Columbus shortly after graduating from high school and was attending Aenon Bible School when he entered the Army. He served for three years as a chaplain's assistant, stationed at Guam with the 20th Bomber Command, 314th Group. He flew with the last show of strength mission over Tokyo in which more than 200 B29s took part.

Rev. Morbitt was graduated from the Zanerian Art College in 1949 and is a professional penman. He also attended the Columbus Art School and Ohio State University.

He has been engaged in church work since before the war as youth director, Sunday School teacher and superintendent. For the past four years he has served as assistant pastor at the Christian Apostolic Church, Cleveland and Esser-av.

The Church plans to make a survey in the Community, and among its activities will be a Scout troop and a Christian Men's Fellowship group.

Son of man, whenever I doubt of life I think of Thee." So wrote George Matheson in his blindness.

Whenever you and I doubt either God or man, we would do well to think of Jesus. His cross is a symbol of what God is and what we may become. The proud Roman at the foot of the cross said, "This man was the son of God."

Jesus was supremely a man of faith. He had great faith in both God and man. We have faith in God largely because we must have Him. *We are not sufficient unto ourselves.* Do you have faith? Life becomes a radiant thing for people of faith, since they see so much deeper into the secrets of life. The universe opens its heart to eyes of faith; closed doors swing ajar when faithful steps approach; loving spirits smile their welcome to trustworthy souls; latent powers blossom in the presence of fidelity; young children and wise old age give themselves with abandon to those who offer confidence. *God waits to share His blessings on man who can be trusted.* Of the Pilgrims of yesterday, guided by the Divine, it was said, "They were men of faith and very sure of God." Are you sure of God?

"Here's how to identify a tree before it puts out its leaves," Willard Carmean tells Richard Lindsey at a preview of the Ohio Forestry Association's summer training camp for teenagers, June 12-18, at Tar Hollow State Forest.

Carmean, member of U. S. Forest Service at Athens, is chairman of the camp's study program.

With 16,000 acres to use as a laboratory, campers will learn about planting, woods management, tree identification, and the influence of forests on water and soil. Field trips will take in one of the state's biggest sawmills. There will be swimming, hill-country hiking and games, as well as songfests and square dancing for evenings.

Applications from high school boys and girls are now being screened by local committees, of which County Agents are chairmen.

Home Economics Conf. Planned At Ohio State

Further ideas for the improvement of the West High School vocational home economics program will be considered at the annual conference for all vocational home economics teachers. This will be held July 11, 12, and 13 at the auditorium theatre on the Ohio State University campus.

A full one-day conference for beginning vocational teachers is planned for Aug. 29. This will be held in hearing room three of the State Office Building.

The customary leadership training camp for Future Homemakers is scheduled for Camp Muskingum, R. D. No. 3, Carrollton, Aug. 14-20.

'Saludas!' Greeted A Mexico City Senorita As She Visited West's Spanish Class Recently

By LuAnn Witt

"Saludas Senorita Celina Peralto . . . uh . . . I'm having my troubles with Spanish," said a young Spanish student at West High School to a distinguished visitor from Mexico City.

On Wednesday, May 11 Senorita Peralta visited the school on her tour of the United States to learn the customs and the language. While in Columbus, she is living on Indiana-av with her cousin from San Salvador, Enrique Cueller and his wife. Cueller is studying civil engineering at Ohio State under a Fulbright Scholarship.

She Speaks English Well

Although Miss Peralta has been in the United States only six weeks she already speaks English quite well and was able to give several interesting impressions of Columbus and West.

She thinks Columbus is a very nice city and West High School has a very complete educational program.

She was particularly impressed with the cooking rooms, the auditorium, and the cafeteria because Mexican schools do not have these things.

Miss Peralta thought that the Spanish classes were very good and that the students spoke the language very well. She was particularly impressed by the fact that there was so much interest shown in other countries.

She commented that the students were all very nice to her, especially the girls, and that the teachers seemed very intelligent.

Miss Peralta, who lives with her mother and twin brother in Mexico City, attended a small private girls' school, the Universidad N. A.M, where she majored in Chemistry.

Mexico Has Only Basic Subjects

She explained that in the Mexican schools they teach only the major subjects such as mathematics, history, geography, sciences languages, and religion in the Catholic schools. They also have some sports but not physical education classes.

One very interesting item which Miss Peralta told was that in Mexico City girls may get a driver's license at 18 while boys get theirs at 21 years of age.

In Mexico City and other large cities milk is pasteurized, sanitation is very good, and vaccination is required for children. Miss Peralta said that she hoped science could be used to improve the whole country.

Everyone at West enjoyed Miss Peralta's visit and hopes she will be able to come again before she leaves Columbus.

'One-Way Signs' Cure To Narrow Hilltop Streets

The problem of narrow streets on the Hilltop has plagued residents for many years. One of the major sources of irritation has been how to get to one side of the Hilltop, north and southwise, without seeking out the Hague-av route which is often inconvenient. Now that one-way streets are being added to the Hilltop it is up to Hilltopers to be cautious in the use and acceptance of these new thoroughfares.

According to reports received by this office, the largest number of violaters on Hilltop one-way streets are Hilltoppers. Who is to blame for the dangerous condition created by one-way streets on the Hilltop with speeding traffic, cars going the wrong direction and just general miss-use . . . we ourselves.

If one-way streets on the Hilltop are to be effective in saving us time and in being a measure for safety rather than a hazard, we on the Hilltop must use caution in driving on these newly designated routes.

We can expect to see many more one-way streets on the Hilltop, according to E. O. Melvin, traffic commissioner. More directional traffic on narrow Hilltop streets can bring about better driving here and more safety for the pedestrians and children in the residential areas.

Drivers are asked to use special caution on residential streets where lighting is poor. Many times where the lighting is dim the unwary traveler gliding along might run amuck the one-way street sign without being aware of it. Then an unlucky turn in the wrong direction and . . . the results could be disasterous.

In order that the one-way streets may be effective, (a program greatly needed on the Hilltop to assist the flow of traffic) every resident must use caution in driving on them. If everyone does his part and carefully obeys the signs, excellent driving conditions may result and the benefit of one-way streets may be fully appreciated.

Doing Fine, Thank You

IT HAPPENED IN FRANKLIN COUNTY

County Surveyors Were Brave And Fearless Men

By Gilbert F. Dodds

Long before the government had sent surveyors to measure or survey the land in what is now Franklin County, farmers and colonisers were imploring the agents of the government to sell them certain tracts of land. The story of the men who surveyed the land in our county and the dangers and hardships they encountered forms one of the most thrilling and exciting episodes in our pioneer history.

Do you know the location of the townships of Plain, Jefferson, Mifflin, Blendon, Sharon, Clinton and Perry? They are all east of the Scioto River and are in the U. S. Military Lands, so called from the circumstances of their having been appropriated by an act of Congress in 1796 to satisfy certain claims of the soldiers and officers of the Revolutionary War. These lands were surveyed into townships of five miles square, and then into quarter townships of two and a half miles square, containing 4,000 acres each.

The two principal surveyors employed by the government were Isreal Ludlow and William C. Schenck. They had five assistants and it took all seven men more than two months to accomplish the work. The weather was cold and a heavy snow had fallen. The snow was covered with a hard crust which prevented the surveyors from killing much wild game. For five days all the food they had was a wild turkey and two young raccoons which they had trapped.

This was in November and December of 1797 and there was no settlement at the Forks of the Scioto at that time. Some friendly Indians gave them some deer meat and some rabbits or they could not have finished the job.

In spite of the cold, hunger and hardship, they finished the work they were assigned and returned to the new settlemeat which had sprung up around Fort Washington which today is Cincinnati.

GRANDMA AND MULLEIN
How Grandma loved the mullein
That grew along the pasture fence!
"When I was young," she often said,
"These were of mighty consequence.
For colds, sore throat, and old-time grippe
I made a mullein flower tea
And poultices of mullein leaves
Were aches' and pains' worst enemy.
I always rubbed a mullein leaf
Against my cheeks in courting days.
This brought the roses, meant to hold
Your Grandpa's keen, admiring gaze."
How Grandma loved the mullein plant
That grew along the pasture fence!

It has been said that behind each successful man there is a woman. That might not be true in all instances but it is in one that I know about. Several weeks ago the papers carried a story about a student at Capital University winning a scholarship given by the French government. The student is Carl Hankinson, age 19, who lives on West Broad-st, just east of Koebel Suydam-rd. He lives in that pretty little house with the white wagon wheel gate and the lovely yard full of trees and flowers, and the big weedless garden at the side. I have known Carl and his family since he was in grade school and am one of the many friends who are proud and happy about his success. The woman behind Carl is his Grandmother Hankinson. She has helped with his lessons all through the years, and says she doesn't help with his lessons now, but she does stay up while he studies, and makes black coffee for him. She is busy from morning till night, making garden, canning fruit and doing the hundreds of things women do with a family of five to keep going. Carl's mother and father work away from home so it is up to Grandma to look after things, and take care of Aunt Lily who is a semi-invalid. The French Government should give Grandma a scholarship too, though Carl's love and gratitude do nicely for her. She says she has learned a lot from helping Carl with his lessons, since she has worked since she was a young girl and hadn't a chance to get much schooling. The people west of Columbus are proud that one of their neighbors has been honored, and we who know her are proud of Grandma Hankinson too.

We just returned from several days at Atlantic City, Ocean City, Philadelphia and points east and southeast. A friend asked this morning why we didn't go to the ocean during the season and that she'd bet it wasn't my husband's idea to go now. She is right — did I want Pop to see all those bathing beauties? After Ohio and Oregon, I had always liked Tennessee best, but now I dunno. Pennsylvania is beautiful, as everyone knows who has been there. The Pennsylvania Turnpike is an old story to most people but there might be one or two who have not been across Pennsylvania on it, so this is for their benefit. If you haven't been on it, you should go. We went east through Pennsylvania on Routes 30 and 31, and returned via the Turnpike. You go over the mountains on 30 and 31, and go through them (or eight of them) on the Turnpike. The kids will love that. I hope Ohio gets around to having a turnpike across the state. It might be a little tough on back seat drivers who don't like to go fast but once they see how nice it is, they'll like it too. The ocean was lovely too, even though unadorned by the aforementioned bathing beauties. And Annapolis makes you proud you're an American.

Teen Troubles

By John Douglas, M.D. and Mary Douglas

Question: My dad is always flipping his wig over the way teen agers behave in the movies. Aren't we supposed to have any fun at all?

Answer: Of course you're supposed to have fun. Everybody wants you to have fun. It's only when the smart-alex ones become obnoxious that adults begin to flip their wigs.

After all, the other people in the movie paid to get in, too. They came to see the picture — not to watch a crowd of noisy kids and get hit in the face with spit balls. Be your age, chum. Be your age.

Good movie manners are just as important as good table manners. When people stand up to help you reach your seat, try to walk past them — not on them. And try saying, "Excuse me," while you're doing it. You'll be surprised how grateful all of 'us old fogies' will be. We'll probably buy you an extra box of popcorn and talk for a week about the nice teen-ager we saw in the movie.

Teen-agers happen to be my favorite people, but I've had plenty of them walk over me and not even notice they'd stepped on me.

Talking out loud, or throwing wise cracks back and forth, or popping empty peanut bags is kid stuff. When are you going to grow up?

And no matter how dark it is, smootching in a movie just makes you look silly to the people around you. Watch the show — don't try to put on one yourself.

West's Furry Jumps 6 Feet 4 Inches To Break All-Time High Record In Relays

g six-foot five-inch Dick Furry 'est broke the high-jump record has stood since 1950 in the City League, at the Hilltop Relays on May 11, by jumping six feet four inches. The former record set by Marv Hairston of six feet three-quarters inches was the epitome in local high jumping until Furry made the hop.

West placed high in the Relays, second only to East. East had 87½ points to West's 73½.

Five of the new meet marks were set by Coach Harry McKnight's East squad, and Jim Marshall, the weight man, set two of those.

Marshall Second in Shotput

Marshall, who had to settle for second to North's Jim Vanderbosch as top point getter in the Relays, tossed the shot put 55 feet 3½ inches to surpass the 1950 record and hurled the discus 154 feet 2½ inches to break the 1951 mark.

The Tigers' two relay teams, mile and two mile, also set new records. Roy Houpe, James Uddin, Lawrence Estice, and Earl Murray ran the mile in 3:31.7, bettering the 1953 mark of 3:33.6 (also held by East). In the two mile it was Malcolm Potts, Paul Locke, Bob Entsminger, and Irvin Chubbs running an 8:24.4 that broke a time of 8:33.8 set in 1947 by Central.

Jerry Nowell of East ran the 120-yard high hurdles in 15.3 seconds, breaking a record set in 1949.

Everett Junior High, winner of both junior high relay events, tied the 440-yard relay events, tied the 440-yard relay record time of 49 seconds.

Vanderbosch carried off a trophy for his 16 points, garnered on first in the broad jump and 220-yard dash and a leg of North's 880-yard relay team which finished second.

YOUR YOUTH

By Dick Wilson

I would like to take this opportunity to thank you and your youth for the wonderful experience which I have had these past three years on our Hilltop. It is with mixed emotions of enthusiasm and regrets that I announce to you at this time that I will be transferred to the Pittsburgh, Pa., YMCA on June 30. This new job presents a terrific challenge to me and I am anxious to meet it. On the other hand, it is with regret that I break the wonderful ties which I have made on the Hilltop. I would like to say once again "Thanks a million" for the wonderful cooperation and friendships which I have received since being one of your adopted Hilltoppers.

Applications for the Little 9 Baseball League are due at this time. If you have not returned yours to the YMCA, please do so as soon as possible so that the team assignments may be made. There will be an organizational meeting on June 13 at 10:00 o'clock at West High School for all boys who have returned these applications. Team assignments will be made at this time and schedules for the year will be passed out. The All-Star team will be selected after every team has had at least one practice.

This week sees the last regular meeting of the six Hilltop Gra-Y Clubs. Next week will be the last meeting for "Yours truly" with these Gra-Y clubs as we get together for a wiener roast at the parks closest the respective schools.

The following is the schedule for the week:

Sunday Buffet Breakfast Makes Real After-Church Treat

BY DOROTHY MARDOX

DO you like to ask friends in for a big Sunday breakfast after church? If you do, we hope these brunch suggestions will please you.

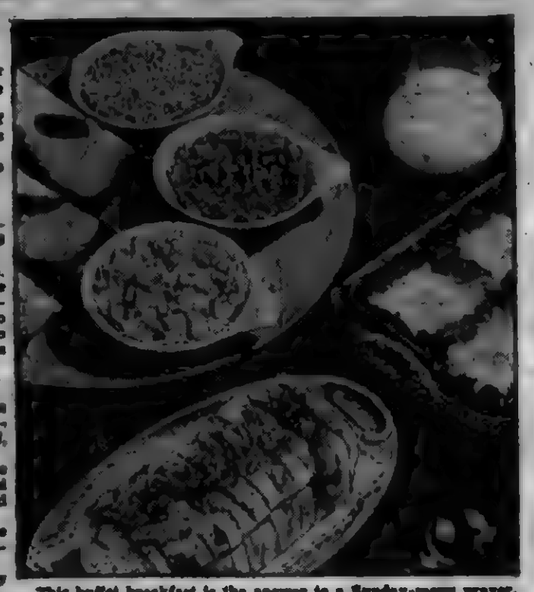
Try a brunch served buffet fashion. This creates a feeling of leisure. Let your guests help themselves on arrival to chilled wedges of melon and a choice of cereals.

The corned beef hash mixture can be pressed into a baking dish in advance, ready for the addition of the eggs at the last moment.

Baked Eggs in Corned Beef Hash (Yield: 6 servings)

One quart or 2 (1-pound) cans corned beef hash, 1 pint soft ½-inch bread cubes, ⅔ cup milk, 2 tablespoons finely chopped onion, 6 eggs, 2 tablespoons light cream.

Combine corned beef hash, soft bread cubes, milk and onion. Press mixture into a greased 1½-quart baking dish. Make 6 square indentations in hash for eggs. Bake in a moderate oven (375 degrees F.) for 15 minutes. Remove from oven and break one egg into each indentation. Pour 1 teaspoon cream over each egg. Return to oven for 15 to 20 minutes longer until eggs are set. Cut into squares and serve immediately.



Spiced-Orange Loaf (Yield: 15 servings)

One-quarter cup soft butter or margarine, ⅛ cup light brown sugar, firmly packed; ⅛ cup granulated sugar, ½ teaspoon cinnamon, 1 tablespoon orange juice, 2 teaspoons grated orange rind, 1 (1-pound) loaf sliced, enriched bread.

Combine butter, brown sugar, granulated sugar, cinnamon, orange juice and rind. Assemble the loaf by stacking each slice of bread as you spread it with about 2 teaspoons of the sugar mixture. Hold the stack firmly and, with a sharp knife, trim away the crusts.

Turn loaf on its side and set in a greased shallow pan. Loosely tie a string, lengthwise, around the stack. Spread remaining sugar mixture over the top.

Slice lengthwise, cutting completely through center of loaf. Gently pull top of loaf apart in several places. Bake in a hot oven (400 degrees F.) for 10 minutes.

This buffet breakfast is the answer to a Sunday-morn prayer. Baked eggs in corned beef hash and spiced-orange loaf. . Mmm!

West Broad Leads In Gra-Y Softball Tournament May 14

By Dick Wilson

West Broad Gra-Y took an undisputed lead in the Hilltop YMCA Gra-Y Softball Tournament which was held at John Burroughs Playground last Saturday morning. The West Broad Team came back to defeat a scrappy West Mound "B" to the tune of 7 to 5 in a game which was postponed from the previous week. As a result the West Mound Team had a record of one win and one loss; therefore they played Westgate who also had a record of one win and one loss in the second game of the morning.

The Westgate Team got off to a shaky start as the West Mound Team scored two runs in the first inning on 5 errors by the Westgate 9. The Westgaters settled down in the remaining innings and knocked two pitchers out of the box. Final score was 9 to 5 with Mike May being charged with the loss and Terry Linson being credited with the victory. Roy Buckely was charged with the first loss of the West Mound Team while Glen Rohrer was the victorious pitcher.

Next week will see the Westgate team playing the undefeated West Broad Team at John Burroughs Playground. If the West Broaders defeat the Kern coached team in the first game, West Broad will be the champions. If the Westgate team upsets the West Broad team in the first game, a second game will follow immediately to determine the championship.

After the final game of the tournament, the five managers of the five teams will vote on the one boy they believe to be deserving of the sportsmanship prize. This result will be announced in "Your Youth" column next week.

Thrift-Wise Food Buys

This is the season of the year to buy and enjoy Ohio's pure maple syrup.

The 1955 crop of maple syrup has been processed and is now being marketed. Ohio ranks third in maple syrup production; only the states of Vermont and New York produce more.

In the meat department, pork is still the big news and supplies are well above last year with prices lower on nearly all pork cuts. Veal is a good buy in many markets. Beef supplies are slightly lower than a year ago, but prices are above the same.

Florida Valencia oranges, bananas and pineapples are good fruit buys, while in the vegetable line celery, asparagus, carrots and dry onions are in good supply and reasonably priced.

Look for canned corn, green beans and applesauce for good canned food buys and frozen corn, lima beans, orange concentrate, haddock and perch for the best frozen food buys.

There are record supplies of cheese at lower prices than a year ago. Many process cheese foods and cheese spreads are unusually low in price.

IT'S A PROMISE FROM "CHUBBY"

There'll Be No Shortage Of Beans, Come July 26

Bean epicures need have no fears that they may be denied samplings of their favorite "fruit" at this year's Hilltop Bean Dinner, to be held Tuesday and Wednesday, July 26 and 27, at Westgate Park.

That's the guarantee given by C. E. "Chubby" Distelhorst, general chairman of this year's event, who declares that George Painter, in charge of the bean tent, has been given the green light to increase this year's bean supply to 4,000 pounds.

"We've been plagued by a shortage of beans for the last several years when the size of the crowds far exceeded our expectations, but we're sure to have plenty at this summer's event," Mr. Distelhorst said.

Various phases of the 1955 Bean Dinner were discussed by committee members at a meeting held Monday night at the offices of the Hilltop Business Association, the sponsoring organization.

C. H. Campbell, HBA secretary, told of experiences gained over his many years of association with the annual affair and made suggestions which he believed might serve to improve the event.

Reports were given by the various Bean Dinner committees, which are as follows:

Bean tent—George Painter.
Exhibit tent—Paul Rausch and P. A. Jackson.
Hot dog stand—Clark Biddle.

Hilltopper Cited For Public Service

Stanley J. Caylor, 890 S. Richardson-av, was one of five Ohio Bell Telephone Co. employees awarded bronze medals and $100 checks for public service at a dinner meeting at the Ft. Hayes Hotel Monday night, May 23.

Kiechle received the award for administering first aid to a group of 31 school children after their bus crashed into a tree along Lockbourne-rd last November. First on the scene, he ran to the nearest pole and called for help.

He and three other telephone men on the scene, all award winners, gave first aid to the children and directed others in rescue efforts until help arrived.

Good Citizenship Award Given To Douglas Baus

Douglas Baus, a West High School senior, was presented a good citizenship medal by the Benjamin Franklin Chapter, Sons of the American Revolution.

He was one of 20 seniors in the area that received these awards. The awards were given at a special luncheon at the Seneca Hotel on May 19. Fathers of the students and principles and superintendents of their schools were guests of the SAR.

Each year the public schools select an outstanding senior for his leadership, dependability, patriotism and other qualities to receive the medal awards.

A Salute To The Nation's War Dead Will Be Given

A SALUTE WAS GIVEN at Camp Chase Confederate Cemetery as a proud tribute to the memory of America's honored heroes recently as members of Camp Chase Post 98 of the American Legion prepared for their part in the Memorial Day program. Post Commander Roy McVay salutes the veterans of service who died for their country's freedom as the color guard presents arms. Left to right: McVay; Vincent Welker, first vice commander; William H. Adams, flag bearer; Elmer Young, past commander and standard bearer; and Robert Myers, past commander of the post. This same scene will be duplicated throughout the country on Memorial Day as men reaffirm and resolve that the liberty for which these war veterans so bravely fought shall forever be preserved as the cherished heritage of every American man, women and child, said McVay.

AN EDITORIAL

Let's Take A Long Look...Then Help!

Everywhere we go on the Hilltop for the past several weeks we see a sign "Stop Arthritis" and wonder just what it is all about. Jerry Walsh, executive director of the Franklin County Chapter, stated arthritis is the number one crippler in the nation today. That means there is no other disease which takes a greater toll of healthy lives and turns them into painful wrecks in America.

Everyday readers of the papers and radio and TV listeners hear about the arthritis program . . . but what does it really mean . . . how will it affect us?

No one really knows the causes of Arthritis. Much is known though about some of the POSSIBLE causes. The background of many victims is usually one of chronic stress and strain.

Heredity, fatigue, lowered physical resistance, emotional stress and strain, injury, shock, poor personal hygiene, exposure to dampness and cold, and chronic infections are among the possible contributing causes for rheumatoid arthritis. No specific parasite or germ has been isolated which can be blamed as the ONLY cause.

It strikes young and old alike . . . no one is free from the crippling disease. With early treatment crippling can be prevented in 70 percent of the cases. Arthritis is painful and disabling. Farmers, more than people from any other occupation, are stricken with the disability. Factory workers are second. People with low incomes have a higher incident of arthritis than those of a higher income bracket

A great problem is that few treatment centers are available in the country. No specific cure is known, but arthritis may be controlled. A cure is possible, but people must be taught how to avoid or relieve the pains of arthritis so their chances of living a long and useful life are greater.

Operation "A" day to stop arthritis will begin on Thursday, May 26 when volunteers will circulate through the Hilltop to solicit funds to carry on the merciful work of the Franklin County Chapter, Arthritis and Rheumatism Foundation.

Funds are badly needed to carry on the program which has been started. A total of $65,300 is the campaign goal. A tremendous medical program is contemplated, but it will cost $28,000 on the local level. Campaign, public education and administrative expenses cost $13,800. Finally funds must be given to the National Foundation for Arthritis and Rheumatism to do research to find the cause and cure or relief from the painful malady . . . our share is $23,500.

There are 27,000 suffers in Franklin County alone. The work of these dedicated people could very well be of help to you or your family.

The cost of arthritis in human suffering is a mark against our culture. It indicates that this phase of medical science has not been given the emphasis to keep pace

Memorial Services Planned Locally

Grove City, Galloway Set Short Parade

Galloway and Grove City area residents will attend Memorial Day services at the Galloway and Grove City cemeteries, to be conducted by the American Legion Paschall Post 164 of Grove City.

Officiating at the ceremonies will be Post Commander Charles [illegible].

The Grove City High School band will start the parade in front of the high school at 9:15 a.m. It will proceed to the Grove City Cemetery for services beside the graves of the war dead.

At about 10:15 a.m. the band and Legion members will arrive at the Galloway Cemetery for similar memorial services.

Arthritis Fund Drive Plans Set

Thirteen Hilltoppers will direct teams of women who will solicit funds for the Franklin County Chapter, Arthritis and Rheumatism Foundation, under the supervision of Hilltopper Jerry Walsh, executive director of the chapter. Operation "A" day to stop arthritis is Thursday, May 26 from 6 to 9 p. m.

Each solicitor will have an identification card and will collect the donations residents on the Hilltop may have ready for them.

Goal for the program is $65,300. The medical program will use $28,000 of these funds to help provide services and treatment to suffers. Campaign, public education and administrative expenses for 1955 is set at $13,800. Contribution to the National Foundation will be $23,500, which is needed for research into the causes and cure of the nation's number one crippling disease.

Don Rice Is Winner Of Westinghouse Two Week European Tour; Leaves June 7

Don Rice, owner of the Westgate Electric Company, is the picture of elation these days and rightly so everyone would agree.

Don, a bona fide Hilltopper, is one of three Columbus appliance dealers to be awarded a tour of Europe, with the Westinghouse Electric Corp., picking up the tabs.

Winning the Westinghouse trip was not easy, according to Don. It represented a terrific amount of effort on the part of his sales staff, coordinated with an extensive advertising program in the Hilltop Record.

"Above all," he says, "the achievement was made possible only through the help supplied by our loyal customers.

"I guess," he said, "I'd even have to give some credit to our patron 'saint,' Betty Furness."

Don, who will be accompanied by Mrs. Rice, will leave June 7 for New York. After spending a luxurious night at the Savoy Plaza Hotel, where they will meet Betty Furness in person, the second day will land them in Copenhagen.

On the third day Mr and Mrs. Rice will get to travel around the old city of Copenhagen and see the sights, the university, cathedral, Amalienborg Palace, Little Mermaid, Grundtvig's church and Parliament . . . on the fourth day they will fly to Madrid.

All the stays will be in elegant hotels and the couple will be privileged to drive down some of the famous old streets and see sights they've seen before only in travel folders . . . and all with Westinghouse paying the bill. Then the bull fight! Madrid, famous for its bull fights, will exhibit all its . . . New York and home . . . "Ah it will be grand!" he said.

DON RICE (right) owner of Westgate Electric Co., 2655 W. Broad-st, is shown receiving the Westinghouse European tour award from Charles J. Vandran, branch manager of the Westinghouse Supply Co.

On the seventh day after leaving Madrid, Don and the Mrs. will arrive in Paris for visits to some of the most wonderful and colorful places on the continent. After Paris

Let's Explore Ohio

More than 44,000 people visited the Logan Elm Park last year as they followed the pathways of history through this State. This huge tree is a living tie with Ohio's past, for it was under these spreading branches that Indian Chief Logan delivered his famous speech which was recorded by John Gibson in 1775, a year before the American Revolutionary War, and which gained world-wide fame as one of the most eloquent statements by any of the former inhabitants of the Ohio Country. The Logan speech is recorded on a monument tablet at the Logan Elm. This tree stands in a five-acre park maintained by the Ohio Historical Society and many Ohio families use the picnic facilities in this historic park, which is about seven miles south of Circleville on Routes 23 and 361.

Tour Includes Beauty Of Scenic Ohio; Kentucky

A trip from the rolling hills of Ohio, through the Ohio River valley, across the beautiful Ohio river and into the scenic blue grass country of Kentucky, sounds like an ideal tour to us.

Kentucky, the Cumberland Hills state, with its beautiful estates, homes of thoroughbred horses including the fabulous Man of War, and Renfro Valley, home of the famous Renfro Valley Serenaders, has wonderful vacation possibilities. A state park is located on Kentucky Route 90, midway between Corbin and Williamsburg and a newly-constructed bridge, especially designed to harmonize with its surroundings, spans the Cumberland River in the park.

Cumberland National Forest stretches as far as the eye can see and beyond. The Cumberland River wanders through a valley, winding past the most beautiful hillsides and accepting the easiest pathway through this natural garden. At one point the river moves faster and faster toward a high rock ledge from which it leaps and plunges into a self-made rock pool where it boils and seethes before it resumes its quiet journey through the still mountains and forest.

Leaving Cumberland National Park the tour continues to Abraham Lincoln's historical park with its memorial building and Lincoln's cabin. From here, the trip continues to Bardstown, Laurenburg, Cincinnati and home.

The suggested route for this trip with its scenic wonders and historical significance is: from Columbus, take Route 62 to Ripley, cross the Ohio river to Marysville, follow Route 11 to Mt. Sterling, Route 60 to Winchester, Route 227 to Richmond, Route 25 to Corbin and Route 90 to Somerset. Route 80 to Columbia, 61 to Hodgenville, 31 E. to Bardstown, 62 to Georgetown, 25 to Cincinnati and home to Columbus, via route 8.

Ticklers — By George

"... and YOU wanted to live right by the golf course!"

In Passing

By

Esther Weakley

MOTHER OF THE YEAR

Today she was decorated
And the President, no less,
Pinned a shining medal
On her new blue dress.

But her children who were watching,
Proud that she was honored so,
Could not help thinking a safety pin
Would have been more apropos.

Through the years they had seldom been hers
Without a "decoration" of these.

She always said "With seven children,
One must be prepared for emergencies."

R. V., in Contemporary Verse.

My Dirt Farmer Friend, from whose letters I have used excerpts in this column, writes that a tornado in March took about everything but his house and his spirits. His barn, covered barn yard, garage, hog house and long cribs of corn were destroyed in a matter of seconds. Ten of his cows were left standing fastened in the stanchions where the barn had been. None of them was hurt. He said a hundred friends and neighbors came and helped clean up the ruins, a mighty demonstration of the love and respect they feel for him and his wife. Their farm is located near Buckeye Lake. When tragedy comes, it is almost worth it—to discover people do care; even though sometimes we feel they don't.

From somewhere — To have faith is to have wings . . . Grand Opera: a place where a guy gets stabbed in the back and instead of bleeding, he sings . . . In the heat of an argument, the married couple drove past a braying donkey in a field. "One of your relatives?" asked the husband. "Yes, by marriage," the wife replied sweetly . . . Don't resent growing old too much. Many are denied the privilege.

• • •

My private Waterloo — singing commercials . . . telephone surveys and advertising (yet!) . . . Columbus traffic . . . chewing gum, chewed in my ear; stuck on dishes and stepped in.

Answering a card signed "Bill Burns": The reason I don't write much about current events is that my stuff is written a week before it appears in the Record. By the time it is printed, it isn't current events—it's history. Anyway, I'll leave the comments on current events to those better qualified to write about them. Thank you for reading In Passing, and I hope your exam won't be too tough.

This verse is reprinted for two Hilltoppers who want it for their scrapbooks:

What's the use of worrying?
It won't put money in your purse.
Whether you worry or whether you don't,
Conditions get better or worse.
What's the use of worrying
And getting yourself in a flurry?
O—what's the use?—
I worry!

A CONSIDERABLE DEBTOR

"That man with the bill is here again sir."

"Tell him—ah — tell him I've gone to the funeral of a rich relative from whom I expect to receive a lot of money. The poor devil has been here so many times I feel I ought to say something encouraging."

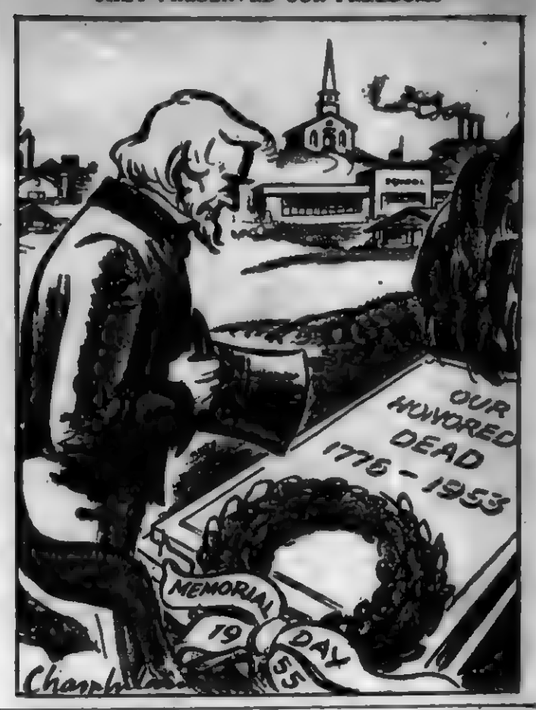
Flirt Not With Death

A long week-end ahead, a fast car, a family loaded in the car . . . without caution and good judgment this family loaded in the car may never return to its home.

With Memorial Day just around the corner and many people having Saturday, Sunday and Monday off to travel off to the many vacation spots in and around Columbus, Hilltoppers must be extra cautious . . . most people who die in traffic are the innocent victims of careless drivers — the estimated 15 percent who cause the majority of accidents.

Some drivers have absolutely no regard for the safety of others.



Let everyone join in making this week-end an accident-free holiday. But remember . . . even those who drive carefully will have to be alert every moment for the motorist who has no regard for the lives of others.

THEY PRESERVED OUR FREEDOMS

IT HAPPENED IN FRANKLIN COUNTY

Early Doctors Struggled With Rampant Diseases

By John O. Marsh

Early Franklin County physicians, without improved facilities for medical training, fought valiantly to preserve the health of local residents and to arrest the ravages of disease, which, as late as 1850, continued to reduce life expectancy to a little more than 40 years.

In the absence of modern sanitary facilities, the presence of undrained swamps, stagnant pools and muddy, unpaved streets, the health of the county was frequently threatened by recurring epidemics of diarrhea, fever and ague. Smallpox, too, was a dreadful, murderous, visitor. It left death in its wake, and its disfiguring marks upon the faces of survivors.

Inoculations Feared

Although the federal government, through its agent, had made home packets of smallpox vaccine available to the residents of Franklin County as early as 1813, inoculation was regarded by many as being contrary to the will of the Almighty. Milk sickness, tuberculosis, "influenza", child birth fatalities and social diseases, although less spectacular, were equally disastrous.

In the early 1830's cholera, the most dreaded of all diseases, made its appearance in the northern part of the state. Although village officials of Cleveland attempted to localize the disease by enforcing modern quarantine practices, the plague swept rapidly southward.

With its appearance in Franklin County in July, 1832, Methodist ministers promptly petitioned Governor Duncan McArthur to proclaim a day of fasting and humiliation for the purpose of employing "Divine interpolation for our preservation." Other distraught citizens petitioned the governor to drain the canals in the interest of arresting the steady influx of German and Irish immigrants, who, according to the nativists, were the principal source of the pestilence.

Many "Cure-Alls" Seen

During the summer of 1833 the disease reappeared, decimating the population of the county seat by three and three-tenths percent. It raged with all its fury in the summer of 1849 and again in 1850 at which time 1500 terrified Columbus citizens, after dousing themselves with "cure-alls," which had been systematically condemned by the press, fled from the country.

Business in the principal towns and villages was suspended temporarily and the streets were practically deserted except for doctors who rushed from patient to patient, and the courageous who remained to nurse the sick and dying and bury the dead.

The pestilence left behind it a wide path of waste and destruction. According to information, reported by the temporary boards of health, deaths from the cholera totaled 100 in 1833, 279 in 1849, including 116 inmates of the Ohio Penitentiary, and 225 in 1850. The cholera, in a less virulent form, reappeared in 1852 and again in 1854.

Although public confidence in the skill of the "regular" physicians was somewhat shaken, and the Columbus board of health publicly condemned the treatment prescribed by the Thomsonians for the then baffling malady, the unhappy experiences were not without their future beneficial consequences. The fear and the sadness, occasioned by the high mortality rate, stimulated a public interest in scientific medicine and re-emphasized the need for stricter local laws relating to health and sanitation.

On Feb. 16, 1848 the Columbus City Council enacted a fairly stringent sanitary ordinance which paved the way for more adequate measures. Then in the spring of 1849 enthusiastic Franklin County citizens assembled in Columbus to witness the laying of the cornerstone of a new building, located at State and Third-sts, which would soon become the new home of the recently chartered Starling Medical College.

Mural Paintings Give Dance Western Tone

Cowboy, Mexican and Indian pictures and murals decorated the walls of Glenwood Recreation Center's game room May 12. Yellow and brown streamers decorated the ceiling and windows of the Western Square Dance and added color and festivity to the occasion. The decorations had been made in the teen craft class at Glenwood.

Some of the outstanding decorations were a large Indian drawing by Dwain Door and a large corral by Ronnie Ogden.

Boys and girls arrived at the dance dressed in costumes from the wild west. Some of the interesting costumes were those of Sharon and Linda Humphrey, who came dressed as pioneer women. Pete Caborn, Ronnie Ogden and Dave Thomas came dressed as bandits. Some of the children's parents joined into the festive occasion and wore western costumes too.

The Camp Fire Girls furnished the entertainment for the dance and Jim Jenard was the caller for the Western Square Dance.

Proceeds from the dance sponsored by Glenwood Recreation Center's Teen Club, will be donated to Franklin County Society for Crippled Children Inc., 553 E. Town St.

West Broad Gra-Y Wins Softball Tournament

By Dick Wilson

West Broad Gra-Y last Saturday morning completed an undefeated season to take the Hilltop YMCA Gra-Y Softball Tournament by defeating Westgate 10 to 8. The Kern coached Westgate team outplayed the victors in the last five innings as they held the Saint coached team scoreless after the first frame. The West Broad Nine in the first inning scored 10 runs on five hits. Two of these 10 runs were earned and eight were unearned, due to walks and errors. Four of the total Westgate runs were unearned.

Jimmy Ricketts led the victors' hitting attack with a home run and two hits in three times at bat. Starring defensively for the victors was Dick Williamson, who played errorless ball at his shortstop position. Danny Snyder also looked good afield for the victors. Terry Linson led the losers' hitting attack with a home run, a hit and an error in four times at bat. Bill Hill looked good defensively in his left field position for the losers. Glen Rohrer was the winning pitcher, which gave him a season record of four wins and no losses. Terry Linson was charged with the loss.

A vote after the conclusion of the game for the outstanding sportsman in the tournament was cast in favor of Bob Ross from Westgate Gra-Y. Awards will be presented to the championship team and Bob Ross in the schools this week.

Rain Halts Speedway Fete

The weatherman stepped in to halt Sunday night's activity, at the Columbus Motor Speedway. Despite the threatening weather, 2394 paying customers filed through the turnstiles, but a sudden downpour, cancelled the program, before the first event could be run.

There'll be plenty of activity at the southside oval, this coming weekend. Friday night, there is a guaranteed purse of $1,700.00, as the drivers vie for top honors in a regular seven-event schedule. Sunday night, the Decoration Day Championship races will be run, with a seven-event program, topped with a 50-lap feature.

Last Friday night, a crowd of 3817 watched Ossie Osborn take a thrilling 20-lap feature. He was followed across the finish line by Neal Sceva, Ralph O'Day and "Dude" Grice, in that order.

Latest drivers who have joined the activiy at the Columbus Motor Speedway, are Jack Bowsher, "Red" Bales, Jimmy Vaughn, Jimmy Crist and "Bulldog" Jenkins. This brings the driver total to more than 50.

Starling, West Junior Hi Teams Play Big League

Starling and West Junior High's baseball teams went big league Wednesday, May 18, playing a practice game at the Jet Stadium, through the courtesy of Harold Cooper, the Jets' General Manager. Cooper, by the way, is a former Starling pitcher of several years back.

Both lineups were liberally dotted with 8th graders who will return for baseball next season.

"Skip" Martin on the mound for Starling held the junior cowboys to two scattered hits, struck out six, but his mates made seven bobbles in the field.

Furry on the mound for West, gave up 13 hits and needed help from Goodwin in the last inning. Starling won the game by the score of 15 to 8.

HOW DO YOU DO, THANK YOU,
AND IF YOU PLEASE
Every six year old should be taught this. Children are easily impressed at that age and courtesy is contagious. The YMCA will take your boys on at eight and good impressions will continue. The YMCA program actually starts with boys of six in the Y-Indian Guide program and follows through Gra-Y, Jr. Hi-Y, Hi-Y, and Y's Men. (Boys may join the "Y" building program at eight years.) Our great program is hampered only by lack of funds, so keep us in mind when writing or revising your will. You receive a great satisfaction in knowing you have helped some boy in replacing yourself in life.

Teen Club Has Pie Baking Contest

The teen age boys at Glenwood Recreation Center's Teen Club meeting, Monday, May 16, proved to the girls that they were just as good cooks as the girls.

Apple pies were made and baked in the kitchen at Glenwood Recreation Center by the boys and girls in teen club. While the pies were baking, the group played games. The favorite game of the evening was "What's My Line?" After the games and business meeting, the group served the apple pies that they had made together for refreshments.

Teen age boys and girls are invited by Glenwood Recreation Center's Teen Club to participate in a mixed girls and boys softball game, Saturday, May 28 at 10:30 a. m.

Those youngsters who are planning to attend the softball game are asked to bring a picnic lunch with them to eat after the game.

In Memory Of Our War Dead

FLOWERS FOR GRANDFATHER'S GRAVE were laid reverently at the small stone marker of the grave in the Confederate Memorial Cemetery of Sgt. W. A. Atkins, member of Company B, 34th Virginia Infantry Regiment, Mecklenburg Company, who died in the Camp Chase Prison Camp around 1864, three years after he enlisted. Charles W. Atkins, 3779 Plainview-dr, grandson of the man recalled the story of the attempted escape of two men from the grimy prison . . . and who died. The rest of the Confederate Civil War veterans buried in the cemetery died of cholera and smallpox. To those men who so gallantly offered their lives in the wars past, Atkins offered his solemn tribute. William H. Adams, past flag bearer, stands by in salute to the Atkins.

as it was used for the first time.

One hundred and eighty-five 8th graders were graduated from North Franklin, Burnside Heights, and Briggsdale Junior High in the ceremonies held there.

The invocation was given by the Rev. James H. Lyons, pastor of Briggsdale Methodist Church.

George Beery, Franklin County superintendent of schools, was the principal speaker of the evening.

There were student speakers from each of the three schools. They were Deanne McBride of Briggsdale Junior High, William Johnson, of Burnside Heights School, and Theodore R. Smith, from North Franklin School.

V. J. Ullman, executive head of Franklin Township Schools presented the classes to Elbert Becker, president of the Franklin Township Board of Education, who gave the diplomas to the graduates.

The music for the program was provided by the 8th grade classes.

The Briggsdale students presented a part from "Creation." Burnside Heights sang "Someone Bigger Than You Or I". Eighth grade girls from North Franklin sang "Kentucky Babe." Music was under the direction of Mrs. McNon Crossmack and Mrs. Myrta Tway, township music teachers.

with other sciences and that the public has not been educated to protect itself against arthritis as it has against other enemies. The cost of arthritis in American economy and production is a threat against the very strength that makes America great.

Still we can only start from where we are — that is with a firm wedge in the door that eventually will open to reveal cause, cure and prevention of arthritis, releasing millions from a bondage of crippling pain. [illegible] manpower applied to the wedge will open the door that now bars the answer to arthritis.

West's Vice Principal Wins $500 Grant To Travel Europe

Miss Ruth Bachmayer, vice-principal of West High School, was one of the 10 local teachers who,

Miss Ruth Bachmayer

last week, received a grant of $500, for summer study or travel.

The grants, designed to help promote professional growth, are awarded on the basis of applicants' teaching performance and on their plan of how they would spend the money. The fund that supports the plan is the gift of an anonymous donor.

Miss Bachmayer will leave June 16 and travel through 16 countries in Europe, Asia and Africa. Her aim, as outlined in her application, is to describe her travels later to PTA's, women's clubs and church groups to promote world understanding, closer liaison between schools and the public and deeper appreciation of U.S. citizenship.

Her itinerary includes Madrid, Cairo, Beirut, Damascus, Jerusalem, Bethlehem, Tel Aviv, Athens, Rome, Naples, Florence, Venice, Zurich, Paris, London, Glasgow and Belfast. She has chosen these cities carefully as representattive of life today abroad.

Miss Bachmayer, who was first assigned to West High when it was built in 1929, describes her greatest thrill in winning the grant with "I am delighted and amazed with the many, many messages of congratulation I have received from former pupils."

Tournament Winners Named

STEVE FETHEROLF, LEFT, AND BILL QUINN congratulate each other after winning city badminton titles in the recent inter-center badminton tournament. Steve won the intermediate boys crown, and Bill captured the junior boys title. Both boys are exceptionally good badminton players for their ages, and they should offer some stiff competition in next years' tournament.

Fetherolf And Quinn Win City Badminton Titles

Steve Fetherolf and Bill Quinn, of Glenwood Recreation Center, managed to capture the boys intermediate and junior badminton titles in the recent inter-center badminton tournament. Both boys showed good form in the intra-center competition at Glenwood, and entered the tournament with some good experience behind them.

In winning the junior boys title, Bill Quinn defeated Schiller's entrant to advance to the finals. Here, he walked over Beatty to become the champ. The situation was the same in the intermediate division as Fetherolf first beat Schiller and then Beatty.

Al Nichols, the senior boys entry from Glenwood, was unable to place.

In the girls' tournament, Vicki Quinn advanced to the finals but met her waterloo here at the hands of Sunshine. Glenwood's intermediate girls entry forfeited, and Shirley Fleischer, the Glenwood senior girls entry, dropped her first match to Schiller.

CUTS HEAD IN FALL

Byron Mann, 39, of 284 S. Oakley-av, suffered a cut head when he fell at his home on Friday, May 20. He was taken to Mt. Carmel Hospital by police ambulance cruisermen.

'Honor Banquet' A Big Reprimand

A bigger surprise than teachers, coaches, parents and players expected pounced on them in the form of smiling former basketball great of Ohio State University, Dr. Jimmy Hull at the annual West High All Sports Banquet, Thursday, May 26 at the student union of OSU.

What was planned as the year's most memorable tribute to the high school athletes turned out to be one of the strongest reprimands for their action on and off the field. Dr. Hull pointed out that, before he spoke to the group, that he made a tour of the Hilltop in an effort to find out what was the spirit of the team, how the community responded to the team and what the rest of the students thought of their team.

Minute Interviews

From the series of minute interviews with Hilltoppers Dr. Hull indicated that he was an "expert" on the situation and proceeded to give the team where-with-all on the night of their "honor" banquet.

As one mother stated it: "The lecture was fine . . . but, why didn't Dr. Hull give it to the young athletes when they were in the beginning of a season when it would have done the most good. This was to be a day of jubilation for the youngsters, instead it was a black Thursday and everyone left the banquet hall downcast."

Two young men, one a West Hi sophomore and the other a junior, were overheard, after the dinner, "If Dr. Hull said it I believe it. He knows what he is talking about. Some of the fellows did break training and needed his talk. There were a lot of fellows who are freshmen, sophomores, juniors and 1st semester seniors who will be helped by the pep talk. It wasn't very nice for Dr. Hull to say some of the things he did about the outgoing seniors, but some of them deserve it."

Mack Pemberton, head coach at West, pointed out that it was too bad Dr. Hull had singled just a few of the fine athletes at the school where there are dozens more equally qualified to receive recognition.

"Anyone doing the right thing in their sports life has no reason to be hurt by the comments made by Dr. Hull . . . . If the shoe fits put it on," Pemberton added.

Dr. Hull said that according to his research on the Hilltop, asking men and women, boys and girls, and anyone else who might know about the team, it was revealed that the following attitudes were predominant:

Kids Are "Hot Rods"

"The kids are just a bunch of hot rods; they don't care if they win or lose; they don't train, they are outspoken, smoke and drink; and there is discention on the squad."

Individual sportsmanship is good, he said. Teamwork is bad. Athletics must mean something to you, you must live, sleep and eat sports, Dr. Hull asserted. Sports deserves your full attention and

Ralph Wheaton Wins Special Recognition

Ralph Wheaton

The name Ralph Wheaton rang loud and clear through the banquet hall at the All Sports program when Coach Rufe Glass announced that the young auburn haired man was voted honorary captain of the 1955 track team. He is the son of Mr. and Mrs. C. O. Wheaton, 103 Demorst-st.

Hilltop Cabbie Robbed Sunday

A Hilltop cab driver was robbed during the owl shift.

Early Sunday morning, May 29, by Coleman M. Ridge, 26, 300 E. Hague-av, a driver for the Hills Cab Co. was making a run he was abruptly startled by a knife-wielding bandit who robbed him of $39 and his wrist watch. The man got away in a South Side alley.

When the cab arrived at the address, the robber reached across the back of the front seat, placed a knife against Ridge's throat and demanded money. Ridge gave him a $24 check he was carrying, and $15 in cash. The bandit also snatched Ridge's wrist watch. Ridge described the man as about 27, standing 5 feet, eight inches tall, and weighing 150 pounds. He was wearing a gray hat and a maroon jacket.

Playing Field Emerges From Rough Lot

Many of the boys at Glenwood Recreation Center have been helping to clear out a number of trees that were in the outfield of the newly constructed ball diamond. The diamond was leveled, grass was sown in the outfield, and the backstop was constructed earlier this spring. However, the trees remained standing in center and left fields.

Efforts were made to have the trees removed but to no avail. Mrs. Ray Cave, chairman of the Civic Improvement Committee of the Hilltop Community Council contacted Ray Diety, superintendent of Parks and Forestry, several months ago, and he said they would be taken out in time for this season's play.

Increasing numbers of Hilltop youngsters have been going to the ball diamond to play. Lon Wright, the custodian of Glenwood, lined off the field, put in the pitchers box and home plate and staked out the bases. Games were played, but the trees hampered play and presented a possible injury hazard.

Finally, several of the boys borrowed a saw and secured permission to start taking out the trees. By the end of the first week, all They were supervised by the staff members and several parents. of the trees were down and most of them cleared away from the ball diamond. The stumps will have to be removed. The boys hope to get this done as soon as possible.

Franklin Heights Village Incorporation Outlawed

The first quarter of a crescent moon shaped parcel of land encompassing the Hilltop which was to have been called the "Village of Franklin Heights" failed in its attempt to incorporate last week.

The crescent shaped area is in its last phase since a permanent injunction against the incorporation of Franklin Township as a village was approved Wednesday May 25, by Myron B. Gessaman, Common Pleas Court judge.

Immediately on the heels of the announcement that the Franklin Heights Village petition is invalid, adherents of the Columbus annexation program introduced five separate petitions seeking to include the tax-rich Westinghouse Electric Co. plant into the city and several other areas.

The two petitions filed Friday, May 27, did not include the General Motors Ternstedt Division plant which was included in a previous petition which is expected to be heard on June 10.

Trustees Sought

The township trustees and Citizens' Association have been fighting annexation to Columbus of large portions of the township.

County commissioners have been prevented from holding hearings on these annexations pending the decision on the incorporation.

Ruling Not Based on Merit

Gessaman stated that the action of the Franklin Township trustees was taken without authority at law

Teen Council Goes To Indian Village Camp

A picnic was held at Indian Village Camp for members of the Inter-Center Teen Council of the Columbus Recreation Department. Glenwood Recreation Center's Teen Club was represented by Donna Liston, Connie Echelberger, Wayne Robbins, John Hummel, Pete Cabern and Bob Young.

A softball game was held when the group arrived at camp and afterwards a wiener roast. A hike through the woods to the rapids was a special feature of the trip. The evening program consisted of group games and dancing.

Glenwood Center's Teen Club meets every Monday at 7:30 p. m. Teen age boys and girls who are interested in becoming members of the group are invited to attend the next Monday night meeting.

He is survived by three nieces, including Mrs. Olive McGough, of West Jefferson, and two nephews.

St. Agnes Church To Be Dedicated Sunday

The new St. Agnes Church will be dedicated by Bishop Michael Ready in solemn ceremonies Sunday, June 5.

Monsignor Roland T. Winel, chancellor of the diocese, and Rev. George Schorr, vice-chancellor, will serve as chaplains to the Bishop.

St. Agnes parish was organized in April, 1954, and the Rev. Bennett Applegate was named administrator. The area comprising the parish was formerly divided among St. Aloysius, St. Mary Magdalene and Holy Family parishes.

Services were held in West Mound Street School until the new church was ready in March of this year. Ground was broken for the new parish plant on W. Mound-st between Wheatland and Wayneava, in September, 1954, by the Rev. Robert Schmidt who was appointed pastor of the parish that month.

The new parish plan, pictured above, was constructed by Kent Brothers Co. of Columbus, from plans drawn by Columbus architects Ramsey, Croos and Abbot. The one-story brick multi-purpose building has a cement block interior and laminated wood beams. The brick and limestone church, which has a seating capacity of 600, serves approximately 500 families.

Plans were announced recently by the Rev. Applegate, diocesin superintendent of schools, for the formation of a new St. Agnes grade school. The school, schedul-

FIRST COME, FIRST SERVED

Applications Being Taken For Bean Dinner Exhibit Tent

It's almost eight months until the 1955 edition of the Hilltop Bean Dinner gets underway, but if early applications for space in the exhibit tent is a criterion, a full house can be expected in that department.

This was the view expressed yesterday by Paul Rausch and P. A. Jackson, exhibit tent chairmen.

"Business men have come to realize the value of showing their wares to the more than 30,000 persons who attend the Bean Dinner each year and are emphatic that it is one of the biggest advertising buys they offered," the chairmen declared.

Choice of various spaces available in the huge tent will be on a first come, first served basis, although Mr. Rausch explained that the enclosure, which will be 40 feet wide and as long as is necessary to accommodate all exhibitors, will be arranged so as to give every visitor a good view.

Applications must be filed by June 15 to insure space reservations, according to Mr. Jackson.

The annual affair will be held Tuesday and Wednesday, July 26 and 27, at Westgate Park.

High Mass Sung Tuesday For Mrs. Nina Fraser

Mrs. Mina Madeline Fraser, 62 of 329 Binns-blvd, was struck and killed Friday by a passenger train as she was walking along the New York Central System tracks near Westgate-av.

She is survived by her husband, William; daughters, Caroline and Nancy; son, William Arthur; parents, Mr. and Mrs. George Peters; brothers, Lt. Harold J. Peters and Lt. Eugene Peters.

High mass was sung in St. Mary Magdalene Church at 9 a.m. Tuesday. Burial was in St. Joseph cemetery by Jerry Spears funeral home.

Westgate Church Plans To Build $100,000 Addition

The congregation of Westgate Evangelical United Brethren Church, at a vote taken last Sunday, May 29, expressed approval of the proposed plan to enlarge the sanctuary in the very near future.

Construction would cost an estimated $100,000 and would enlarge the seating capacity to 600 and provide Sunday School classrooms for 700. Boyd Martin is the architect.

The church congregation has grown since the Rev. Harold Dutt became pastor in 1944, from 180 parishioners to the present 300. The church is located at 61 S. Powell-av.

LETTERS TO THE EDITOR

UNTIMELY, UNNECESSARY SPEECH OF DR. HULL

If there's a possibility any of Mr. James Hull's lecture given at West Hi All Sports Banquet Thursday, May 26, may be published, then in all fairness to our West Hi boys—the whole untimely, unnecessary speech should be aired.

For three years West's boys were permitted to participate in sports for their school. Then one week from day they graduate—they are termed "unworthy to be a guest at a banquet given in their honor."

Believe me, except for four special examples from the whole school, it wasn't an honor for student or parent.

If these students wore their school colors for three years they certainly didn't smear them the last week of school.

If things are so bad at our school that an outsider has to tell us how bad, where is the greatest fault? Not the boy! Any boy permitted to take part in sports is entitled to a decent farewell banquet . . . not a lecture a reform school instructor would hesitate to deliver.

One foolish, thoughtless student made the remark to Mr. Hull (in his detective work) "that they (the athletes) don't care if they win or lose."

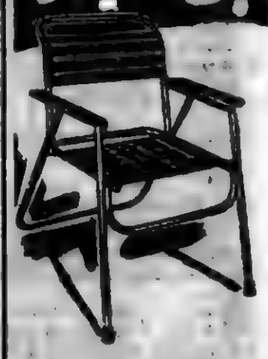
Note: Not one coach got off his chair to defend his boys. As a matter of fact one coach thought it was a good lecture. I think it was and I hope the coaches got something out of it! As they weren't the honored guests it may do them some good.

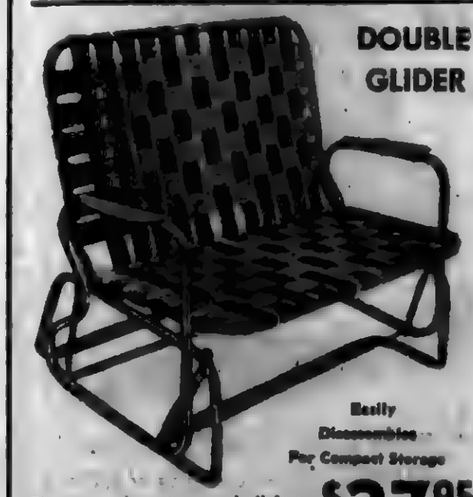
Mr. Hull should have played on West Hi's football team the last two years (instead of 1939 basketball). Were four other members on that team.

After hearing Dr Hull's speech one wonders if one player wasn't sufficient.

Have you ever seen boys take one defeat after another? Well I have and I wish that certain students could have seen them drag home not only physically beat but as dejected a foursome as could be game after game. They tried to make jokes but they weren't funny. It's heart-breaking to see!

You or no one else can tell me a boy works like a Trojan to get on a team and then doesn't play his heart out to win.





Perhaps being on a losing team may make them a little more charitable and humble when it comes to judging others. And . . . after that speech it should warn them against being a self-made man and public speaker all in one. If they have been guilty of one-tenth of the insinuations who let them represent their school?

I can't believe there are very many who would be guilty and if so the teachers and coaches are there to be of some help in molding, correcting and building them for a better life.

YOUR HILLTOP BRANCH LIBRARY

Library Summer Reading Club To Begin Program Today

By Mildred Phelps

June marks the beginning of summer hours at the Hilltop Branch Library, 2936 W. Broad-st. From June 1 through September 10, the library will be open daily from 9 a. m. to 5:30 p. m. and every Saturday from 9 a. m. to 9 p. m.

The summer reading club for the children also began June 1 and runs until Aug. 1. This year's theme is the Zoo. To become a full fledged member, each child is required to read 10 books during the two months period. Purpose of the reading club is to maintain and stimulate interest in reading and books during the school vacation.

Parents are urged by the schools to encourage their children to continue reading through the summer months. Not only does the child gain knowledge, but he maintains the reading skill learned during the school year. In the fall he continues his academic studies with greater ease. Children may register in the Zoo Book Club any time now. Only requirement is that each child have his own library card.

The library receives new books for children each week. There are picture books and readers for preschool children and those in the lower grades, and a wide variety of intermediate books ranging from fiction and folk story to science, inventions and studies of other nations.

New adult books this week include an interesting autobiography by the well known editor-in-chief of the Toledo Blade, Grove Patterson. Title of the book "I Like People," is indicative of the author's character; a very good book. This is a warm wholesome story of a man's life and love of his profession.

"Memories" by Ethel Barrymore is likewise autobiography, this time the life of a great actress who loved life in the theatre. There is much of contemporary interest in each of these fascinating autobiographies.

"Admiral Kimmel's Story" by Husband E. Kimmel, falls not into the autobiography classification but rather into the historical. It is the Admiral's own account of the fateful Pearl Harbor fiasco. Counsel B. Rugg states in the foreword: it was a privilege of a lifetime to serve an honest and courageous man striving against what seemed overwhelming odds to emerge from the shadows of undeserved humiliation into the light of historic truth.

4525 Watch As 57 Speed For $1,700 Purse

The Columbus Motor Speedway was the scene of some of stock car racing's most spectacular action, over the holiday weekend.

Friday night, 57 cars were on hand for the big $1700.00 purse. Neal Sceva thrilled the 4525 customers, as he took over the lead in the 20-lap Feature race and went on to victory. Jack Bowsher, of Springfield, couldn't get through the "pack" soon enough, but when he did, he started flying and came in second, just a couple of car lengths behind Sceva.

Several car owners, banded together after races and put up $100.00, to have Bowsher's motor "torn down," to check cubic-inch displacement, the carburetor and other points in doubt. The CUSI (Columbus United Stockcar, Inc.) rules committee checked and found Bowsher to be perfectly legal. Bowsher received the $100.00 cash, plus his prize money of the night. Earlier in the evening, Bowsher set a new qualifying record of 18.-72 seconds. It broke his own record of 18.90 seconds, set just one week earlier.

Sunday night, Bowsher took the lead in the 50-lap Decoration Day Championship Feature, on the 18th lap and "breezed" to victory, one-half-lap ahead of Neal Sceva and Ralph O'Day, second and third place drivers.

This Friday night, a guaranteed purse of $2275.00 is being offered in a regular seven-event program. Time trials begin at 7 o'clock and the first race at 8:00 p.m.

In just four nights, the Columbus Speedway turnstiles have clicked to the tune of 17,615 paying customers and the prize money, including this coming Friday, totals $9275, the hightest in the country.

One of the cleverest birth announcements we've seen in a long time is the one written on the "What's my line?" theme, introducing a new "Panelist", Randy Fredric Marsh, son of Mr. and Mrs. Ray Marsh, 106 N. Brinker-av. According to the announcement, he was "Produced May 24 at White Cross Hospital and was smaller than a bread box, weighing six pounds, 15 ounces.

A note from Mrs. Charles (Barbara) Bass in room 402 St. Mary's Hospital, Rochester, Minn., conveys her thanks for more than 300 cards she has received from old Hilltop friends. Her progress report sounds good, too. She's out of her body cast now, and in two leg casts.

Casting a wistful eye towards the Hilltop pool these days and counting the days until July 12 when his right arm is out of the cast and he can join his friends is Jim McKnight, son of Mr. and Mrs. Homer McKnight, 92 S. Highland-av, and a seventh grade student at West. He fell while playing baseball at school.

Mrs. Grace Kneeland of Yonkers, N. Y., was called to Columbus recently by the illness of her mother, Mrs. Matilda O'Harra, 83 S. Powell-av.

Night Harness Racing Set

Night harness racing makes its 1955 debut in Central Ohio Tuesday, June 7, when Hilliards Raceway starts a 41 night meeting that will run through July 22. Starting the sixth year of operation at the Franklin County Fair Grounds, Hilliards Raceway will offer many new innovations to the racing fans when they visit the popular half-mile oval located 12 miles northwest of Columbus off Route 23.

Heading the list of improvements is the new "Sulky Terrace." The terrace will offer a cool comfortable spot for fans to relax between races, and will offer the finest in food and beverages. Another of the improvements is the new 400 car parking lot. The seating capacity at Hilliards Raceway has been increased with the erection of bleacher sections that will seat over 200.

More than $150,000 purses will attract the nations finest trotters and pacers for the 41 night meet.

Veteran racing official Joseph A. McGraw, Washington, Pa., has been appointed as Presiding Judge for the 1955 season. George "Pug" Hood, Columbus, Bill Yocum, Hilliards are Associate Judges. Post Time daily except Sunday at Hilliards is 8:15 p. m.

and is therefore void and to be treated as a nullity.

He further stated, "Our decision in this case had nothing to do with the merits or demerits of incorporation of the village of Franklin Heights. Our decision herein is based solely upon the proposition that when the township trustees purported to act upon the incorporation of the village and to call an election for said purposes, it had no jurisdiction." The result was the declaration that subsequent action taken with respect to the proposed incorporation was null and void.

The permanent injunction was asked by Harry Hoye of 656 Derrer-rd. It stops County Recorder Raymond E. Schaefer from proceeding to certify the record to the secretary of state who would have issued a charter to the new village.

The VERDICT!

Some things are so final. One of them is Judgment. But whether we like it or not, it is coming. The child at school knows a test is set—he must make ready for it. The man at his bench knows the work must get done, and on time. *All life should help us face the coming verdict.* The wise person gets the better of it by setting his own judgment at the close of every day. Life is made up of years, of months, of days. Why wait for luck or chance which might make an escape possible? *YOU CAN'T BEAT THE VERDICT.* God will allow you to reap only what you have sown. You write your own verdict... *God announces it.* Go to church every Sunday. Confess your sins to God. Write a clean page. Keep the record clear. Then *the verdict will be well with your soul.*

GAC Collects $150 In Arthritis Drive

The Hilltop Girls' Athletic Club joined with the Mothers' Drive on Arthritis on Thursday, May 26, when they called on Hilltop residents for donations.

The Hilltop territory captain, Mrs. Loel Lamb, directed the GAC in its first community project. The girls collected $150 to be used for the benefit of those already afflicted with arthritis and to promote further study of the disease.

The next meeting will be held on Thursday, June 2, from 7:30 p. m. to 9:30 p. m. at the St. Mary Magdalene shelter house.

Who Goofed . . . Somebody Did

It seems pretty evident that somebody has goofed in the matter of the Salk anti-polio vaccine.

It certainly was not Dr. Salk. Rather it is the result of a lot of "noise" made surrounding the announcement of the apparent effectiveness of the serum.

The people on the Hilltop were highly keyed up for the momentous announcement several weeks ago. There was jubilation throughout the land—and rightly so. But now it seems that the enthusiasm was just a little premature.

The result has been that some parents on the Hilltop and across the nation are less sure today that they want their children to be inoculated with the Salk vaccine. One can hardly blame them, what with a lot of conflicting news via the press, radio and television.

This would be the time to hold all of the circus approach to the vaccine in favor of a sober approach based on fact not fancy.

Perhaps we can forget the hue and cry which surrounded the announcement a few weeks ago. Now that it has been cleared perhaps we can wait patiently for a definite announcement by the health office of the federal government as to how soon the mass inoculations will begin.

Let us hope that an okey will be given soon so that all of our youngsters can be protected before the 1956 polio season begins.

When that happens we ought to consider the task ahead in the proper light — a blessing for which the world has long waited.

Explains Everything

Idea: "I hear you've accepted him. Did he happen to mention that he'd proposed to me?"

Ina: "Not specifically. He did say that he'd done a lot of foolish things before he met me."

Nativism In Franklin County---1854 Style

By John C. Marsh

The American or Know Nothing Party, a natural outgrowth of the prejudice of native-born citizens against the foreign-born, made its appearance in Franklin County in the spring of 1854. Almost immediately the embers of nativism, which had glowed intermittently during the 1830's and 1840's, burst into flame.

Composed of descendants from at least two generations of American ancestors who had never been members of the Catholic faith, the secret, oath-bound fraternity pledged itself to preserve "America for the Americans," vote for none except native Americans, eliminate foreign influence from public affairs, and inaugurate an era of political reform.

The national order, maintaining state councils and local lodges, became very attractive to old line Whigs, who, caught in the political quicksands of the 1850's, sought to capitalize on the racial and religious prejudices of the native-born in the interest of offering united opposition to the Democratic party and diverting the public mind from the burning slavery issue.

Under the leadership of the Whig politicians the mysterious order, with a ritual, passwords and midnight meetings, spread like wildfire over Franklin County, scoring joint political success with the "Fusionists" in the state and congressional elections of 1854 and in the municipal elections of 1855. Paradoxically enough some German voters, realizing that they had been a pawn on the political chessboard and disregarding the admonitions of "Der Westbote", lent sympathy and moderate political support to the non-proscriptive portions of the party's platform.

But the new order, discredited by a clash between the Columbus German Turners and the nativists on July 4, 1855, declined rapidly under the impact of the slavery issue. Accordingly party members soon lost their identity in an anti-slavery fusion movement which resulted in the formation of the Republican party. The new anti-slavery party, however, hastened to assure the newcomers, usually anti-slavery in their thinking, that the new Republican organization retained none of the proscriptive tendencies of the now defunct political nativists. With the coming of the Civil War nativism vanished, temporarily, and the immigrants and the native-born marched shoulder to shoulder in a campaign for the preservation of the Union.

The Franklin County Historical Society will conduct its second summer bus tour to Lebanon and Fort Ancient, Saturday and Sunday, June 11 and 12. This will be a weekend tour and members will stay overnight at Lebanon's historical Golden Lamb Hotel.

The Franklin County Historical Society is joining the Warren County Historical Society in its ninth annual pilgrimage of 10 historical homesteads in and around Lebanon. Price of the Lebanon pilgrimage is $8. Reservations will be taken through June 8. Call CA. 4-5071 during the day or HU. 6-3238 and KI. 1037 evenings.

"Define the difference between 'results' and 'consequences'," read a question in a school examination paper.

The best answer came from a bright youngster, who wrote: "Results are what you expect, consequences are what you get."

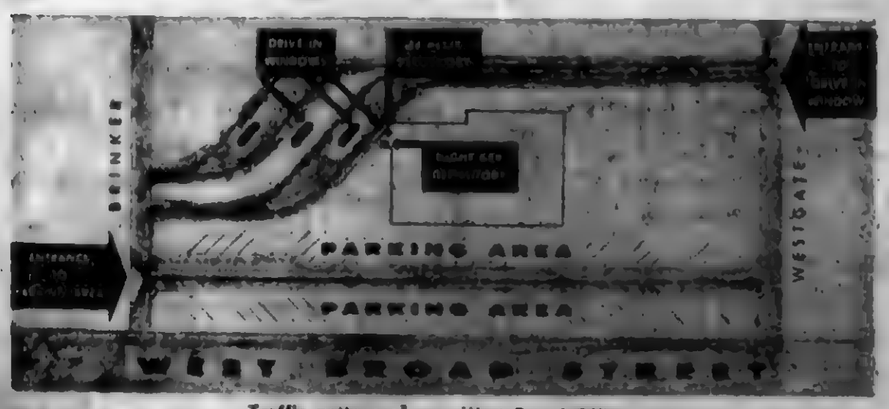
YOU'RE AN EXPERT IF YOU CAN TELL 'EM WITHOUT A 'SCORECARD'
An expert at a football game doesn't need a scorecard to identify the players. He can recognize them by certain characteristics and mannerisms. If you are not an expert, you can purchase a scorecard and tell who the athletes are by numbers. However, there are no "scorecards" available when you are in the process of purchasing carpeting. You must depend upon the integrity of the dealer and decide whether his reputation warrants the trust you must place in him.



That we have given true value for every dollar spent with us during the 20 years we have been in the rug and carpeting business exclusively is proved by the many customers who have returned to make additional purchases, or who have recommended us to others.

Who Goofed . . . Somebody Did

It seems pretty evident that somebody has goofed in the matter of the Salk anti-polio vaccine. .

It certainly was not Dr. Salk. Rather it is the result of a lot of "noise" made surrounding the announcement of the apparent effectiveness of the serum.

The people on the Hilltop were highly keyed up for the momentous announcement several weeks ago. There was jubilation throughout the land—and rightly so. But now it seems that the enthusiasm was just a little premature.

The result has been that some parents on the Hilltop and across the nation are less sure today that they want their children to be inoculated with the Salk vaccine. One can hardly blame them, what with a lot of conflicting news via the press, radio and television.

This would be the time to hold all of the circus approach to the vaccine in favor of a sober approach based on fact not fancy.

Perhaps we can forget the hue and cry which surrounded the announcement a few weeks ago. Now that it has been cleared perhaps we can wait patiently for a definite announcement by the health office of the federal government as to how soon the mass inoculations will begin.

Let us hope that an okey will be given soon so that all of our youngsters can be protected before the 1955 polio season begins.

When that happens we ought to consider the task ahead in the proper light — a blessing for which the world has long waited.

Nativism In Franklin County---1854 Style

By John O. Marsh

The American or Know Nothing Party, a natural outgrowth of the prejudice of native-born citizens against the foreign-born, made its appearance in Franklin County in the spring of 1854. Almost immediately the embers of nativism, which had glowed intermittently during the 1830's and 1840's, burst into flame.

Composed of descendants from at least two generations of American ancestors who had never been members of the Catholic faith, the secret, oath-bound fraternity pledged itself to preserve "America for the Americans," vote for none except native Americans, eliminate foreign influence from public affairs, and inaugurate an era of political reform.

The national order, maintaining state councils and local lodges, became very attractive to old line Whigs, who, caught in the political quicksands of the 1850's, sought to capitalize on the racial and religious prejudices of the native-born in the interest of offering united opposition to the Democratic party and diverting the public mind from the burning slavery issue.

Under the leadership of the Whig politicians the mysterious order, with a ritual, passwords and midnight meetings, spread like wildfire over Franklin County, scoring joint political success with the "Fusionists" in the state and congressional elections of 1854 and in the municipal elections of 1855. Paradoxically enough some German voters, realizing that they had been a pawn on the political chessboard and disregarding the admonitions of "Der Westbote", lent sympathy and moderate political support to the non-proscriptive portions of the party's platform.

But the new order, discredited by a clash between the Columbus German Turners and the nativists on July 4, 1858, declined rapidly under the impact of the slavery issue. Accordingly party members soon lost their identity in an anti-slavery fusion movement which resulted in the formation of the Republican party. The new anti-slavery party, however, hastened to assure the newcomers, usually anti-slavery in their thinking, that the new Republican organization retained none of the proscriptive tendencies of the new defunct political nativists. With the coming of the Civil War nativism vanished, temporarily, and the immigrants and the native-born marched shoulder to shoulder in a campaign for the preservation of the Union.

The Franklin County Historical Society will conduct its second summer bus tour to Lebanon and Fort Ancient, Saturday and Sunday, June 11 and 12. This will be a weekend tour and members will stay overnight at Lebanon's historical Golden Lamb Hotel.

The Franklin County Historical Society is joining the Warren County Historical Society in its ninth annual pilgrimage of 10 historical homesteads in and around Lebanon. Price of the Lebanon pilgrimage is $6. Reservations will be taken through June 8. Call CA. 4-6071 during the day or HU. 6-3238 and KI. 1037 evenings.

Glenwood Cops Intermediate Boys' Badminton Title

Glenwood Recreation Center produced two more champs in inter-center competition as Bill Quinn and Steve Fotherolf teamed up to win the intermediate boys' badminton doubles crown. The two boys had previously won the junior and intermediate singles titles.

Steve and Bill walloped Schiller Recreation Center 15-1 and 15-4 in their first match and then went on to defeat Beatty 15-1 and 15-12 in the finals. As the score shows, the first game of the Beatty match was hardly a contest, but Beatty bounced back in the second game to come close to defeating the champs. Glenwood led in this game 9-3 when Beatty came alive to go ahead 12-11. Here, however, Glenwood again found its stride and went on to win.

In the junior boys' division, Ronnie Ogden and Dave Thomas won their first match from Schiller, but were finally knocked out of the tournament by Beatty. Glenwood did not enter a senior boys' team.

Barbara Waldo and Ellen Lininger placed second in the junior girls' tourney, dropping the final match to Sunshine 15-12 and 15-13. Barbara and Ellen won their first match by forfeit from Schiller.

Rosemary Ryerson and Vicki Quinn were eliminated from the competition by Schiller 17-15 and 15-8.

Pat Riddle and Diane Schiller dropped their first game to Schiller 15-13, but came back to win the second 15-11. Schiller took the decisive game 18-17.

Little Jet League Knothole Teams Form At Glenwood

With the approach of summer vacation, Glenwood Recreation Center is starting to form its summer Little League teams and junior, intermediate, and senior knothole teams.

The age limit for Little League includes all boys eight through 12 years of age. Junior knothole teams are composed of boys eight through 12; intermediate, 14 and 15; senior, 16 through 18.

League play will probably start June 13, so all boys living in the vicinity of Glenwood and the Hilltop should register at once at the Center. This may be done in person or by calling Jack Roberts at Glenwood, Ra. 7416.

A SELF-MADE MAN WHO LOVES HIS MAKER!
Meaning, of course, an egotistical man who believes his success is entirely of his own making. Usually he is riding high for a great fall. It is seldom a man becomes a great man without the aid of others. The word "humility" is so rare nowadays that it has become precious.
A successful business or professional man really owes something to the community . . . yes . . . some of his time and talent, in addition to his money. And where could he do better than to give thoughtful consideration to the merits of the Hilltop Y.
Our program is in preparing boys of all ages, through inspiration and guidance under Christian influence, to take their place as the men of tomorrow.

cooperation. Only a hypocrite would go to the game half-heartedly and spiritless . . . sports are the basis of training for getting along in business and in life. Hull affirmed.

An athlete who is a smart alec in the classroom speaks poorly for his sport and his team mates, Hull said. "It indicates that the sportsman has learned nothing from the game."

Who is the first to know when the boys break training . . . the girls, Hull answered. Any girl with pride in her school and its teams should say to the boys when they break training, "if you must break training, get out of the game and the sport."

New Athletic Era

"Let's start a new era of athletes at West High School," Hull proposed. "The new era will give a new and better spirit to the team and to the school. It will help to gain respect in the community, the school and in the home for sports, for the school and for the team, he said.

Claire Barnard led the musical portion of the program. An invocation was given by Robert Darrow, principle. The "Professors of Harmony" Bob Baus, Bob Sutton, Danny Grant, and Bill Brannan sang several selections.

Eugene Pierce introduced toastmaster Arthur Miller. Free Tennis Instruction Now Offered At Glenwood Center

Beginning tennis classes are being organized and conducted at Glenwood Recreation Center now, and will continue throughout the summer. Intermediate and advanced instruction may also be arranged by contacting the Center, RA. 7416. Equipment and instruction will be furnished free of charge.

Tennis is probably the most popular individual sport played in playgrounds and parks throughout the country. It has grown in the United States from informal play in 1874 to National competition and the development of local and national tennis associations.

Tennis as we know it today evolved from a hand ball game centuries ago in Greece. In the Middle Ages, two opponents batted the ball between each other with their hands. The balls were leather and stuffed with hair. The court was shaped like an hourglass.

Later a glove was substituted for the bare hand, and still later a paddle which has developed into our modern racket.

The term "love" meaning "no score" was used as early as 1678 and originated from the phase "for love" meaning "for nothing."

Season Closes As West Jr. Loses To Franklin Jr. High

West Jr. High School closed out its 1955 City League baseball season last Tuesday afternoon on the home lot by dropping an extra inning (eight innings) 6-5 decision to Franklin Jr. High. Thus the locals ended with one win and four losses.

The losses were handed them by four of the top five teams in the circuit, while their one victory was over winless Barrett.

The winning run came in the top of the extra frame when the visiting hurler, Jim Brooks, blasted a long home run to centerfield with a mate aboard.

The locals counted once in their half and had the tieing and winning on base but could do no further scoring.

The defeat was again largely due to the Buckaroos' inability to get hits with man on base, as they left 11 players stranded during the last four innings and had but a total of six runs and 10 hits during their five league contests.

Their hurling staff of Larry Goodin and Dan Furry allowed but 19 runs, more than half of which were unearned.

After Four Years, Sidewalk Is Finally In

TWO MEN WHO SPEARHEADED a drive to bring about adequate sidewalk facilities at the Camp Chase Confederate Cemetery Michael H. Austin and Larry G. Scales, finally realized the fruit of their four years work last week with the celebration of completed construction on the walk and steps into the cemetery grounds. Ownership was never completely established since the original purchase was made in 1873. Thirty feet of the west end were not listed in the title. After the entire title was quieted sidewalk construction was able to go ahead. Shown left to right: the color guard with Vincent Welker, William H. Adams, Elmer Young and Roger Myers; Charles Weidner, Chet Wagner, John Wolfe, Harry Richter, chaplain; Charles Atkins, Ray McVey, post commander; and Austin, vice commander of the 12th District and Scales whose efforts brought about the new sidewalk.

Attention—Record Readers

Last month marked the beginning of a new system of delivery and collections for The Hilltop Record. Response during the first month was quite gratifying.

Your Record carried boy will be calling on you again starting about Friday for the month of June. He will ask all persons who are not at present paid-in-advance subscribers to pay him 20 cents per month for his service during the month of June.

Every boy will have a route book and printed receipts. Be sure he gives you a receipt.

If you are a paid-in-advance subscriber he will call on you when your present subscription expires. At that time he will appreciate having you pay him by the month. He is instructed not to take money for paid-in-advance subscriptions. If you insist on paying in advance please pay at the office, mail in your money or call JO. 9444 and a circulation department representative will pick up your payment.

By paying the carrier direct at the rate of 20 cents per month you will be helping the carrier earn more money and will be assisting in a training program that may go far in developing business men of the future. Every carrier receives a liberal percentage of his collections and wins extra prizes.

If you have suggestions as to how your carrier can improve your service just tell him when he calls on you this month. If you like his service and enjoy reading the Record he will appreciate having you pay him 20 cents per month. Get behind your carrier boy and help him win an extra award this month.

Kiwanis Scholarship Winners Reveal Their Success Stories

The Hilltop Kiwanis Club has been awarding scholarships to graduates of West High School since 1948 in recognition of their achievements in school.

Winners fall into many categories: Nurse, architect, secretary, medical student, statistician, Annapolis appointee, student, teacher, student nurse, pharmacy student, dental hygiene student, draftsman, honor student, and student in political science.

First Award 1948

Scholarship winners in 1948 included Barbara Clarkin and James Slager. Miss Clarkin graduated in nursing from Ohio State University in 1953. She taught nursing at Baylor University and married a doctor of medicine who had just been discharged from service. They are now looking for a location.

Slager graduated from the College of Architecture at OSU in 1953. For his thesis he drew up the plans for the Hilltop YMCA for which he received an excellent rating by the thesis reviewing faculty. He is the head of the department of architecture at Wright-Patterson Air Force base.

In 1949 the two winners were Ruth Laymon and Dick Lamprecht. Miss Laymon started her college work at OSU and later transferred to Bliss College to graduate in 1951. She worked for the State of Ohio for one year and then went to Washington, D. C. where she was a secretary to a Navy chaplain for two years. Forced to return home on account of her mother's ill health, she is now working at Lazarus.

Lamprecht completed his college work at OSU and graduated in 1953. He entered medical college and is completing his second year.

Will Slice Recreation Activities

Vigorous opposition to any reduction of services of the city at this time was voiced by the executive committee of the Hilltop Business Association in a meeting Monday noon at the Colony Restaurant.

The resolution, a copy of which will be sent to the mayor and city council, came following a report by Philip V. Stout, member of the city recreation commission.

Stout outlined facts which pointed out that with cuts in the appropriations as made necessary by the recent slicing of the budgit by council, it could result in nothing less than about 35 percent in playground and recreation department activities the remainder of this year.

"This is about the same as setting the recreation department back ten years," he explained. Stout further pointed out that the standards of the recreation department can not help but be lowered through this cut and in addition to elimination of the summer Indian Village activities playgrounds will have more supervisors who will not have time to conduct a pro-

Other members of the board expressed the opinion that with recent annexations of wide territories to the city this was a time when the council should be more concerned about the addition of services rather than decreasing city services.

Hilltopper O'Conner Named Battalion Fire Chief

New District 70 Battalion Fire Chief J. C. O'Conner

Retired Fire Chief Clarence Grubb

After serving 23 years with the Columbus Fire Department the retirement of Clarence Grubb was announced June 1 by Leo L. Phillips, safety director. J. C. O'Conner has been named 5th District Battalion fire chief out of Station 10 at Glenwood and W. Broad-st.

Grubb, 48, formerly lived at 311 Cypress-av for 40 years, but now owns a house trailer at 201 Wilson-rd. An old West Sider, Grubb said that he and his wife plan to tour the United States to see everything, everywhere, in their 35 foot trailer.

"My wife Maybell is just as anxious as I am to get into our traveling trailer and see the country-side," said the retired chief.

Department Grown Over Years

There are 175 more employees in the fire department than when I joined the force in 1930, Grubb stated. He was appointed fire lieutenant in 1943, captain in 1946 and battalion chief in 1953. In all that time only one more engine house has been added, he said. More houses were built, the former chief mused, but as soon as better houses were built to handle the force the older buildings were torn down.

There were 18 pump houses when Grubb joined the force, but today there are 20, he pointed out.

Their West Side home is now being occupied by Grubb's daughter, he said. He proudly added that he has a two-year-old granddaughter.

Long in the memory of the former chief are the many lives which he has done his part in saving during his service on the emergency squad. "It is a very gratifying service," Grubb asserted. Grubb served on the squad for two and one-half years and estimates in the 175 runs each month that perhaps eight babies a month were delivered enroute and a total of 25 babies were born during his service.

CAA Recommends Refusing Sullivant Avenue Airstrip

A recent offer by Gomer Jones of the Sullivant Avenue Airport was refused by the Civil Aeronautics Administration according to a letter read to the city council from that agency. It had been proposed that the city purchase the airport and use it as a feeder field.

A further recommendation made to the council was a feeder airfield in the north or northwest quadrant of the city.

Jones pointed out in an interview with the Record that the Sullivant-av field would be very valuable to the city not so much as a major airfield where commercial liners would land, this would be impractical, but rather for executive type planes.

All three strips in the city outside of Port Columbus are sorely needed, Jones stated. They are close enough to the city to be of immediate service to businessmen who keep light planes at the strip for business trips.

If for any reason the city decided to end the lives of these landing fields close in to the city after their owners had spent 20 years acquiring and developing them, it would not be long before their real value would be realized . . . then it would be too late.

Perimeter airstrips are needed in Columbus, Jones insisted, the type that can serve executive type ships . . . not air lines.

It's Cold Even In Summer In Greenland

It is not enough that William R. Farrand lives on the Hilltop at 2438 Steele-av, but now he is leaving on June 11 for Greenland to make detailed investigations of the glaciers about 1600 miles south of the North Pole. He is a graduate student at OSU. Another man, a former Hilltopper, Prof. John M. Wolfe will also be a member of the expedition. Farrand, on the right, points out how far his trip will take the group from Columbus, to Herbert L. Bierlee, editor of Hilltop Record. Staff photo

Hilltopper Going Near Top Of The World To Study Glaciers

"I'm going to Greenland to study melting glaciers," said William R. Farrand, 2438 Steele-av, OSU graduate student.

Nine men will bear the cold of the Arctic Circle until late in August to study an ice cliff 40 miles north of Thule Air Force Base in Greenland, in an expedition from Ohio State University.

Students and Faculty

Students and faculty will form the corps of scientists who will study the great Greenland Ice Cap for the Army Corps of Engineers. Led by Prof. Richard Goldthwait of the university's geology department and Prof. John M. Wolfe, a former Hilltopper of the department of botany and plant pathology department, the group leaves Saturday, June 11.

The region to be explored will have continuous daylight during the two and one-half months in which the ice research will be under way. Thule is on the northwest coast of Greenland, about 700 miles north of the Arctic Circle and about 1,000 miles from the North Pole.

Objective of the work is to determine why the Greenland glaciers which are similar to the one that long ago covered Ohio, form ice cliffs as much as 150 feet high along some of the ice margins. The work is part of a general scientific program sponsored by the Snow, Ice and Permafrost Research Establishment of the Corps of Engineers.

Knowledge of how the glacier ice moves, rate of advance and retreat of its edge, and the nature, structure and temperature of the ice all must be known before any engineering or military operation can be undertaken.

During the past month much equipment has been constructed especially for the study so that the Ohio State men can raise and lower themselves on the face of the high ice cliffs or can drop down into crevasses in the glacier, where they will set up instruments to measure motion and melting of the ice. Farrand, will be handling many of these experiments. Most of the equipment already is en route.

A variety of individual studies will be undertaken on the ice cap, which the party will reach from Thule by helicopter. The group plans to set up complete weather stations and Farrand will measure the amount of stream flow due to "melt water" coming off the edge of the glacier during the summer.

During the "hot" months, Farrand stated, temperatures in the region run from 40 to 60 degrees during the noonday hours and fall to the middle or low 30's just after midnight, when the sun is low in the sky.

The deposits which the glacier has made recently will be the subject for a special study to determine how fast the ice edge is advancing or retreating across the land. As a result of work during previous summers, Dr. Goldthwait is "reasonably sure" that the main Greenland Ice Cap is retreating generally throughout the area, because more land is exposed each year. But at the very edge of the cliffs to be studied this summer, it appears that the glacier may be advancing, he said. The expedition will try to establish these facts.

AT THE LIBRARY

Drawings, Prints, Watercolors On Display At Local Library

A group of 25 drawings, prints, collages and watercolors by David Black, 251 W. Norwich-av, is being shown at the Hilltop Branch Library, 2958 W. Broad-st, through June 30.

Black, an instructor in design at the school of fine and applied arts, Ohio State University, is a native of Gloucester, Mass. He received his A.B. degree at Wesleyan University, Mid'letown, Conn., and later taught art at the Putney School a private school in Vermont. After serving with the army as a training aids designer, he received his M. A. Degree from Indiana University, department of fine arts. Black has worked in ceramics and photography, as well as painting at the Addison Gallery of American Art, Andover, Mass., and the Gibbs Gallery, Charleston, S. C. He has also been awarded first prize in the All-Army and the Big-Ten Universities Contest for photography. Last season he was awarded the Louisville Art Association first prize for ceramics and recently won the Bagga Memorial prize for ceramics at the Columbus Art League Exhibition. The current show at the Hilltop Branch Library includes mostly work done within the past winter here in Columbus.

Historical novels head the list of new books at the Hilltop Branch Library. Reminiscent of Baroness Orczy's "Scarlet Pimpernal" is "Captain Cut-Throat" by John D. Carr. Pictured are a few tense days when Napoleon's army was poised to invade England, while English and French spies matched wits in a game of intrigue and terror.

"My Lord Essex," by Olive Eckerson is a novel about one of the most powerful and curious romances of all history, Queen Elizabeth I and Robert Devereaux, Earl of Essex.

"Bride of New Orleans," by Edward F. Murphy, is a romantic novel built upon the custom in early American history, of bringing to the new world ship loads of young women who were eager to marry and settle down in the new world.

Mildred Walker has also written a novel with rich historical setting. "The Curlew's Cry," develops the rapid growth of a Montana town from pioneer days to the era of cattle ranching in recent times.

A new biography of President Eisenhower has just been published. Merriman Smith, the author, writes, "This is the story of what happened to General Eisenhower when he became a mister. It is not an analysis of his political beliefs or an appraisal of his conduct of government, but an attempt at a human picture of his way of life as president. Appropriately the book is titled "Meet Mister Eisenhower."

"The Captain Leaves His Ship" is the dramatic story of Jan Ciriklinski as master of the Polish Motorship Batory, and of the political forces that changed his life.

Darrow Seeks Passage

Robert Darrow, principal at West indicated that the bill against high school fraternities-sororities has to go through.

"It will be a help to parents, students and schools. People can not work out the heartaches and problems caused on their own. How are these groups democratic?" Darrow asked. "Well, let's take a look at an organization that is democratic, a football team for example, they select their members by judging who is able . . . this is a democratic procedure," Darrow asserted. This is how all social organizations should form and act, he indicated.

West Is Clean In General Assembly Tiff

A hot battle is going on, but West High School is clean of any default, according to former principal, Irvin F. Young, as he spoke before the general assembly State Education Committee recently.

The complexion of many schools is showing in the senate hearings on fraternity-sorority organizations in Columbus schools.

"There is something wrong with the underlying philosophy in sororities and fraternities," Young stated before the hearing members. "They are socially diversive and undemocratic." He highlighted the elements of the recreation program and extra curricular activities at West that take the place of fraternities-sororities.

West Has None

West has never had fraternities or sororities or problems associated with them because the school has such a great variety of types of organizations, Young pointed out.

There are at least 35 clubs outside of the athletic organizations in the school, he said. In one year out of 3,400 enrollment, 2,000 students were listed in club memberships. Some of the organizations active in the school are socialites club, future teachers of America, homemakers club, debate club,

Girl Has Narrow Escape

A safety measure, adopted just this year at Mount Air Swimming Pool, 8220 River-rd, is credited for saving the life of a 12-year-old Hilltop girl Saturday afternoon.

Betty Lou Williams, daughter of Mr. and Mrs. Arnold Williams, 633 Wrexham-av, was discovered unconscious in seven feet of water by lifeguards at the pool during a routine five-minute "safety break," when the pool was cleared of swimmers.

Guards Jerry Hemendinger and Bill Wall, student instructors from Ohio State University brought her in and used artificial respiration for several minutes before she began to breathe. The Worthington emergency squad administered oxygen to the girl on the way to University hospital.

Betty Lou had gone to the pool on a Sunday School picnic.

Hilltop Bank Debut To Be Held Soon

Soon to make its debut as the newest member of the Hilltop business community is the West Broad office of the City National Bank which will be located in a fine new structure at 3100 W. Broad-st, reported Roy Von Ins, assistant cashier, officer in charge.

Designed for service, this modern banking establishment will have three drive-in windows for motorists as well as complete interior banking facilities including 24-hour depository service.

Most important to those who like to patronize their neighbors is the fact that this new office, will, with one exception, be completely staffed with Hilltop residents. Furthermore, it is planning to provide facilities for community service that will soon win it many friends in this area.

Operation of the West Broad office of the City National Bank will reflect the experience gained by the firm's officials in years of serving the needs of Columbus from its central locations downtown and its other offices on the Olentangy River-rd.

Meeting every financial requirement of its patrons, the new office will be equipped to handle savings and checking accounts, safe deposit boxes, and to service installment loans as well as loans.

Service will be the theme of this new operation. In addition to providing drive-in windows, ample parking space is also being provided for those having business that must be transacted inside.

Under the bank's method of operation, patrons may make their deposits in any one of the four City National offices, and direct line communication assures rapid and orderly coordination of their accounts.

While all depositors will have their funds protected by Federal Deposit Insurance, every possible physical safeguard is also being employed to guarantee maximum security, Von Ins said.

Drive-in windows are made of bullet proof glass much thicker than is normally used, while the vault is guarded by the most modern door available for this purpose. Operated by an electric hydraulic system, it weighs five tons and is the first of its kind ever used in Central Ohio.

But City National's officials, being aware of the fact that personal service and confidence is a prerequisite in financial matters, have also give a great deal of care to the selection and training of those who will serve Hilltop residents.

City National has every intention of becoming a good neighbor in the Hilltop area, which makes it a welcome addition to the west side of the city, Von Ins added.

Auto Safety Program Set

Members of the Hilltop Safety Conference this week have enlarged their field of operation to the entire city of Columbus and have formed the Columbus Auto Safety Check Facility.

Use of the driveway behind the Health and Safety Center for month-long testing of cars has been authorized by Dr. Ollie M. Goodloe.

The drive through the city center's parking lot will be used from June 15 through July 15 for voluntary checks of 10 points on cars, according to plans drafted by the organization. Their program is in accord with the national vehicular checks, said Municipal Court Judge Fred Donnley.

Autos entering the checking center from Bell-st will be examined for condition of brakes, lights, tires, steering, exhaust systems, windshield wipers, glass and horn. They will leave by way of Washington-blvd.

A second of five lots will be at 1515 Sullivant-av as a check point.

Straight Ahead
Opportunity knocks. God is calling. Their eyes are on the future and their ears attuned to the marvelous workings of His great universe. They are the new Adam and Eve; here the race gets a fresh start. *The family, the state, the church will be determined by the "Straight Ahead" way they go.* Our hope is here.
Love and faith conquer the world. Earth and sea, and sky do their bidding as they go forward to possess the earth. Clean of blood, alert of mind, and warm of heart, they "press onward to the mark of the high calling which is in Christ Jesus." *They learned in church that they would need the Shepherd's staff when they pass through the valley of the shadow.* They know that a profound trust in Almighty God will deliver them to the port of entry to the Kingdom of God, as they march determinedly "Straight Ahead."
You In The Church... The Church In You
Form a consideration for good. We should make church regularly. Every man, woman and child needs the influence of the CHURCH. Be faithful. Be a Churchman!

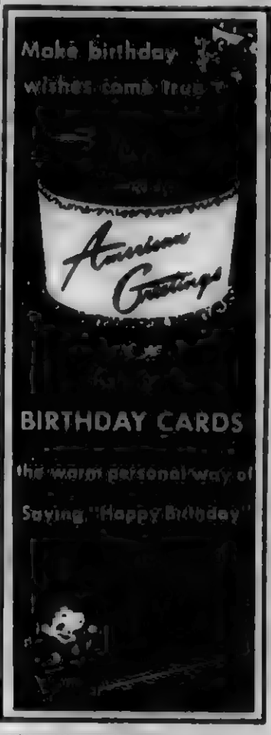
West High Nine Breaks Even

West High School's baseball squad neared the end of its 1965 season as the team broke even in its two league contests.

On Wednesday, May 26, the South High Bulldogs still in the thick of the City League title race, clobbered the Cowboys by an 11-0 count as their ace moundsman, Bill Wardel, allowed but four safeties, while John Otte, the league's leading batsman, had a perfect four for four at the plate.

Friday, May 28, the Cowboys put on their best offensive display of the season as they repeated one of their first-round victories by subduing East by a 12-4 count.

The relief twirling of George Watkins was particularly impressive as he allowed but two hits over the last five and two-thirds innings, to notch up his third win pe against one loss.



Karl Davis led the Cowboys' attack with three for four. Bob Courtney and Ray Williams also connected for home runs.

The Truman Memorial Library, at Independence, Mo., will cost an estimated $1,750,000 when completed. It will house the former president's official papers and memorabilia.

Congratulations Miss Bachmayer

A long stride forward in public education is the program started last year to promote and finance projects of research, study and travel, by Columbus public school teachers. A fund made available by an anonymous donor, has financed ten grants of $500 each to teacher applicants on the basis of their teaching performance and proposed project.

With the thought that "students are but lengthened shadows of their teachers," in mind, any plan designed to help promote teachers' professional growth, is beneficial to Columbus youngsters.

Miss Ruth Bachmayer, vice-principal of West High School, has been chosen on the basis of her plan to "promote world understanding, closer liasion between schools and the public and deeper appreciation of U.S. citizenship." She will leave on June 16 and travel to 16 cities in Europe, Asia and Africa and upon her return, will lecture to PTA's, women's clubs and church organizations describing the contrasts between living abroad and our American way of life.

We have long felt that the teachers in our Hilltop schools are unsurpassed anywhere, and we are happy indeed to congratulate Miss Bachmayer, as representative of the group.

You can help yourself to longer life if you obey traffic regulations without waiting for a patrolman to catch you.

Almost 400 Girl Scouts From Hilltop, West Franklin Co. To Attend Darby Day Camp

The beautiful wooded hills of Camp Darby, day camp site of the Girl Scouts of Columbus and Franklin County, will resound to the happy shouts of some 390 Girl Scouts from the Hilltop and West Franklin County during two weeks this summer.

Some of the shouts may be Indian war whoops as the theme for this year's day camp is Indian and pioneer life and culture.

The day camp site is located at the western end of Alkire-rd just before one enters Georgesville. It may also be reached by turning south onto Koebel-Suydam-rd from W. Broad-st and traveling south to Alkire-rd, where a right turn is made.

The site is now being readied for the summer season. Mrs. Dwight Barrett, 138 S. Wheatland-av, site chairman, has been assisted by a crew of boys from Boys Trade School in setting up tents, and installing heavy equipment. Many Hilltop and West Franklin County leaders have also been lending a hand at getting the camp into shape for the season. Equipment is being put up in a different location from that in the past, thus making it practically a new camp.

District 10 Day Camp

One hundred and forty-five Girl Scouts and Brownies of District 10 are signed up for their camp session, June 23 and 24, and June 27 through 30.

District 10 includes Girl Scouts and Brownies in troops from the West Side, Hilltop north of West Broad-st, New Rome, Hilliards, and part of the Dublin area.

Mrs. Dwight Barrett, Sr., 138 S. Wheatland-av, is site director of District 10 day camp. Her assistant is Mrs. Vito Cuppoli, 1341 Sullivant-av. Business manager of the session is Mrs. Haskel Fraley, 159 Wisconsin-av. The nurse has not been chosen as yet. The names of senior program aides will be announced at a later date.

District 8 Day Camp

Two hundred and forty-five Girl Scouts and Brownies from District 8 are registered for their day camp session, which will take place July 7 and 8 and July 11 through 14.

District 8 includes Girl Scouts and Brownies from troops in Wilson School, Grove City, Salem, Harrisburg, John Burroughs, W. Mound Street, Greenlawn, and Sullivant Gardens.

Mrs. E. W. Allman, 3760 Big Run-rd, is site director for District 8's camp. Assistant site director is Mrs. Harold Mueller, of Grove City. Also of Grove City is the camp nurse, Mrs. Olen Rumfield. Mrs. Campbell S. Warren, 1443 S. Wayne-av is business manager.

Mrs. George Englerth is the coordinator sent by the downtown Scout office.

Ten Senior Girl Scouts who have completed Program Aide training will aid camp unit leaders at the request of the leaders. They are as follows: Donna Green, Joellen Fagan, Marilane Holton, Evelyn Gay, Sue Robertson, Orella Jean Gatwood, Theresa Boggs, Karen Grimm, Donna Long, and Marian Thompson. The girls will have their own "camp home," or unit, where they will carry on their own program when they are not assisting other units.

Girls are transported to day camp by special buses rented from Grove City school bus operators.

The camp hours are 9 a. m. to 3 p. m.

A blanket $1000 accident insurance policy covers each camper for treatment of such injuries as poison ivy, cuts, blisters, abrasions and burns.

Conservation Club Elects New Officers

The Hilltop Conservation Club recently elected the following men as officers and trustees for the following year:

George Miser, 843 Wedgewood-dr president; C. M. Smith, 254 S. Westgate-av, 1st vice president; William Merideth, 122 W. Park-av, 2nd vice president; C. M. Price, 162 N. Roys-av, secretary-treasurer; Paul Royer, 311 Pasadena-av, New Rome, safety director; Gilbert Miller, 2680 Bernadette-rd, and Denton Hersha, 1256 Republic-av, as three year trustees; A. R. Johnson, 890 S. Champion-av, and W. E. Handley, 633 S. Warren-av, as two year trustees; and Karl Blackburn, 266 S. Warren-av, and E. L. Close, 116 N. Oakley-av, as one year trustees.

In the May meeting the members decided to discontinue the usual trap shoots during the summer months. The shoots will be resumed on Sunday, Sept 18.

Volley Of Shot Fired For Civil War Dead Here

Volleys were fired Sunday, June 5 to honor the Civil War dead. Members of the Camp Chase Post 98 of the American Legion and the United Daughters of the Confederacy said prayers and read a poem over the graves of those who died in the prison camp.

The Confederate Memorial Day services were given in tribute to the men and women of the camp with a benediction given by Michael H. Austin, post vice commander. Sounding of taps concluded the service.

West End City League Season In Fifth Place

By Woody Owen

West High School Baseball nine completed its city league season last Wednesday afternoon on the home diamond by nosing out Linden McKinley by a three to two score putting them in fifth place.

Junior mound ace George Watkins recorded his fourth victory as against one loss as he scattered eight hits to beat the Panthers ace, Al Garey.

The latter allowed but five safties but his own wildness presented the cowboys with the victory.

In the bottom half of the final frame an error followed by a hit batsman and two bases on balls gave the locals their winning margin.

Karl Davis, cowboys all-city outer gardner for the second consecutive season garnered three of the Cowboys five safties and finished the season with a 422 batting average.

Gary Clark of the Panthers also acquired three safeties.

The Cowboys finished in fifth place in league competition with a five win, 7 loss record.

Park Budget Slim, Hilltop Y's Men Told

A talk on the Blacklick Woods and other county parks being run on a slim budget was given by Walter Tucker of the Ohio Metropolitan Parks to the Hilltop Y's Men on Tuesday, June 7.

Tucker showed slides on the wooded park and pointed out the merits of parks and the tremendous use made of these parks by residents of Columbus.

Less than 50 percent of the Hilltop voters favored increasing the budget of the county park system in the last two elections held on the levy, Tucker pointed out. "Yet with the increasing population of Columbus, notably the Hilltop, the need is increasing daily for better, bigger and more complete parks in the county," Tucker insisted.

The park spokesman asked members of the Y's Men to help in spreading the true story of the need for Franklin County Parks and how necessary adequate funds are to meet the increasing need for parks throughout the entire state.

On Tuesday, June 14 Joseph Carr, attorney, will speak to the club on the "Importance Of Making A Will."

These shirts will be furnished through the courtesy of the Hilltop Lions and Kiwanis Clubs, and will be worn during all league games.

League play will start June 27 with a round robin playing schedule being used. Each team will play two games each week, thus making possible two complete rounds before the city-wide playoff around Aug. 8.

It is to be emphasized that the Little Jet League is a program designed to teach youngsters how to play baseball. Every eligible boy will have an opportunity to participate in every game that his team plays.

The practice schedule that the teams will follow until league play starts is: Mondays at 6 p. m., Indians; Tuesdays at 6 p. m., Dodgers; Wednesdays at 6 p. m., Sabers; Thursdays at 6 p. m., Eagles; Fridays at 6 p. m., Yankees. The Cowboys practice on another field.

New Ranch Home Features Spaciousness And A Modern Dream Kitchen

Home Of The Week

THE MORGAN MURPHY HOME at 190 Pasadena-av, New Rome, is an attractive example of contemporary ranch-style design. Stained wood shingles in a soft gray contrast with ledge rock blocks of lighter gray Indiana limestone, forming an exterior both sturdy and practical. The roof is various shades of green and cream. The deeply recessed doorway gives protection from the elements for visitors waiting on the doorstep.

THE VISITOR to the Murphy home is impressed by the spaciousness of the living room. The long unbroken sweep of cool green walls complements the fireplace and adjoining wall of random-sized limestone ledge block. The stone wall is interestingly punctuated by small projections holding decorative sculpture. Flowered draperies add warmth and color. It is a room designed for comfortable and gracious living where visitors feel most welcome.

Murphys Happy in New House in Rome

By Elsie Ireland Weaver

Morgan Murphy and his family are just beginning to feel "at home" in their new house at 190 Pasadena-av in New Rome. Seven weeks ago they moved into the long ranch-style house which is of gray shingle and Indiana limestone construction with a roof of shades of green and cream.

Residents of the Hilltop from 1938 to 1949, the Murphys owned a filling station at the corner of Westgate-av and Broad-st. They formerly lived at 233 S. Huron-av. Murphy has operated the Murphy IGA Food Market, 3270 W. Broad-st in New Rome, for the past six years.

Visitors Welcomed

Visitors are welcomed at a deeply recessed front door, protected from snows and rain, or cheered by flowers blooming beside the door in a waist-high planter of ledge rock, according to the weather.

Stepping into the entrance hall one is impressed by the spaciousness of entrance hall and L-shaped living room. Walls of pale green give cool dignity to these rooms.

Dominating the living room is the 11-foot fireplace and adjoining wall of the same gray random-width Indiana limestone used on the exterior. There is a raised hearth of flagstone. A gas jet installed in the fireplace assures the Murphys of a good start for a roaring fire for cozy winter evenings at home.

Contrasting with the gray carpeting of neutral all-over pattern are the wine-colored kid mohair sofa and chair. Flanking the fireplace are a pair of occasional chairs covered in chartreuse plastic. Other chairs are upholstered in flower patterned tapestry cloth.

Draperies at the wide picture windows at the front and rear of the living room are fashioned of flowered material with shades of red and rose and green foliage predominate on a white background.

Recessed Lighting

Windows in the living room, as all over the house, have aluminum frames and marble sills. Small casement windows open at each end of the large center pane which presents an uninterrupted view of the lovely lawn. Fluorescent bar lights are hidden by wooden valances painted to match the walls.

Around the corner from the fireplace and main part of the living room is what Mrs. Murphy calls the "music alcove" and "the place for those who wish to read undisturbed by the television set," which is opposite the fireplace. Here is the light mahogany spinet piano which Jeannie, 11, and Judy, 18, play.

The first room down the hall from the living room is the house's main bathroom. The walls are of Nile green ceramic tile trimmed at shoulder height with two bands of ivy green tile. The walls above are painted in sweet pea pink.

The lavatory bowl is recessed in an attractive green built-in vanity table with formica top in the "Skylark" pattern on cream background. The three-by-five foot mirror above the vanity is softly lighted by a long frosted glass light fixture. Dark green draperies with white dots and green linoleum floor with touches of yellow complete the bath color scheme.

Three bedrooms with a wealth of roomy walk-in closets with sliding doors are the pride and joy of Mrs. Murphy.

One bedroom has pale blue walls, dark mahogany twin beds with yellow and white chenille bedspreads. The yellow and white is picked up in the draperies with touches of blue and black added.

A second bedroom is in Early Colonial style, with maple furniture and quilted bedspreads.

Tommy Murphy, age 9, has his own room with bright draperies and boyish appointments.

A Dream Kitchen

Opening off the living room and front entrance hall, the kitchen of the Murphy home is an example of the answer to every housewife's fondest dream. Cheerful yellow walls greet one upon entering the room. Your eyes are arrested and held by the long rows of kitchen cabinets of birch with doors of contrasting grain pattern, all finished in a rosy-tan shade, as unusual as it is attractive.

Drawing forth ohs and ahs of admiration are the thermador electric table-top range and electric oven recessed in the cabinet space on opposite sides of the kitchen.

Cabinet tops are covered in rose-beige color formica in a linen-like pattern. Lemon yellow plastic tile has been installed on the walls of the working area of the kitchen.

The dining area in the kitchen is brightened by red-topped tables, and chairs with red seat covers. Draperies here at the picture window and at the window over the sink have a white background and stylized figure in red, brown, yellow and chartreuse.

The linoleum repeats the reds and browns of cabinets and furniture on a creamy background.

Multi-Purpose Room

Off the kitchen is a multi-purpose room used by Mrs. Murphy as the laundry, by the children as a rumpus room. It will even double as a guest room on occasions as it has in it a comfortable studio couch and is close to the half-bath in a short hall connecting the kitchen and front entrance hall. Wall tile here is in "desert sand" trimmed in brown. Cabinets with plywood doors are used for laundry supplies and storage. A tiny cement porch opens off this room at grade level.

Baseboard registers throughout the house are inconspicuously placed. They distribute heat from a gas-fired hot-water heating system.

Woodwork everywhere in the house except in the kitchen and baths is done in Philippine mahogany, which Murphy finished himself under the direction of the builder.

THE COLORS IN THE KITCHEN are warm yellows, red, cream and rosy tan. They give a feeling of warmth and coolness not usually found in modern home kitchens. Appointments are strictly up-to-the-minute here. Notice the table-top electric range unit on the left and the recessed electric wall oven on the right.

THE BUILT-IN VANITY and large mirror are conveniently placed in the bathroom which has the unusual and effective color scheme of shades of green and sweet pea pink.

Ideas For Home Decoration

A davenport and chair in our small living room are covered in the new mocha shade with brown trim. What color should I paint the room walls, and what colors would you suggest for another chair and draperies? T. H. G.

I suggest turquoise for the walls, salmon pink for the additional chair, and for draperies a pattern in pink, brown and turquoise on a beige background.

• • •

Walls of our bedroom are pink and the rug and draperies are blue. What would you choose for bedspread and vanity skirt for this room? C. M.

Chintz with a rose pattern on a white background would be nice.

• • •

I plan to refinish my living room in different shades of green. The sofa and chair are slip-covered in a solid medium green. I am planning to paint the walls light green and the woodwork white. Should I paint the ceiling the same color as the walls or should I paint it white? I thought of using a light green flowered material for the extra chair covey and the draperies. Would this be too much green or should I use another color? H. K. T.

Using a contrasting color for the draperies and extra chair slip cover would give the room more interest. I suggest a floral pattern on a bright flame background.

• • •

The lower walls of my kitchen are blue tile and the linoleum is red, black and cream marbleized. The cabinets, woodwork, sink, refrigerator and stove are all white and the chrome dinette set has red leather upholstery. I would like a suggestion as to what color to paint the upper walls, ceiling and woodwork. The upper walls and ceiling are now painted yellow but I am rather tired of it. L. G.

The floor covering in a boy's room is a nursery pattern linoleum with tan, rose and blue in it. The lower part of the walls is painted deep blue and the upper part is papered with a cowboy pattern with almost every color on a tan background. I would like suggestions for the bedspread and draperies. A. G. L.

served as battalion head of the north district. Now with the new appointment O'Conner will be closer to his Hilltop home at 32 S. Ogden-av where he and his wife and two children have lived for the past 19 years.

There are 80 men under Chief O'Conner's command in the west district stations.

O'Conner joined the department in 1935 and was made chief in 1952. He previously served as lieutenant on the emergency squad for five years.

The most memorable fire which O'Conner recalls is the High-Long fire in 1937 which completely burned out one-half block and seven buildings and did several million dollars damage.

O'Conner has two children, Charles, 23, now in the navy and married with one daughter, and Richard, 13, a student at West Junior High School.

Deshler Talks—

spoke on "How to Get Along in Politics."

A second orientation session began Wednesday, June 8. Groups of boys including five West High Juniors visited the Columbus City Hall and the courthouse, so as to acquaint themselves first-hand with offices they might aspire to in the mythical "state" at Camp Perry on Lake Erie.

The 1955 "state"—official hopefuls will go to Camp Perry by bus, leaving Memorial Hall at 9:30 a.m. Friday, June 10.

The West High School Boys State representatives are William H. Botkin, Brian W. Lewie, Lew Robert Neer, David M. Parker, and Howard D. Wray.

CHURCH OFFICERS NAMED

St. Paul's Enlargement Program To Meet Congregational Needs

St. Paul Evangelical Congregational Church

The members of St. Paul's Evangelical Congregational Church, 22 S. Warren-av, voted Wednesday evening to utilize the entire property for Church and Sunday School purposes. Since 1910 the parsonage has been part of the building.

The church was designed by the Rev. H. D. Schultz in order that this change might be effected when the congregation deemed it wise. The Board of Trustees was authorized to purchase a new parsonage and the enlargement program will make it possible for the church to accomodate 350 to 400 Sunday School students.

George Morrison, 653 Racine-av, was elected to the Board of Trustees for a term of five years. Completing the board are: Jesse Calvert, 650 Racine-av, chairman; Glen A. Moran, church treasurer; D. F. Baker and Harry Keller.

Leo Chesser, 678 S. Richardson, is chairman of the Board of Stewards. Other members of the Board include: Bliss Brown, Mrs. George Morrison, Mrs. B. G. Richardson and W. K. Vance.

Mrs. Edna Wolfe was selected pianist for the mid-week services and Lois Ann Moran will serve as assistant pianist. Robert Chesser was chosen as chief usher. Mrs. Harry Keller named secretary of the congregation and reporter to the church paper.

Mrs. John Graham, 317 S. Warren-av, will represent the congregation at the annual conference June 15 through 19, at Akron. The Rev. Paul D. Dunn will attend as a ministerial delegate. At the close of the conference, new assignments will be read by Bishop John A. Smith of Allentown, Pa.

New Hilltop Traffic Light Scheduled

One new traffic light is scheduled to be erected in W. Broad-st, on the Hilltop and another will be moved in the very near future following a decision of the Columbus Traffic Commission Tuesday afternoon, according to E. O. Melvin, Hilltop representative of the group.

This move is being made to ease traffic into Broad-st, from side streets following the recent inauguration of one-way streets.

A new traffic light is scheduled to be erected in Broad-st, at Richardson-av and the one now in operation at Warren and Broad will be relocated at Ogden and Broad.

The commission also voted to remove all parking on the west side of S. Powell-av from Broad to Wicklow. This will alleviate traffic problems in the vicinity of West High School.

They also voted to remove all parking from both sides of the street on N. Brinker-av and N. Westgate-av, north from Broad to the first alley. This will make entrance and exit to the new City National Bank easier.

The matters pertaining to parking will be presented for legislation by city council and will be put into effect when the department erects the necessary signs.

Hilltoppers Protest Removal Of Warren-av Traffic Signal

A FR.END IN NEED . . . Rainy weather proved to be little hindrance to Hilltop Record carriers. Last Wednesday Ronnie Groom, a son of Mr. and Mrs. Harley Groom, of 39 N. Chase-av, was caught in a down pour.

Before Ronnie had a chance to run for shelter a neighborhood man picked up Ronnie's wagon, papers and all, and parked it on his porch. After the downpour the Record carrier "drove" his wagon from the temporary shelter and continued his delivery.

LET'S GET SOME JOBS COMPLETED

We go along with everything that is being said and done regarding the proposed Third-st viaduct . . . But . . . we certainly hope the city and county take no [illegible] projects that get only into the talking stages and thus allow further delays in the very important belt system.

Columbus voters will in the near future be asked to approve further bond issues for various projects. It would seem that these expressways should have definite priorities before taking on any new burdens.

Changeover Of Lights Will Not Be Made Immediately

Many protests were sounded on the Hilltop this week to the proposal of the Columbus Traffic Commission to move the traffic signal from Warren-av and W. Broad-st to Ogden and Broad. "The move is being made to meet an increasing popular demand for traffic light protection on north bound one-way streets intersecting Broad," said E. O. Melvin, Hilltop Traffic Commissioner.

Letter Spurs Action

A letter to the City Traffic Commission spurred many comments of Hilltoppers in an effort to stimulate action against removing the Warren-av light.

The letter, written by O. H. Craft, Hilltop real estate broker, stated in part: "According to a news item appearing in The Hilltop Record (June 8) it is reported that the decision was made . . . by the commission . . . to erect a new traffic light at Richardson-av and W. Broad-st, and remove the one at Warren-av and W. Broad-st. Richardson-av is a north-bound street . . . (routing little) . . . traffic north of Broad.. This creates a situation of having three traffic lights at three intersections, one after the other . . . (why) a traffic light at Ogden and Broad (?)"

Herbert G. Deems of First Federal Savings and Loan Association at Warren and Broad stated the firm wants the light to remain at the the Warren-av intersection.

Jerry Spears, Sr., of Spears Funeral Home located between Harris and Warren on W. Broad-st cast another vote in favor of the traffic signal at the corner of Warren and Broad.

"Traffic lights are one method that come nearer solving the problem of protecting children who use the crossing from West Broad Street School at Warren-av than anything else can be," Spears affirmed.

Petitions In Opposition

"Petitions are being circulated to retain the light at Warren and Broad," Spears continued. 'A light is needed for children to cross the street coming home from church. A light is needed to slow down traffic. It would be a tragedy to take the traffic signal away."

"The plan proposed by the commission needs some revision," Spears pointed out, "though I am not opposed to a light at Richardson and Broad. With the fatality list going up every year there must be some deterrant . . . something to hold the thing down."

Commissioner Voices Views

Commissioner Melvin stated he agreed with Craft but not for the same reasons Craft mentioned. "A traffic light gives an important additional protection to children at West Broad Street School and other children in the area," he said.

The lights will not be changed immediately, Melvin stated.

The matter of spacing the traffic signal, to allow a driver to drive within the speed limit and not have to stop at each light is a problem for the traffic control, Melvin said.

According to the commission report the light at Burgess will be moved to Richardson-av and the one at Warren will be moved to Ogden-av. There will be no signal at Burgess, Melvin stated. This results in about as good a spacing as the traffic commission can get from Eureka to Hague-av for traffic

Lovely, Young, Miss Young, A Contest Beauty

All of the beauties of Ohio gathered in the Miss Ohio Press Photographer contest and Miss Mary Ann Young, 19, 637 S. Roys-av won easily. In the national picture she placed a very pretty second . . . not bad at all.

The screen test division of all lovely girls through out the nation found Miss Young holding second place in the overall National Press Photographers beauty pageant just ended at Colorado Springs, Colo. Miss Young walked away with fourth place.

By the way, Miss Young lost to the girl who captured top honors all the way around. She was at the top with stiff competition.

Father Awards Diploma To Son At Concordia

John L. Witt, son of Mr. and Mrs. Arthur L. Witt, was much more than just an eighth grade graduate as he received his diploma in commencement exercises held this year at Concordia Lutheran School, 45 S. Brinker-av.

He was the first student ever to go through the full eight grades —plus kindergarten—at the Concordia school.

He was graduating from the school founded by his mother and father. And, finally, he was the last student to graduate from the eight-grade school during the tenure of his parents.

The family is moving to New York in September to assume control of a Lutheran school there.

The ceremony was a regular commencement, with a speaker, the Rev. Edward Hoeferkamp, of Marysville, a reception, a cap and [illegible].

Looking on was young Witt's sister, Liz Ann, 16, who just completed her junior year at West High School.

Delivering Dad's Dues . . . On His Day

A TRAGIC END

Old Residence To Go Up In Flames On Saturday

Old homes are torn down to make way for progress and huge bulldozers move the land to create housing developments . . . but the Highland Avenue Friends Church on the Hilltop is planning to do it just a little different this time. The old log cabin on the site of their new church will be usurped . . . BURNED DOWN!

For close to 100 years the residence at 3937 Sullivant-av was the family home of the Trabue and Ruffing family. First Mr. and Mrs. Charles Trabue, one of the oldest pioneer families who moved to the west end of Columbus in the early 1800's, cleared ground for farm lands.

With the tall timber shorn from the land, Trabue trimmed the lumber and squared it with his meager equipment in preparation for the home which was to be the birthplace for all of his children.

Mrs. George E. Ruffing is the daughter of the late Mr. Charles Trabue. She and her family have lived in the ancient house until just a few months ago when they moved to 3784 Sullivant-av.

As a young girl, Mrs. Ruffing new her father labor to clear the land for the Camp Chase camp grounds. The road in front of their cabin home on Sullivant-av, was just a mud trail and wilderness surrounded the early Hilltop pioneer family.

Now . . . the reason for their moving . . . The Ruffing family moved from their homestead to bow to progress and make room for the needed expanding growth of the Highland Avenue Friends Church.

The Rev. Leonard Wines, pastor of the church, pointed out the burning of the old home will be done in cooperation with Hilltop firemen and the Columbus Fire Department on Saturday evening.

Residents in the area will see the flames reach sky high as the historic landmark on Sullivant-av, makes its last stand in burning glory.

"As the city bulges at its boundaries the old must pass away . . . progress . . . growth . . . all these things, yet the memory of an age just around the last corner will forever mark the spirit of one of the most notable families who pioneered early Columbus.

Last Stop On Old Route

MAIL CARRIER ERNEST E. HARRIS is shown in the picture delivering mail to Howard Davies, 65 S. Hague-av for the last time. Harris, who lives at 371 S. Wayne-av, has served Davies and his neighbors on Hague-av for six years—but due to route changes put into effect Thursday, June 16, at the Hilltop Station, he has had Hague-av cut from his route. Effective with the delivery Thursday morning, two additional routes have been added at the Hilltop station to care for the expanding territory served by the station. The territory includes the new Miriam Addition, Georgian Heights and Lincoln Village. It has become necessary to change most of the routes west of Wheatland-av and therefore some persons will receive their mail later in the day, while others will receive an earlier delivery. Boys Staters Pick Three Hilltoppers For Offices

Several of the West High representatives to the conclave have been elected to "political" positions by the American Legion-sponsored electorate, according to William H. Botkin, West High School junior attending Buckeye Boys' State at Camp Perry, O.

Brian Lewis, 114 N. Roys-av, was elected supreme court justice. David M. Parker, 825 Binns-blvd, was named mayor of the mythical Ingersoll City.

Botkin was voted in as editor-in-chief of "Hetuck", the Buckeye Boys' State paper. "Hetuck" is the Indian word for "Buckeye."

Unlike Topsy, Hilltop Grows

City Annexes 233 Acres, 2,431 Acres Await Call

The Hilltop grew last week by 233 acres. Not like Topsy, the Hilltop added to the southern portion of its limits. When the County Commissioners Friday approved annexation to Columbus they added more body to the ever growing, ever better Hilltop.

Still to be considered on Monday, June 20, is the largest addition ever considered to the Hilltop in recent years . . . that of the highly valuable 2431 acres including the tax-rich Westinghouse and General Motors Plants.

Returning to the southeast corner of the Hilltop, there are 247 acres of land which include [illegible] Calvary Cemetery and Columbus Jets Stadium which will be considered for annexation on Monday.

Approved Petitions

Boundaries of the annexations already approved last Friday are: a 14-acre tract bounded by Mound-st, Rea-av, just west of Whitethorne-av, and to the city limits; and 209 acres including the Miriam addition located at the southeast corner of Sullivant-av and Briggs-rd. There are 200 new homes in the area without city services.

The tax-rich area west of the Hilltop to be considered is bounded by Fisher-rd, Clime-rd, Georgesville-Phillippi-rd, and the city corporation line.

The last petition under consideration involves a rugged outlined 247 acres which extends west from Mound-st and Central-av to Jackson-pk and south to the Stimmel-rd.

Battle of Signatures!

A fierce battle was waged by opponents and proponents of annexation Friday.

Clyde Crandall, president of Franklin Township Citizen's Association, indicated that the two annexations which have taken into Columbus part of the township would be appealed in court. "There will be a new trial," he said on the incorporation issue matter.

The incorporation was voided on May 23 by the court.

Holdover on the several petitions for annexation involving the valuable land parcels to the west of the city were demanded after Harrison W. Smith, Jr., attorney for the annexation forces, challenged the withdrawal of names from petitions already submitted. It was pointed out that though names were withdrawn it did not divest the board of county commissioners of the jurisdiction.

West Alumni Sponsor Movie At Miles West

The alumni association of West High School is sponsoring three days of movies at the Miles West Broad Auto Theatre in an effort to increase their treasury. Tickets are now on sale at 65 cents each for shows on June 15-16-17.

Two movies which are being presented during the three-day cinemascope production are "It's A Woman's World" with Fred MacMurray and Clifton Webb and "Port of Hell" with Dane Clark.

City Hopes Airport Will Continue

Following the refusal of the city to purchase the Sullivant Avenue Air port, owned by Gomer Jones, last week, Mayor Jack Sensenbrenner stated Tuesday, "I hope that the air strip will continue to serve the many private and executive type planes which take advantage of the field."

The mayor pointed out the problems involved in the purchase of the strip by the city, not-the-least of which was that it would be in conflict with the Civil Aeronautics Administration recommendation opposing the purchase. The CAA suggested sites to the northwest of the city viewing the larger number of prospective users for a public-owned field.

Mayor Sensenbrenner said that many industrial plants west of the Hilltop use the Sullivant-av strip for their executive ships and to bring small parcels commercially to the plants. Some of the plants the mayor named were Westinghouse, General Motors, Ternstedt, and possible use by the new Oliver Corporation.

The Sullivant-av airport ranks fourth out of 10 airports in the area in the amount of use value to the community. Ranking in order th fields are: Port Columbus, OSU Don Scott, Northway, Sullivant Avenue, Price, Cardosi, Beaver, Darby, Dan and Clickenger fields.

Foremost in the report was the demand for proper landing and turning radius for commercial and heavy aircraft. Some fields are in direct conflict with landing operations for Port Columbus, but the Sullivant-av airstrip did not appear to be the cause of any disruption. Most of the planes in the required "procedure turns to be [illegible] would go west of the Olentangy River between Upper Arlington and Broad-st," according to the CAA report.

"Privately-owned airports, when operated as a public service, can serve many of the local aviation needs of a community without public expense," the CAA stated. "However, the permanence of such facilities can never be assured since they are subject to changes in the economic situation, as well as the threat of enchoachment by the development of adjacent land and, law suits or injunction. Consequently, to insure the long term availability of these airports which are essential to the public interest and to provide the indispensable protection of their aerial approaches, public ownership and control may be the only sound course of action."

One disadvantage of the Hilltop airstrip is the unpaved runway in the consideration for public purchase. The airstrip is 2500 feet long and 80 feet wide with one gravel landing area. It has a north-south approach. Jones stated that an east-west approach was tenable. A 4000 foot strip is required for "feeder airstrips," and Jones said the space is available for the 4000 foot strip and was included in the price quoted.

Grand Opening Of City National Bank Set This Week

Public Showing On Saturday

The new West Broad office of the City National Bank & Trust Company will be opened for public inspection Saturday, June 18. Business operations will not begin on the Hilltop, however, until the following Monday, June 20.

Located at 3100 W. Broad-st, this beautiful new building will add to the attractiveness of the Hilltop business section, said Roy E. Von Ins, officer in charge.

Located on a 350'x150' lot, the building itself is 86' long and 50' wide. Parking space is provided for 40 automobiles while 22 cars can be lined up behind the three drive-in wickets.

Attractive and Comfortable

The interior of City National's West Broad-st office has been decorated to provide attractive and comfortable surroundings for all who enter, Von Ins pointed out.

The walls of the foyer are of Italian Floss 'de' Peche marble while the floors as well as the stairway are of Italian travertine.

The City National Bank & Trust Co., 3100 W. Broad-st, will be open for business Monday, June 20. Roy E. Von Ins is officer in charge.

The lobby, which is 47'x22' wide, presents an innovation for buildings of this type through the use of such complementary wall colors as charcoal, quarry green, melon green and plum. The carpeting has been selected to harmonize with the walls while wainscoting and counters have a frosty walnut finish, the head officer added.

The six desks provided for loan applications and new accounts will offer a setting for what is very unusual. Each desk is equipped with a colored business phone, marking the first time these particular instruments have ever been made available in anything other than standard black. The side armchairs used at these desks also embody six distinctive colors.

As a service to its Hilltop neighbors, the West Broad office of the City National also has an assembly room for meetings of community groups. Its seating capacity will accommodate 150 persons and in addition kitchen facilities suitable for serving light snacks are available.

No one group may use these facilities more than three times during a given year and reservations must be made in advance through Roy Von Ins, officer in charge of this new City National office.

In addition to bringing essential financial services to the Hilltop area when it opens for business on Monday, June 20, the West Broad office of the City National Bank & Trust Company will also be offering a rich heritage of financial integrity, Von Ins stated.

The Bank, as it is now constituted, represents the consolidation of three Columbus financial institutions, The Commercial National Bank, the City National Bank and the National Bank of Commerce. The last of these mergers occurred on Nov. 30, 1929, at which time the present name was adopted. The history of the Bank thus dates back to 1866 when Sessions & Company, a predecessor of the Commercial National Bank was [illegible].

Operating under a national charter, the City National is also a member of the Federal Reserve System and the Federal Deposit Insurance Corporation. It is comprised of four offices located at 20 E. Broad-st, 9 E. Long-st, 1245 Olentangy River-rd and 3100 W. Broad-st.

Serving with President John H. McCoy as members of the Board of Directors are Dr. Howard L. Bevis, Frank H. Bonnet, Dr. John E. Brown, Sr., John G. McCoy, J. H. Fulford, John W. Galbreath, Walter P. Reiter, F. O Schoedinger and William P. Tracey.

The Passing Of 'Grandma' Skipper, Mourned By Many

Mrs. Clara Alvina Skipper, known affectionately to many as "Grandma Skipper", died Friday, June 3, at her home at the age of 92. During the more than 70 years she had lived at 148 N. Richardson-av she had watched the Hilltop change from sprawling farmlands to the thriving, still-growing community we know today.

Mrs. Skipper

True Hilltop pioneers, Mrs. Skipper and her family have contributed much to the development of their community. W. Broad-st was nothing but a mud road and Mrs. Skipper, daughter of Herman and Amelia Michaelis, was only 14 when she moved here from Marietta. They lived on the State Hospital grounds while the building was being erected and her father, a stone mason, did the stone carvings on the building.

She and Charles Albert Skipper were married in 1882. They lived for a short time on W. Broad-st, where their first son, Albert, who died in infancy, was born. The following year they built their home, first in the vicinity, in the middle of their farmland.

The eldest member, in age, of Highland Avenue Friends Church, she has belonged to the church since 1900. She will be remembered by many for the countless rugs she wove on the loom which stands in the living room of her home.

A widow since 1930, she is survived by one daughter, Lillie, of the residence; four sons, Ivor, Alton, Ill.; E. Le Roy, 3513 Fisher-rd; George S., 146 N. Terrace-av, and Archibald, 143 N. Terrace-av; 11 grandchildren; 22 great-grandchildren; eight great-great-grandchildren and one sister, Mrs. L. E. Baird, 134 N. Burgess-av.

Funeral services were held in Noble L. Allen Funeral Home at 2 p.m. Monday, June 6, with the Rev. Leonard Wines, pastor of Highland Avenue Friends Church, officiating. Interment was in Alton Cemetery.

GIVEN SOHIO AWARD

Glenn Hamilton, 2600 Sullivant-av, was awarded a 15 year bronze plaque for service to the Sohio Company as a dealer.

PRYORS BUILD HOME

George Pryor and Sons, of 50 E. Broad-st, are building a five-room and bath frame home and carport at 500 Georgian-dr. The cost of the job has been estimated at $12,000 by the building inspector's office.

About The Hilltop

There is very little my family and I can say, except "Thanks" to our many friends. Your thoughtfulness and expressions of sympathy during my husband's illness and death were like manna from heaven. Some called him "Bill", others, "Ralph"; we called him "Dad". Modest in life, he was a real soldier who counted his blessings before answering that last call.

We're happy to report that Mrs. Charles (Alice) Althen is home and on the mend after undergoing a major operation . . . The Cliff Millers celebrated their 42nd wedding anniversary on June 3 with family and friends at the Everglades. Among those attending were the Joe Davis's, department store owners . . . Westgate EUB Is Setting For Suver-Thrush Marriage Rites

MRS. GLENN WILLIAM THRUSH

Westgate Evangelical United Brethren Church was the setting for the wedding ceremony of Miss Barbara Jane Suver and Mr. Glenn William Thrush on Friday, June 3, 7:30 p. m.

The new Mrs. Thrush is the daughter of Mr. and Mrs. J. Cecil Suver, 3495 Wicklow-rd and her husband's parents are Mrs. James Shepler, 1277 E. 19th-av and Mr. Glenn Thrush of Las Vegas, Nev.

Blush pink nylon tulle fashioned the bridal gown. The fitted bodice was designed with a low, portrait neckline and brief sleeves, and the bouffant skirt fashioned of four tulle skirts over taffeta extended into a wide chapel train. The top skirt was caught here and there with tiny pink rosebuds.

A plateau hat of pleated nylon tulle, pearls and sequins, held her fingertip veil of pink English illusion and she carried a prayerbook covered with baby pink rosebuds.

Mrs. Fred Rogers, matron of honor, wore a waltz-length gown of pink shantung with a flowered hat and carried a bouquet of pink rosebuds surrounded with shattered purple asters.

Mrs. David Miller served as bridesmatron and Miss Carol Rhodes, as bridesmaid. They were gowned identically with the honor attendant. The little flower girl, Sally Lynn Rogers, niece of the bride, wore a floor-length pink organdy frock and carried a nose-gay of pink rosebuds.

Mr. John Thrush acted as best-man for his brother and the ushers were Mr. Donald Anderson, Mr. Donald Skipper and Mr. Danny A. Ogden, nephew of the bride. Master J. David Ogden, also a nephew of the bride, served as ringbearer.

The mother of the bride chose an orchid nylon gown dotted with white and a matching hat. A purple orchid was pinned to her shoulder. The bridegroom's mother chose a frock of ice blue silk crepe and matching accessories and also wore a deep purple orchid.

Hostesses for the reception held at the Colony Restaurant were Miss Anita Ogden, Mrs. Janice Rogers, sister of the bride, and Miss Barbara Hutchings.

The couple left by motor for San Bernadino, Cal., where they will reside. Mr. Thrush is stationed at March Air Force Base.

Two Generations Of Youth Have Benefited From His Guidance

A. B. Cole

The end of the school term this year also marked the end of 44 years' classroom service for A. B. Cole, one of the best-loved teachers at West High School.

He had been a teacher at the old West High School, where Starling School is now, and at the present building since 1913. He taught American history, law and mathematics primarily, but has taught many other subjects at one time or another.

Cole was baseball coach for ten years, athletic director for 24 years, and athletic treasurer for 25 years.

A graduate of the Columbus College of Law, he was admitted to the bar in 1924 and practiced law during his vacation and in his spare time.

Mr. and Mrs. Cole have also owned and operated the ABC Flower Gardens for the past 25 years.

His retirement plans call for time for recreation and gardening with maybe, later on, some traveling.

Seven Hilltop Playgrounds Plan Ceremonious Openings

Seven playgrounds will open on the Hilltop according to an announcement made to the Hilltop Community Council by Nick Barack, city recreation department. Members of the council have been protesting the budget cut in city finances.

Barack stated that as many play centers as possible should be opened even with a reduced staff. Every effort should be made to conduct the summer activities as usual, he said.

The ceremonies opening the playgrounds will be held on Monday, June 20, at 1:30 p. m. and will be in charge of the Hilltop PTA groups and the council.

Opening with the flag ceremony by the Boy Scouts, Girl Scouts, Cub Scouts and Camp Fire Girls and a parade of decorated vehicles and bicycles, games and contests will follow, supervised by the recreation department.

Prizes will be awarded in various categories for parade entries and game contests.

Gifts will be donated by the council and the Hilltop Kiwanis Club.

Only the West Mound School playground will be closed due to construction work.

Supervisors at the various schools of the opening day programs are: Glenwood, Mrs. Marilyn Moore, Highland PTA, and Mrs. Cecil Radcliff, council president; Westgate Park, Phil Fulton, Westgate Park PTA, and Mrs. A. Waidilich, council representative; Highland School, Mrs. Rosa Trigg, Highland PTA, and Mrs. James Foote, council representative; Holton Park, Mrs. Leonard Echols, St. Aloysius PTA, and Mrs. Bill Berns, council representative; John Burroughs, Charles Beechler and Lillian Klein, supervisors, John Burroughs PTA, and Mrs. Jack Caldwell, PTA representative; West Broad, Mrs. Jean Murphy Superior, Broad Street PTA, and Mrs. Robert Merrick, council representative; and Haunts with supervisors not yet named, and Mrs. Richard Lloyd, West High PTA.

control, he added.

The system of traffic control in Columbus is old and out-moded and it would take several $100,000 to properly re-organize and set control traffic systems in Columbus, Melvin pointed out. "We must do our best with what we have," he said. "This will give about as even a distribution of signals as we can get."

Traffic engineers indicate that the Hilltop has too long a series of traffic signals to properly synchronize all of the lights to change evenly to allow a free flow of traffic, Melvin stated.

"Personally I feel that the signal should be left at Warren-av, providing we can get the lights timed properly . . . the important reason for lights at Warren-av is to protect the children crossing there," the traffic commissioner re-asserted.

Gruff Old Dad! Surely, he doesn't want a day to honor him! Ask for an x-ray picture of his heart, and you will know better. He may be tanned of face and rough of hand, but his big heart is Very tender. *Yes, let's observe Father's Day. Let us keep it with enthusiasm! He will appreciate it all the more because we have neglected him so long.*

What strange and wonderful people these Fathers are! They may look old, but on the inside they are still boys. They are ready for the pleasures of their childhood. Surprise them and you will catch them when the guards of age and dignity are down. They will be easy victims of love's attack. *Give them a whole big day when they receive... instead of give.*

Wise and appreciative women and men could find no better word for their Divine Creator, than this name, "Father." *He is more like God than any other. Treat him that way for one day, "Father's Day," and gladden his heart for all the days to come. Yes, give him one whole big day.* It is Father's Day.

Local Church School Aid CD Alert

Westgate Methodist Church and Westgate Elementary School will serve as the distribution center and disaster hospital respectively when the Columbus Academy of Medicine, the Columbus Junior Chamber of Commerce and the civil defense departments hold a simulated air attack on Wednesday, June 15.

Volunteers are needed to serve as patients for medical personnel to gain a working knowledge and become familiar with the medical emergency set up.

The attack will start at 7 p. m., with all volunteers from the area going to the church. No sirens or whistles will be blown to signify when the attack starts.

At the church the volunteers will be met by nurses who will then explain the principle of the medical facilities which would be set up during an actual war attack and other natural disaster emergencies. The volunteers will then be transported by Greyhound bus to the school where treatment will be administered.

If further medical treatment is required by the volunteers, they will be transported to the nearest hospital where they will undergo the usual routing of entering and receiving emergency care. At the conclusion of the practice, the volunteers will be returned to the church for dismissal.

Petitions Out For Langdon's Nomination

Paul Langdon

Columbus civic leaders are now circulating petitions to nominate Paul R. Landon, 545 Nashoba-av, as a candidate for election to the Columbus Board of Education.

Langdon, certified public accountain and comptroller, Battelle Memorial Institute, has been interested in education for many years. Recently he was considered to fill a vacancy which occurred on the board by a resignation.

Edward O. Melvin, 107 S. Warren-av, and member of the Columbus Traffic Commission, is heading up the nominating petition drive with C. Otis Shaver, 394 Guilford-av an actuary with the Farm Bureau Fire Insurance Company.

Civic leaders from other parts of Columbus who are working for the election of Paul Langdon to give representation from the West Side to the Columbus Board of Education are: Francis B. Ryan, 456 E. North Broadway, president, Columbus chapter, Ohio Society of Certified Accountants; Patrick J. Kirwin, 294 Rhoads-av, Columbus manager of Muzak, and John L. Gray, 670 Overbrook-dr, attorney for Battelle Memorial Institute.

The election will be held Nov. 8. More than 3,000 signatures are expected to be filed with the Franklin County Board of Elections before the end of July.

West Side leaders have urged Langdon to run for the Columbus School Board for some time, petition circulators stated. They point out that th West Side has not been represented on the school board since Robert Draper was a member.

Columbus schools are now operating on a budget of more than $20,000,000 annually and the services of an accountant could be most helpful on the board, especially with the current rapidly growing school population, petitioners have stated.

Langdon is president of the Columbus chapter of the National Office Management Association which is interested in working with local schools to help solve the big problems of more and better teachers for more and better classroom facilities for bigger and bigger school enrollments.

"I believe I can help Columbus to offer better school facilities for its children and, at the same time, insure the maximum return for each dollar spent," Langdon said who asked why he thought his accounting experience was needed on the school board.

As comptroller at Battelle Memorial Institute, Langdon has helped the institute to grow from 1300 employees to more than 2300 employees in the laboratories located in Columbus; Geneva, Switzerland; Frankfurt, Germany, and offices in the major cities of Europe.

With his wife, Marjorie, he has two boys, Larry, 16, and Robert, 14, who are in West Junior and Senior High Schools.

Boys' Staters Tour City Hall

The five Buckeye Boys' Staters from West, Law Neer, Brian Lewis, Dave Parker, Donley Wray, and Bill Botkin, toured City Hall on Wednesday, June 8, as part of orientation for Boys' State.

They attended Municipal Court sessions, presided over by Hon. Fred L. Donnally and Hon. Ralph G. Smith. The cases being tried ranged from failing to stop in an accident to spouse-beating and intoxication.

The boys were led by Lee H. O'Connor, of the clerk of courts office, and Samuel Mason a member of the Boys' State committee.

After attending the court sessions, they toured the offices, ending up in the office of Mayor Maynard E. Sensenbrenner. Mayor Sensenbrenner gave a short talk on his idea of politics.

Weeks Playing Baseball While In Service In Germany

Pfc. Chuck I. Weeks, 24, son of Mrs. Margaret Weeks, 165 N. Hague-av, is playing baseball in Germany with the 18th Infantry Regiment team.

Weeks, who plays in his off duty hours, is a mortar specialist in the regiment's Company G.

He entered the Army in November, 1953 and arrived in Europe in April, 1954.

Weeks attended the University of California in Los Angeles.

Let your deeds alone praise you, and do not honor yourself by shaming a colleague. — Isaac Judaeus.

TO THE GRADUATES

Are You Ready To Go?

Graduates from West and Holy Family High Schools have donned their caps and gowns and have marched down the aisle to receive their diplomas . . . now what . . . there are many ways they can go . . . which way will they choose?

School is a necessary part of life, but a preparatory phase in which a person learns skills and techniques which will be of benefit to him when he takes his role in life.

The role in life is not the most important thing that people must learn about . . . but rather their attitude toward that role.

Whatever you do, whether it be a skilled mechanic, an office worker, or a highly specialized scientist . . . the attitude you have toward the job you seek as your life work . . . this is what will help you toward success or turn all of your efforts into failure.

An education prepares us to ferret our own way in the world, to earn a living. Many of our fathers lay claim to the fact that they are self-made-men. Well, that may be good or bad depending upon the types of lives our fathers have lived! Some men can go through life doing the most menial of tasks and yet have a buoyant spirit and a happy smile every day.

We get out of life what we put into it. If we try with all our hearts to do our best at whatever type of work we are cut out for . . . then we will be able to live harmoniously with a minimum amount of grief.

Just a note on college . . . some people feel that every young person must go to college. Today if a youngster has not finished high school he finds it difficult to get a well paying job. If a youngster is interested in going to college he generally takes more advantage out of the training than if he is forced to go. Some young people are not cut out for college while others are . . . it depends on the youth.

To the graduates of West and Holy Family High Schools we offer our congratulations and hope that the excellent work they have accomplished in high school will offer a good background for going on to college, into service where they may prepare to serve our country as many of us have done in the past, or take their places in job openings.

IT HAPPENED IN FRANKLIN COUNTY

Master Horseman Showed Way For New Training Methods

By John O. Marsh

During the 1830's and 1840's, higher life in America was characterized by a democratic humanitarian crusade. One phase of the crusade was, perhaps, best illustrated in the career of one of Franklin County's most distinguished humanitarians, John S. Rarey, a master horseman, whose fame and skill spread beyond the geographical boundaries of his native town.

Rarey (1827-1866) was born in Groveport. During his student days he evolved a theory that recalcitrant animals, usually subjected to barbarous treatment by their trainers, might be effectively restrained by applying the training methods employed by the Arabs. Rarey's theory found practical application in conquering the notoriously vicious English thoroughbred, Cruiser.

Rarey's exhibitions became the wonder of Europe and America. He gave demonstrations of his skill for Queen Victoria, and later public demonstrations in Germany, France, Norway, Sweden, Russia and Turkey. During the era of the American Civil War, Rarey was invited to inspect the Union cavalry units, and, as a result of his observations and recommendations, his methods of training found a place in the United States Cavalry Manuals.

Although the young Ohioan's exhibitions were regarded in some quarters as partaking of the nature of public entertainment, he made a substantial contribution to the humanitarian movement. It was not, however, until 1873 that the citizens of his native county organized a humane society. Ten years later the movement was organized on a state basis. Paradoxically enough the objective of the new organization was to prevent cruelty not only to animals but also to children, who, in isolated instances, were of less concern than the pets they harbored.

The old Rarey homestead in Groveport was razed two years ago to make way for a modern school building, but Rarey's grave, marked by a needle shaped monument, may still be seen in the local cemetery.

YOUR YOUTH

By Bob Schmidt and Dick Wilson

Regardless of rain 85 fathers and sons of the Hilltop YMCA Indian Guides journeyed to the Columbus YMCA Alfred Willson Camp near Bellefontaine, to enjoy a weekend campout. Swimming, boating, canoeing, fishing, hikes and discussion groups, lots of good food, devotions and many informal games were enjoyed by the Big and Little Braves during the week end. The Indian Guide Induction Team and the Dance Team gave an outstanding account of themselves by being responsible for the campfire induction at which time they inducted many Big and Little Braves throughout the State.

Little Nine Baseball, under the leadership of Dick Wilson, got off to a good start with approximately 165 boys present Monday for their team assignments and to secure their T-Shirts. In case you did not know, the Hilltop Kiwanis and Hilltop Lions again supplied the T-Shirts for the members of this Hilltop YMCA Little Nine League. Hats off to these two service clubs and a "thanks a million" from all of the players of the leagues.

Many of the Indian Maiden and Indian Guide Tribes will continue their meetings during the summer but will conduct most of their program outdoors. This will consist of campfire meetings, hikes, and trips and some overnight campouts.

If your son or daughter has not secured a Summer Fun Club application blank, be sure to call the Hilltop YMCA and we will be happy to mail one to you. This Summer Fun Club consists of many special events, movies, crafts, rubberneck tours, campouts, for boys and girls 8 years of age and over. Here is an opportunity for mother to secure some free baby sitting by signing up your youth for this Summer Fun Club.

The following is the schedule for the week:

Westway Tops Old-Timers League

By Harry Grashel

Westway Post VFW climbed into first place in the Hilltop YMCA Old-Timers softball loop by winning two games this past week, trimming Diamond Milk 14 to 10 and Glenwood Methodist 11 to 4. Bendetti and Ross were outstanding in both games for VFW.

Glenwood Methodist handed Grashel's Mobilgas Station team its first defeat with a six run rally in the last half of the 7th to win 7 to 6. Noble Allen Jr's long double to right field knocked in two runs for the winning margin.

In a 10 inning thriller, Hilltop Kiwanis skidded past their arch rivals, the Hilltop Lions, 11 to 10 to remain undefeated. Dick Nash broke up the game in the last half of the 10th with a line drive that went through the Lion center fielder and enabled the Kiwanis Kid to circle the bases. Nash and McVay were the big guns for Kiwanis with John Grassie and Bob Case starring for the Lions.

In another well-played game, Westgate EUB broke into the winning column with an 8 to 7 victory over the luckless Northway VFW team. Kisner hit hard for Westgate while Bill Brobst and Robey played well for VFW.

West Park Methodist swamped Hillcrest Baptist 14 to 3 as Ed Eberhard pitched fine ball. Brownfield and Rasor hit hard for West Park. Miller and Bob Milstead were outstanding for Hillcrest.

Paul Leighninger's New Williamsburg Style Home Is Local Show Place

Home Of The Week

The Paul E. Leighninger home, 289 Powhatan-av, exemplifies Colonial Williamsburg style adapted to comfortable modern-day living.

In the living room antiques and contemporary furnishings blend well in a neutral background of light blue-green carpeting, draperies and painted walls. Touches of gold and brown appear in sofa and chairs. Staff Photo

Visitors Find Antiques and Modern Furnishings Equally At Home in Powhatan Avenue Residence

By Elsie Ireland Weaver

The old and the new find a perfect blending in the new home of Mr. and Mrs. Paul E. Leighninger and family, 289 Powhatan-av.

Mrs. Leighninger, the former Dorothy Seiller, is a life-long resident of the Hilltop and her husband has called it home since their marriage. Leighninger, with his father-in-law, Mark Seiller, is co-owner of Seiller's Department Store, 2404 W. Broad-st.

Even before entering the home, one sees contrast between old and new. The beautiful huge pin oak tree which overhangs the living room and porch on the north side of the house is over 200 years old, according to a tree surgeon. The House, with exterior of buff-colored brick in Williamsburg Colonial style was just completed last year.

Upon coming into the entrance hall one is struck by the similarity in atmosphere to the old Williamsburg Colonial homes. A delicate print in raw umber on off-white background is found in the wallpaper, a Williamsburg reproduction called "Old Stencil Block." White-painted vertical panelling lines the stair-well. The door is flanked by side lights with glass shelves holding antique glassware glowing in amber, rose, blue and red.

In the living room the dignity of cool blue green of draperies, carpeting, and walls contrast with warm colors—yellow, brown, and floral printer chairs, dark spinet piano and the walnut antique tables. Carpeting is nubby-textured Cordelon and draperies are of raw silk.

White Fireplace

The fireplace, of white-painted brick, is set in a background of white-painted vertical wood panelling, with a recessed wood box on one side. There is an access door to the wood box from the outside. Hardware on the door here and on cabinets on either side of the piano are L and H black strap iron in antique style. A brass kettle on the hearth which now holds magazines was once used by Leighninger's grandmother for making apple butter.

In the dining room the figured wall paper is outstanding. It portrays a garden scene with Victorian-gowned ladies strolling beneath dark trellises. The pattern is called "Normandy." White translucent draperies over the triple bay windows are fashioned of the latest in parachute cloth called Fortisan.

Furniture in the dining room is early Colonial maple. It consists of buffet, drop leaf table and ladder back chairs.

The kitchen has a strong Colonial flavor but is outfitted with the very latest in appliances and conveniences. Two electric ovens are recessed in the wall next to the table top range area. The red brick wall above the stainless steel range area holds a "country kitchen" charm.

Kitchen cabinets are of maple in a fruitwood finish. An electric dishwasher is finished to match the other wood. Hardware is hammered brass. Yellow Formica tops the work areas of the cabinets.

In the dining area is wallpaper in the "Ceramic" pattern. The oval table and the chairs are antiques. Through the picture window with its lemon-yellow draperies one views the lovely back lawn and rose bed.

Knotty Pine Den

The downstairs bathroom connecting with the master bedroom is done in yellow ceramic tile with light green painted walls. The wash basin is set in a built-in vanity with green Formica top. Behind the vanity is a complete mirrored wall. The shower stall is glassed in.

The den opens off the master bedroom and features two walls of knotty pine and book shelves with cabinets below. A television set is concealed in one of the cabinets. The wallpaper on two of the walls is most unusual. It is of French origin and done in shades of gold, red and green. The draperies have the same European soldiers marching across them.

On the second floor are the bedrooms of the Leighninger children, Jane, 14, and Jeffrey, 9, the guest room and bath.

Jane's room is typically feminine with a lovely dark walnut spool bed, an heirloom, 100 years old. The walnut desk was made by Mrs. Leighninger's grandfather about 60 years ago.

The cotton carpeting is turquoise. The wallpaper has a yellow background with flowers in turquoise, rose and cocoa brown. In front of the built-in vanity is a metal wire chair with turquoise quilted seat [illegible]

Jeffrey's room is strictly boyish and very gay. The sturdy wool rug, in a pattern called "County Fair", is done in white, scarlet, gray and black. The wallpaper is a line plaid in scarlet and gray with white background. Draperies are of heavy material and a cheerful crimson. Probably the most unusual feature of this room is the wallpaper map of the world on the low side of the room next to the dormer closet door. Another roomy walk-in closet is close at hand.

The guest room upstairs is lovely with amethyst cotton carpeting and pink boudoir chair set against a background of "Old One Hundred" wallpaper with white background and purple and turquoise flowers.

Daughter Jane's bedroom is typically feminine.

In the den the draperies match the wallpaper.

Corner cupboard in dining room contains an antique hot chocolate set.

The warm glow of fruitwood-finished maple and red brick contrast with the gleam of stainless steel and yellow formica in the kitchen.

Small House Needs Two Wire Circuits

An electric wiring system with two branch circuits should be sufficient for the needs of a small dwelling containing two bedrooms, bath, and a single other room that accomodates the remaining functions of the house.

Care should be exercised that these branches are not overloaded. In a house where electric cooking facilities are used, or where other similar heavy loading may occur, the owner should assure himself that service entrance wires are of suitable size and that a special circuit of suitable capacity is run to the range or other appliances.

Kind Of Neighborhood Affects House Value

Although a house may be of top quality structurally, be perfectly planned for your family's requirements, and contain the latest in architectural design and conveniences, it is not a good investment unless it is located in a neighborhood of character.

The best neighborhoods, where property values will be maintained for many years, are those where properties are relatively new, well-kept and owner-occupied; where the area is zoned exclusively for residential purposes; and where streets do not carry heavy or fast traffic.

One should also make sure that the local government is operating efficiently and economically with a reasonable tax rate; that there is adequate police protection, garbage, rubbish and snow removal, and that all utilities are installed and paid for.

Attic Den Easily Made Of Insulating Board

Years ago only the luxurious home included a private den where the man of the house could retreat for undisturbed reading or work. With the building materials now available, however, almost any home owner with unused attic space can provide himself with a comfortable study. An economical material ideally suited to this use is insulating board. It is especially desirable for attic partitions since it provides effective insulation against heat and cold.

Wood Floor Carries Heavy Weight Load

Tests have demonstrated that harder species of wood used for flooring will carry concentrated weights of nearly 5000 pounds per square inch without being marred by crushed or deformed fibers. The most extensively used flooring hardwood is oak, which not only possesses great strength and durability, but beauty as well.

IT'S A 'STRIP KITCHEN'

The kitchenette that occupies one end of a room used for general living purposes now is called a "strip kitchen."

Until a loss occurs, an insurance policy is just a piece of paper —
One company, one agent, is just as good as another —

13A—Business Opportunity

CASH INCOME
GOLDEN OPPORTUNITY

We are looking for reliable parties, men or women, who want to own and operate a chain of RCA-licensed coin-operated radios or coin-operated television sets. These are set up in hotel or motor court rooms for the benefit of transient guests, and operate one-half, one or two hours for 25c. These quarters add up to a HANDSOME PROFIT for you, year after year. We can secure locations for you and set you up in business.

This can be handled in your SPARE TIME — it can be built into a full-time business that pays FULL-TIME INCOME. No selling or soliciting—no waiting months to build up the business. It pays you a profit the first day.

This is not a "GET RICH QUICK" business but it will give you a STEADY, PROFITABLE income. NO RENT or overhead. No inventory problems. No filling of machines. Just collections of quarters and payment of small commissions to the hotel or motor court owner. Each quarter collected is profit.

A minimum CASH investment from $875.00 to $3,590.00 is all that is required, which is secured by equipment. NO RISK of losing your investment as long as people listen to the radio and watch television.

If you can qualify and have the necessary cash, then write for appointment with our authorized distributor. Please give age, address and phone to Southern Distributing Co., 935 Sixth Ave., Huntington, W. Va.

An Invitation to West Siders from

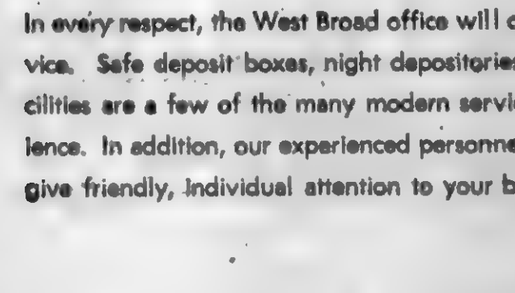
City National Bank & Trust Co.

OPEN HOUSE, Saturday, June 18th

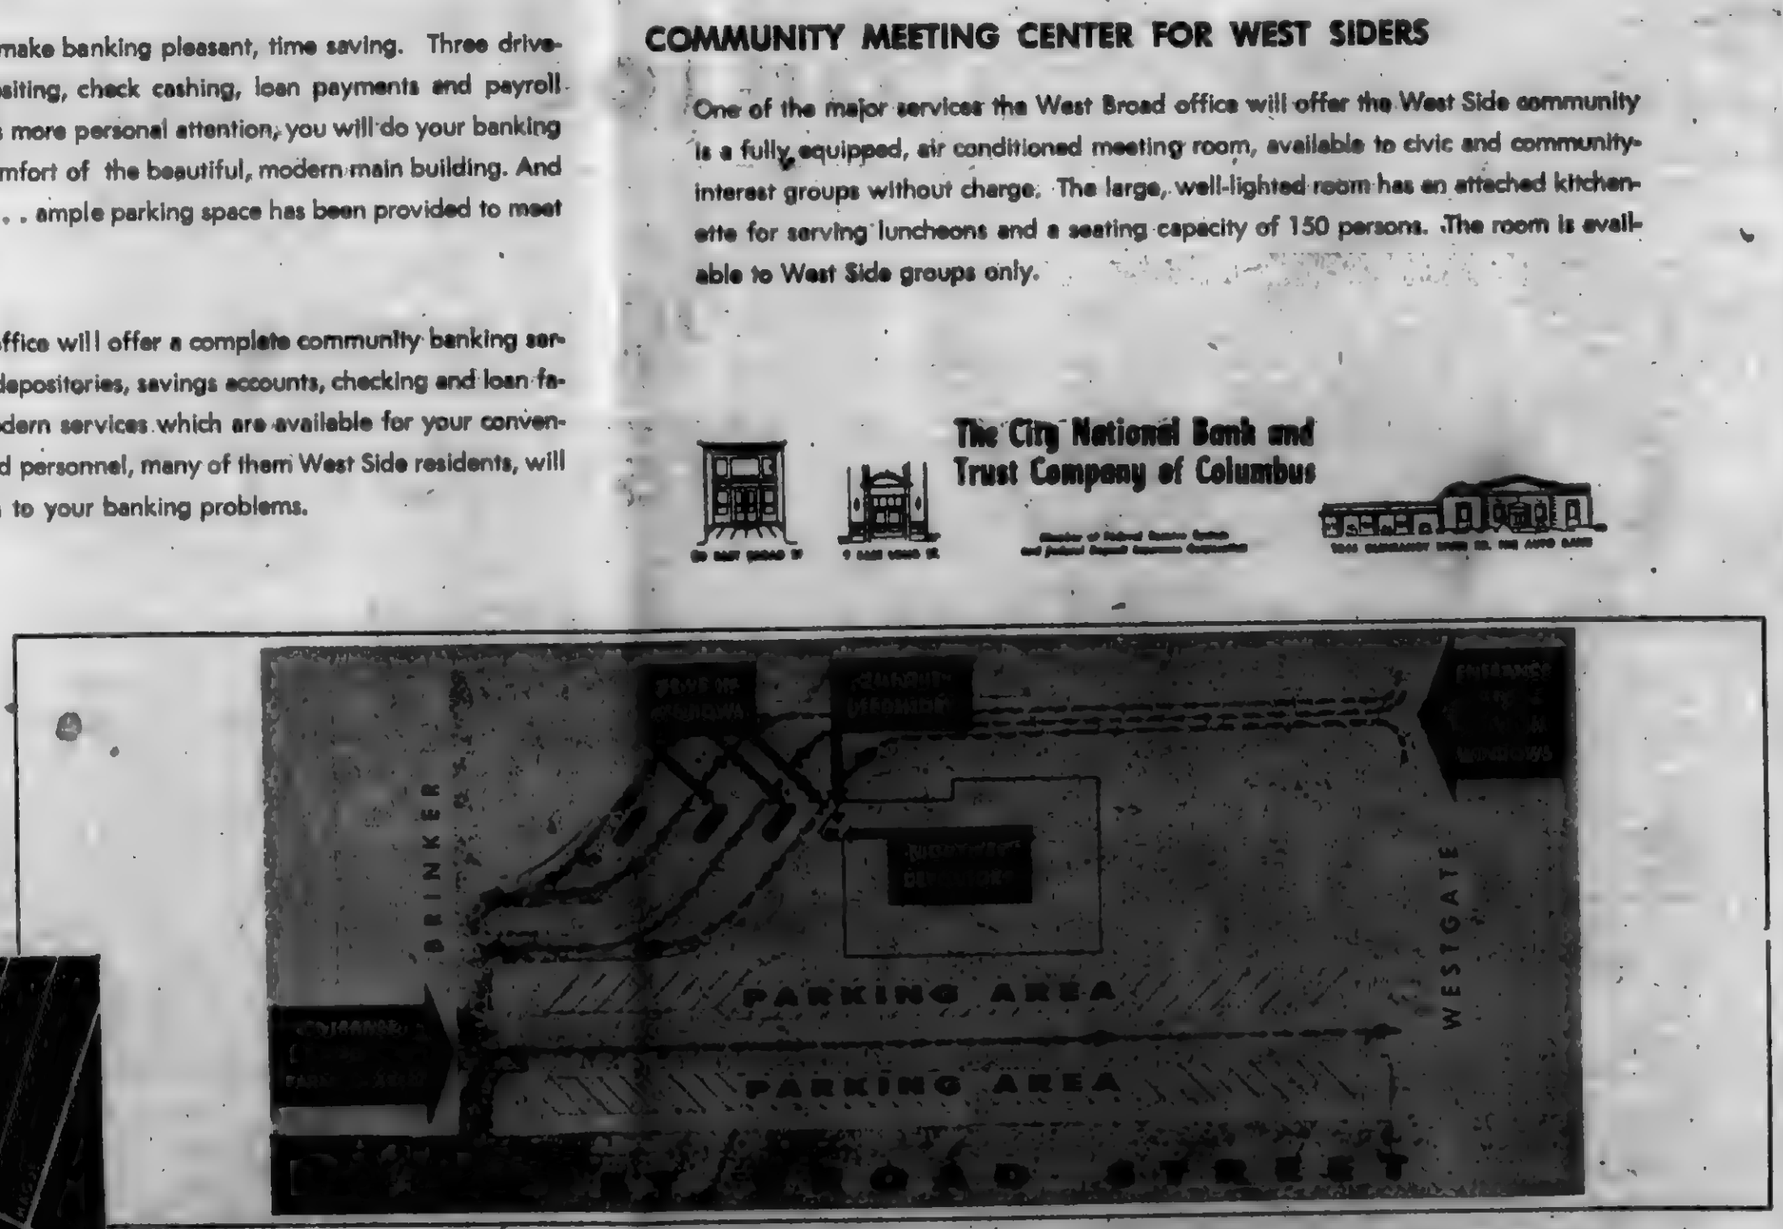
Plan to attend the opening of City National's West Broad office — the bank built to serve your needs. Designed for the West Side, staffed by West Siders.....City National's West Broad office brings new banking convenience to the entire Hilltop community.

No detail has been overlooked to make banking pleasant, time saving. Three drive-in windows will speed your depositing, check cashing, loan payments and payroll pickups. If your business requires more personal attention, you will do your banking in the pleasant, air conditioned comfort of the beautiful, modern main building. And there's never a wait for parking . . . ample parking space has been provided to meet the demands of peak rush hours.

In every respect, the West Broad office will offer a complete community banking service. Safe deposit boxes, night depositories, savings accounts, checking and loan facilities are a few of the many modern services which are available for your convenience. In addition, our experienced personnel, many of them West Side residents, will give friendly, individual attention to your banking problems.



Plan to attend Open House, June 18. See "behind the scene" operations that make your West Broad office one of the most efficient banks in this area. The first business day is Monday, June 20. Be among the first to enjoy modern banking at its best.



COMMUNITY MEETING CENTER FOR WEST SIDERS

One of the major services the West Broad office will offer the West Side community is a fully equipped, air conditioned meeting room, available to civic and community-interest groups without charge. The large, well-lighted room has an attached kitchenette for serving luncheons and a seating capacity of 150 persons. The room is available to West Side groups only.

County Commissioners Reject Franklin Annexation Petitions Not Near Enough Signers

With unanimous action, County Commissioners rejected a petition to annex 2,341 acres of Franklin Township to Columbus, Monday, June 20. The petition included the tax-rich Westinghouse and General Motors Plants.

The petition for annexation of 247 acres including an area east from Mound-st and Central-av with the Columbus Jet Stadium and Mt. Calvary Cemetery was also rejected by the commissioners for lack of containing the signatures of the majority of property owners.

County Prosecutor Samuel L. Divine held that the petitions were not invalidated by the withdrawals of signatures in itself. Commissioners, though, indicated that the decided minority held by the signers of the petitions was enough to make them decide against the annexation proposals.

Two petitions on annexation for the 2,431-acre tract and the 247-acre unit will again come before the commissioners late in November. It is expected at that time that the legal snags will be cleared up and the required number of signers will have their names on the petition.

At the time of the hearing Monday so many signatures had been withdrawn from the petition filed by Mrs. Helen B. Jones, 746 Wilson-rd, that each commissioner indicated he felt obliged to reject the plea.

Officials of Westinghouse and General Motors were silent on the issue, Com. Henry Koontz said.

Attorney Harrion W. Smith Jr., argued that the annexation would be right and equitable for everyone in the area while attorney Thomas W. Applegate said that 14,000 residents in Franklin Township would be effected adversely by the loss of tax revenue.

Welcome, City National

Several thousand people of this community have had an opportunity to visit the new City National Bank at 3100 W. Broad-st during and since the formal opening this past week-end.

We take this opportunity along with many of our readers to extend a cordial welcome to the Hilltop to this new business firm and to wish them well.

The establishment of this fine banking institution in our community further attests the substantial growth that has taken place here in recent years and foretells of finer things to come.

City National is a friendly institution and is welcome in a friendly community. We have confidence they will ever be alert to their responsibilities in continuing to maintain the fine community spirit that has been so outstanding on the Hilltop for so many years.

The Gay Philosopher says: "One reason opportunity isn't recognized more often is that it goes around disguised as work."

Traffic Safety Is A Year Round Job

It is at times amusing but more generally disgusting to hear that the city is launching a "traffic safety drive".

Is safety such an unimportant thing that we should have "drives"? Isn't it just a matter of having a year round job to do and then doing it?

Columbus can be one of the safest cities in the U.S. if there is a rigid and consistent policy of enforcement of traffic laws.

Traffic violations are common and chance takers are many. Vi-

Plan Million Dollar Hilltonia Junior High

The Columbus Board of Education authorized construction Tuesday of a new junior high school on the Hilltop to be known as Hilltonia Junior High School, 2345 W. Mound-st near Highland-av. Building costs have been estimated in excess of a million dollars, stated Novice G. Fawcett, superintendent of schools.

Plans and specifications for the Hilltonia School foundation as drawn by Architect Dan A. Carmichael will be ready to have bids taken on the initial work by noon July 29.

The building will be constructed in two phases, first the foundation, then the superstructure, because of the lack of ready funds through 1956, Superintendent Fawcett pointed out at the board meeting. Hilltonia Junior High School will be similar in construction and features to the one now being built in Clinton.

After another four million dollars worth of bonds are sold next January, the superstructure portion of the building can be sold to a contractor, Fawcett said. The school district is limited in the amount of bonds it can sell each year, to keep the tax rate from rising too sharply.

The new school will accommodate 900 to 1000 pupils and is scheduled for completion in 1956.

Drive-In Bank Is In The Middle Of An Old Street

Properly the City National Bank on the Hilltop is constructed in the middle of what was laid out to be a street in the early 1800's.

Through the years the street was forgotten by subsequent dividers until the thoroughness of City National Bank attorneys turned up the ancient street plat. Since it did not conform to plans of Hilltop streets, councilmen withdrew the city's claim to the land.

Now the bank is ready for business at 3100 W. Broad-st. It opened Monday, June 20, after holding a public preview on Saturday with 1,000 persons visiting the bank and viewing three drive-in booths with their bullet-proof glass enclosures, tunnels underground, winding steel stairways, large vault, 24-hour depository and civic or community assembly room.

A proud grandfather opened savings account number 11 for his 11-day-old granddaughter with $111. Thomas Wintle, 52 N. Westgate, opened the account for his daughter's daughter, Mrs. Catharine Stevenson's little girl, Ann Marie.

The final count on floral ar-

rangements sent to the firm numbered 41 from local business firms, said Roy E. Von Ins, officer in charge.

Representing a "second" the drive-in bank is second only to the firm's other office at 1248 Olentangy River-rd

The vault door is of the latest and most up-to-date design available. It was developed by Herring-Hall-Marvin and is electrically operated. Once the combination has been manually operated and a button pushed, the doors open and a bridge lowers automatically. The vault has stand-up booths and safe deposit boxes.

A parking lot for 40 automobiles is available for customer use. The storage area behind the drive-in booths has a capacity of 25 automobiles.

Symphony Group To Meet On Top Of The Hill

Members of the Columbus Symphony will meet at the home of Mrs. Warren Hicks, 7 S. Roys-av, on Wednesday, June 27 at 1 p. m.

Purpose of the meeting will be to plan a Hilltop contingent of the Symphony group. In general meetings the members discuss music, plan projects for the schools in music and study great music together.

New Hilltop Schoedinger Funeral Home Planned

Large new Schoedinger Funeral Home at W. Broad and Westmoor to go under construction this week.

Schoedinger Plans Larger Chapel Here

Celebrating their 100th anniversary this year the Schoedinger Funeral Home on the Hilltop will be moved to its new location as soon as the contemplated new building is completed, George R. Schoedinger, president, has announced.

Contractors are clearing the plot on W. Broad and Westmoor this week in preparation for ground breaking. The lot is 180 feet by 215 feet on the northeast corner. The building will be 68 by 72 feet.

Plans call for a one story structure with an apartment in the back for a permanent attendant. There will be four reposing rooms on the ground floor. A complete display room for caskets will be in the basement. Lounges for men and women are planned.

Parking space will be provided for 60 cars behind the completely air conditioned home. The building will be constructed of buff colored brick.

Jack Imler, present manager of the Hilltop home, will manage the new unit.

Because of the growth and expansion of the West Side, Schoedinger pointed out, the new and larger funeral home had to be built.

Schoedinger has two homes, one downtown and one on the Hilltop. A third chapel is planned out east on E. Broad-st.

Officials of the firm include G. R. Schoedinger, president; Robert S. Schoedinger, vice-president and John F. Schoedinger, secretary-treasurer.

Can You Help Two Young Boys Correct A Mistake?

Two boys made a mistake! Can you help them?

Only 15 years old, two boys made the mistake of taking something that did not belong to them. With the abandon of youth one boy tied a Masonic commander's ring to his shoe lace and went off to play with his friend. Somehow the ring came loose and was lost.

The owner of the ring reported it was lost. Police with their usual completeness tracked down the culprits, but they had lost the ring.

Now the boys parents find that paying for the ring would create a real hardship on them. They recognized their responsibility, but that does not help in returning the ring to its owner.

You can help . . . if you happened to find a Masonic commander's ring in the vicinity of Oakley and Broad-sts. A reward of $150 is offered by the boy's parents.

A "friend" has offered to act as a go-between for the boys, their family and the court. If you call KL. 2376 after 5 p.m. and tell that you've found the ring, if you have, you'll get a reward and take a great load off the minds of some very anxious parents.

Contests For All Scheduled At Bean Dinner

Plenty of action is promised for youngsters at the Hilltop Bean Dinner, according to Bob Schmidt and Orian Mann, co-chairmen of the games and contests committee.

The committeemen declare that the term "youngsters" applies to those who normally fall into that age category, as well as others in the adult span who just feel young.

"We've selected games that will provide not only tests of skill and athletic prowess, but also enter-

Hilltop Pastor Accepts Higher Church Post

Rev. Paul Dunn

Hilltop pastor of St. Paul's Evangelical Congregational Church, director of the Hilltop YMCA and president of the Hilltop Ministerial Association, the Rev. Paul D. Dunn, was named head of the Evangelical Congregational denomination in Ohio and Western Pennsylvania Thursday, June 16.

At a meeting of the Western Conference in Akron Trinity Church, Akron, O., the Rev. Mr. Dunn whose church is at 22 S. Warren-av, accepted the new position.

The Hilltop pastor succeeds the Rev. N. J. Broadway, presiding elder of the Western Conference's Eastern District since 1947. Headquarters for the eastern district are in Akron.

The new presiding elder served First Evangelical Congregational Church of Akron from 1947 until 1952, Findlay Grace from 1941 to 1947 and Cedarville, Ill., from 1937 to 1941.

He will move his family to Akron. In his denominational work he will pay quarterly visits to his old Hilltop parish.

A graduate of Toccoa Falls Bible College in Tocca, Ga., Findlay College, O., and the Wienbrenner School of Theology in Findlay, the Rev. Dunn, 39, recalls many happy associations on the Hilltop.

He and his wife, Helen, have two children, Joe, 9, and Julie Ann, 4. "I have enjoyed the excellent Hilltop community and the fine Christian fellowship of the Hilltop ministers" said the pastor.

Amateur Boxer Is New 'Y' Junior Secretary

Bert Korte

An amateur boxer turned YMCA junior secretary on Monday, June 20 as he joined the staff of the Hilltop Y.

Bert W. Korte, 22, 1955 graduate of Carthage College, Ill., has moved to the Hilltop to take the place of Dick Wilson who will soon be leaving for a new post in Pennsylvania.

Korte will handle all of the associate secretary work at the Hilltop Y, Bob Schmidt, executive secretary stated. He will specialize in working with the Y's many boy's clubs and sporting programs

The son of a Lutheran minister, Korte was active in sports in college and played football in his freshman year, boxed for three years, took second place in the Quincy Golden Gloves, played intermural basketball and was on the all-star team at college.

The new junior secretary was president of the national honorary fraternity Alpha Mu Gamma at Carthage College, and secretary of the dorm council.

As a class project in social research, Korte organized a boys club in Keokuk, Ia., for one year.

Korte is married, he and his wife Cheryl live at 810 Wedgewood-dr, Westgate Manor.

Telling a little tale on himself, Korte revealed that though he had known his wife in high school and they were in the same club, it was not until they attended the same college 300 miles away from home that they met for good. She was news editor of the college paper.

Hilltop Playgrounds Are Opened For Summer Season

SCENES AT HILLTOP PLAYGROUNDS—These opening day activities were "captured" by our camera-hunting reporter at Hilltop playgrounds Monday, June 20. At far left, bottom row of pictures, Ralph Gardner, 182 Stevens-av, and Sue Veregge, 79 S. Eureka-av, display the caricatures drawn of them by Al Getchell, of the Columbus Citizen art staff before the opening day exercises and contests at Glenwood Recreation Center. In center picture, bottom row, are Stephen Dodson and Lois Echols in their entry in the bicycle parade and contest at Holton Park. Far right, bottom row, are the winners in two classifications in the bicycle parade at Haunts Park, Columbian-av. Colleen Theobald, 632 Clark-av, left, and her sister, Karen, right, won the contests in the six- to eight-year-olds, and the nine-to-11-year-old classes. In the top pictures at left are a group of contest winners at West Broad Street School playground as they sit on the ground showing each other their prizes and admiring them. At the right top, is a group of children who attended the opening day exercises and contests at Highland Avenue School playground and stayed on to play on the volleyball court. Staff Photos

Columbus Needs Small Airfields, View Here

"Columbus needs small airfields in each quadrant of the city," said Grover Clements, director of the county regional planning commission this week.

This statement followed a report made to the City of Columbus on what the Civil Aeronautics Administration indicated were the future needs of the city in the way of air fields and possible development of Port Columbus.

The CAA report pointed out that one large airfield could handle the needs of the community. One small airport located in the northeastern sector of the city would handle the needs in that area for the growing industrial trend toward the use of light aircraft in business.

Four Fields Needed

According to Clements, four airfields are needed. One strip for landing in the northeast section of the city would not be adequate considering the growing use of aircraft by both private individuals and business.

Clements pointed to a further factor, if the growing population continues to stretch the borders of the community soon the airstrips would be forced out of existence by the growing city. Housing developments would offer such a profitable sum to airport owners they would be foolish not to sell to them.

If the city owned four judiciously placed airfields, Clements added, no program of expansion of the city could halt their use. Airfields are important in this airage, he said.

The most recent case of refusal of the city to recognize the possible "death to an airfield" is the Sullivant Avenue Airport. Its manager, Gomer Jones, has offered to sell the field to the city. He proved by map and use value, according to Jones, if the city does not take the property it might be swallowed up by housing projects.

Glamour Wearing Off

Much of the glamour of an airfield is wearing off in this age of jets and trans-oceanic aircraft, Jones asserted. Operating an airfield during this period of business and industrial use of small planes makes it difficult to operate for the small field owner. If the city were to purchase the field and offer to let a private individual operate it, a more commercial return might be realized. The incentive to sell to housing projects is great, Jones said.

The Sullivant Avenue Airfield was the first airmail airfield in Columbus. The first plane carrying airmail landed there in 1928. Mail was carried from Cleveland to Akron to Columbus in only a few short hours. This made history for the country and brought renown to the west Columbus field.

The second glider club in the United States was formed at the Sullivant Avenue Airport in 1930.

Such are the trends of historical achievement accomplished by the small airfield, Jones said.

Looking ahead for the next 25 years the population and development areas of the city out into the county will draw an increase of from two to three times more aircraft in the air. Emergency and auxiliary fields are needed or there will be no place for planes to go in time of need, Jones insists. A 4,000 foot strip on each of the four quarters is important, offering reasonable protection in landing aircraft, he concluded.

SPILLS SOUP

Cathy Morrow, 1, of 68 Clarendon-av, suffered first and second degree burns on the face and chest when she spilled hot soup on herself Thursday, June 16. She was taken to Mt. Carmel Hospital by fire department emergency squadsmen.

Opera Workshop Planned Locally

Lyric Theatre Group of Columbus will sponsor an Opera Workshop from Aug. 3 through 31, as a means of extending its program of opera study and production throughout Central Ohio.

Singers and vocal students with good musical background are invited to audition between June 22-23 at the rehearsal studios, 209 S. High-st. The workshop is sponsored by Sam Morgenstern of the Metropolitan Opera Association who will give lectures and consult with students. Day and evening workshops are being planned. Operas such as "Sunday Excursion", "Carmen", "Martha", and "Madam Butterfly" are planned. Contact Mrs. Marvin Schlezinger, 627 Eastmoor or phone EX. 3202 for an application.

Westgate Church School Arranges Open House

Vacation Church School of the Westgate EUB Church will hold open house Friday, June 24 at 7:45.

A sharing program has been planned by the pupils and all parents and friends are invited to attend.

HAVING GARAGE BUILT

Arthur Woodward, of 163 Westwood-dr, is having a one-car cement block garage built. F. and J. Builders are the contractors.

If absence really made the heart grow fonder, a lot of people would miss church more than any place in the world.

The Hilltop Kiwanis' Club will hear William J. Larcey, Jr., public relations supervisor for the Ohio Bell Telephone Company, Cleveland, Thursday, June 30, at 6:30, at the Colony Restaurant.

Hilltopper Scrounges For Uranium

A Hilltopper was one of five young prospectors that left Friday, June 17, to seek uranium in Utah. The Hilltopper is Rickard Hutchinson, 206 Derrer-rd, one of the five selected from among 20 geology students and graduates from Ohio State University and Ohio Wesleyan University, who applied for jobs.

The expedition will probe the unmapped plateaus of Utah in search of uranium, survey and study a 130-acre tract for a Columbus man and do a geology study for an Arizona copper mine.

The prospectors left with a jeep and trailer packed with $13,000 worth of equipment, including complete camping and geology tools, one Geiger counter and two other detecting devices.

If the geologists discover uranium, they will share profits with 25 stockholders in the corporation.

The group is being backed by the newly-formed Buckeye Mineral Corp. Earl Hutchinson, 206 Derrer-rd, father of Rickard and president of the company, pointed out that the company has raised enough capital to sponsor a prospecting team each summer for the next three years.

Hutchinson, Robert Reeves, 95 N. Huron-av, and another Columbus man went to Utah last April to determine search areas.

Other officers of the new corporation are Dr. William Schmelzer of 281 N. Ogden-av, vice-president; and Jerry Winkel, 3636 W. Broad-st, secretary.

Five Boys Get Five Offices At Boys State

Seventh-av, became president of the bank; and Bill Botkin, 16, 66 S. TODAY'S BRIDE IS TOMORROW'S SHOPPER

Today's June bride is a canny young creature. She realizes that financial security is one of the most important ingredients of a happy marriage. So naturally, one of the most appreciated gifts she can receive is a U.S. Savings Bond–the gift of security.

A Savings Bond earns extra dollars as it grows older (3% interest, compounded semi-annually, when held to maturity). And with the earning power extended to 19 years and 8 months, Bonds can pay back $1.80 for each $1.00 invested!

Today's bride also realizes that her best start in caring for the needs of her new home can come about by making as many of her purchases for the home as possible from the locally owned business firms of the community.

Her local patronage of local stores results in time saved and she knows at all times she is dealing with a neighbor rather than strangers. This neighborly service provided by local business firms comes home in many ways.

Today's wise bride is the lady who makes it a must to 'Try First To Get It On The Hilltop.'

Anita Stout Is Bride Of Ronald Raike

Miss Anita Mae Stout and Mr. Ronald Ralph Raike repeated their wedding vows Saturday afternoon, June 18 in Glenwood Methodist Church. The Rev. Joseph B. Shellhaas read the service at 2:30 before an altar banked with palms and ferns and with vases of white flowers and [illegible].

The new Mrs. Raike is the daughter of Mr. and Mrs. Dewey A. Stout, 90 N. Wayne-av and her husband's parents are Mr. and Mrs. Ralph E. Raike, 259 S. Terrace-av.

Escorted to the altar by her father, the bride chose a gown of imported chantilly lace and tulle over satin, designed with a scalloped bateau neckline and clip sleeves, worn with long lace mitts. The fitted basque bodice complemented the buoffant skirt of layer upon layer of tulle and a peplum of lace extended into a chapel length train.

A matching half-hat held her fingertip-length veil of illusion and she carried a cascade arrangement of pink and white carnations.

Mrs. Jerry Johnson served as matron of honor and Miss Sue Raike as bridesmaid. They carried cascades of deep pink carnations and were carnations in their hair.

Double Ring Ceremony Unites Marilyn Donahue, Mr. Presar

MR. AND MRS. RICHARD DEANE PRESAR
—J. Curtis Allen Photo

Four tiery of candles in seven-branch candelabra lit the altar of First Community Church for the marriage ceremony of Miss Marilyn Eve Donahue and Mr. Richard Deane Presar Saturday, June 11. The Rev. Roy A. Burkhart read the double-ring ceremony at 4:30 p. m.

The bride is the daughter of Mr. and Mrs. Alfred J. Donahue, formerly of the Hilltop and now of 1646 Glenn-av and the bridegroom's parents are Mr. and Mrs. Carl W. Presar, Wapakoneta, O.

Given in marriage by her father, the new Mrs. Presar chose a bridal gown of hand-clipped chantilly lace and tulle designed with a stand-up collar of lace that dipped into an illusion-filled portrait neckline and fitted lace bodice. An overskirt of lace edged in scallops formed deep points in the front, back and sides and the buoffant skirt of tulle extended into a train.

A crown of lace accented with seed pearls held her fingertip veil of illusion and she carried a cascade of white roses centered with a butterfly orchid.

Mrs. W. Edward Cox served as matron of honor and the bridesmaids were Miss Sylvia Chafin, Miss Norma Whitton, Miss Jacque-line Brush and Miss Miriam Potter.

Their identically styled strapless gowns of aqua polished taffeta and tulle were in ballerina-length. They wore redingotes of taffeta and headpieces of aqua mallne and tiny matching flowers. Each carried a cascade of pink shattered carnations with satin leaves.

Mr. Kenneth Presar was best-man and seating the guests were Mr. Donald Presar, Mr. Walter Fritz, Mr. Charles Rossfeld and Mr. W. Edward Cox.

The mother of the bride chose a gown of aqua polished taffeta with white accessories and carried a purse corsage of pink carnations.

The bridegroom's mother was gowned in midnight blue crepe with pink accessories and a shoulder corsage of pink carnations.

The former Miss Donahue was graduated from West High School and attended Ohio State University where she was pledged to Alpha Xi Delta Sorority. Her husband was graduated from Wapakoneta High School and from Ohio State University with a B.Sc. in agriculture, cum laude. He is now an ensign in the U.S. Navy.

The couple will reside in San Diego, Cal., after July 1.

Tricky Stuff At Story Hour

MYSTIFYING THE CHILDREN with his display of magic tricks at the first session last Wednesday of the summer story hour at the Hilltop Branch Library, is the young Hilltop magician, Steve Parks, 44 Binns-blvd. Mrs. Harry Emrick, 233 S. Huron-av., assistant librarian, is completely baffled, our picture shows, as to how Parks has freed himself from the rope around his wrists while she remains tightly bound. Parks is not likely to let her "in" on this trick, one of many rope tricks he showed the delighted youngsters. Guests entertainers will be a regular attraction at the weekly story sessions held from 10:30 to 11:30 each Wednesday morning during the summer months. Story tellers at this first meeting were Mrs. Emrick and Mrs. Walter Martin, 69 N. Harris-av, assistant librarian. A filmstrip story was given by Mrs. R. L. Ansley, 443 Nashoba-av, library helper. There Was A Little Jigger

There was a little Jigger
And he wasn't any bigger
Than the very small part of a pin;
But the bump that he raises,
It itches like the blazes,
And that's where the rub comes in.
Comes in, comes in.
And that's where the rub comes in.
'Cause the bump that he raises,
It itches like the blazes,
And that's where the rub comes in.

MAKE YOUR DECISION NOW!

ASK YOUR PASTOR

He'll tell you it's wise to plan your family burial while alive!

Because people turn to him in time of sorrow, he knows so well that it is time for the bereaved to have to hurriedly select a cemetery lot.

He'll tell you, "The selection of a family burial estate is a family matter that should be agreed on by all after due consideration has been given the subject." The time to do it is now, when weather and other conditions are favorable.

Numerous Rides Available To Bean Dinner Visitors

Rides to satisfy the desires of youngsters from the diaper group up will greet visitors at this year's Hilltop Bean Dinner, to be held July 26 and 27 at Westgate Park.

That was the assertion made by the co-chairmen of the rides and concessions committee, Ralph Clements and William Rains, following the signing of the Nolan Amusement Co. of Zanesville to supply this type of entertainment.

Rides will include a ferris wheel, merry-go-round, "octapus," "plane-a-whirl," pony track and numerous special attractions, sized for the younger tots.

"If visitors want a thrill we'll have it," Mr. Clements said, "but we've also provided for those who prefer the less exciting rides."

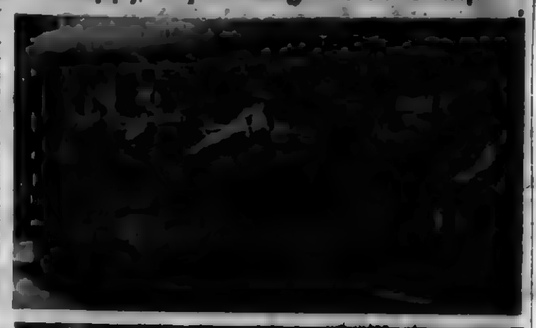
United Kiwanis Send Boys Out To Go Camping

Ten boys camping trip which began on Monday, June 20 was sponsored by the Hilltop Kiwanis Club in cooperation with the United Kiwanis Clubs of Columbus.



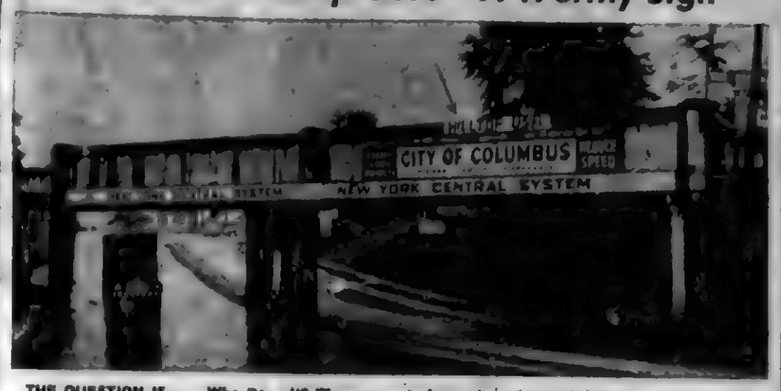
For the seventh year the sponsored camp program has been conducted for Hilltop boys and others who would not otherwise have been given the chance to get out camping.

The boys are now at Mocking Hills, Big Brother Camp near Old Man's Cave where they will go swimming, have a real camp out, go hiking, learn crafts and participate in many other outdoor pro-

Edwin Lewis, 10, 2671 Hardingdr and Keith Cruse, 9, 816 Pierce-dr and eight boys from Franklin Village, Robert Cook, 13; Eugene Dodson, 12; Norman Hensley, 9; Dan West, 13; Martin Romine, 7; Clarence Morris, 8; David White, 11; and Jim Johnson, 12, are at camp sponsored by the Hilltop club.

Funds raised each year in cooperation with the United Kiwanis Clubs of Columbus to help send the boys to camp. The fund raising drive is through the Jet Baseball game held in August. All money from the tickets sold will be used to send more boys to camp next year.

Happy Boys Going Off To Camp



Hilltop Kiwanis Club members have sponsored 10 boys to go out to the United Kiwanis Club camp-out at Hocking Camp near Old Man's Cave. Shown above are the boys as they boarded the bus Monday, June 20, to get underway. Paul Noblitt Photos

Hilltop Eagles Hold Election Of Officers

The Hilltop aerie of the Fraternal Order of Eagles is taking on a "new look." The Eagle Magazine, official mouthpiece of the largest fraternal organization in the world, will soon carry a feature story on the plans for expansion of this group in keeping with the growth of Columbus' west side. The main subject of conversation nowadays is the matter of a new home to accommodate the increasing membership. New officers recently installed are, left to right, John Bilohl, worthy president; Eugene McDaniels, secretary and past worthy president; William Littleton, vice president, and junior past worthy president; Joe Benedetto and Louis Calilli, trustees; and Alexander MacKenzie, inside guard.

How True—Hilltop USA—A Worthy Sign

THE QUESTION IS . . . Who Done It? The arrow in the picture above points to a sign which is on the underpass on W. Broad-st of the Big Four Railroad which reads: Hilltop, USA. No one seems to know the painter of this fine sign, but it truly represents the feelings of every Hilltopper . . . this is Hilltop, USA. Staff Photo

HILLTOP BRANCH LIBRARY

New Book By Robert Ruark Now Available At Hilltop Library

By Mildred Phelps

Novelists of note are featured in the list of new books at the Hilltop Branch Library, 2965 W. Broad-st. "Something of Value" by Robert Ruark has been prominently on the best seller lists. Theme of this splendid novel is based on the Basuto proverb — "If a man does away with his traditional way of living and throws away his good customs he had better first make certain that he has something of value to replace them."

Currently on the best seller list is a novel by Patricia Campbell entitled "By Sun and Candlelight," an absorbing, dramatic study of five exceptional people's loves, hates, jealousies and triumphs, against a background of the early Northwest development.

"The Breaking Wave," is written with all the warmth and charm that has numbered author Nevile Shute one of the most beloved story tellers of our times. It is a vital and absorbing story. Since the days of "I Can Get It For You Wholesale," Jerome Weidman has written ten novels. "Your Daughter Iris," just published, continues in the traditional sophisticated humorous vein that so often characterizes this author's writing.

Nancy Halliman is a newcomer to the field, but her novel "Rough Winds Of May," is so charmingly written that her next novel will be anticipated with pleasure.

Jean Ritchie's "Singing Family of the Cumberlands," is now on the library shelves. An interesting feature of this book is that score as well as lyric of many ballads is given. There is also an index of songs found in the book "How to Live 365 Days a Year" by Dr. John A. Schindler. It is a most interesting study of the importance of emotions in our daily lives. Dr. Schindler is chairman of the Department of Medicine, the Monroe Clinic, Monroe, Wis. He approaches the problem with complete medical knowledge.

Other new title include, "The Magic of Believing" by Claude Bristol; "Passport to Paris" by Vernon Duke; "How to Enjoy Your Baby" by Ruth Edwards and "Nervousness, Indigestion and Pain" by Walter Alvarez.

Summer hours are from 9 a.m. to 5:30 p.m., Monday through Friday and on Saturday, 9 a.m. to 9 p.m. The Reading Club for Children began June 1 and we are hoping to have as many children as possible register for summer reading.

Columbus And The Air Age

We are in the middle of an air age . . . is Columbus ready for it?

For many months now Columbus City Council has been discussing the pros and cons of small airfields versus large airfields in Columbus and Franklin County. So far the large airfields have won out. What about the pilots of the light planes, will they have to use the large air terminus at Port Columbus or will some means be taken to provide adequate small airfields on the perimeter of the city to handle private and light aircraft flying?

Small airstrips serving the city are OSU Don Scott field, now closed to non-university traffic; Northway, Sullivant Avenue; Price; Cardosi; Reaver; Dan Darby and Clickenger fields.

These small airfields serve the pilot of light planes by offering them a place to keep and service their aircraft near their homes without traveling across metropolitan Columbus to do it. The air strips named also give the week-end pilot an opportunity to fly with the least amount of hazard from Heavy-type aircraft as is found at Port Columbus.

Columbus is one of the fastest growing cities in the United States according to statistics. With this fact goes an obvious conclusion . . . it takes men of foresight and ability to recognize the needs and requirements of such a bursting community. Is city council aware of the need of large industrial plants rising on the city's perimeter to use city controlled airfields? . . . the needs of the private flyer?

Existing small airstrips should be city owned and controlled so that they will not be eased-out by housing developments and thereby be lost to future flying needs.

Columbus would do well to purchase a small airfield in each of the four quadrants of the city. Enlarging Port Columbus is not enough.

"Columbus needs smaller airfields in each quadrant of the city," said Grover Clements, director of the county regional planning commission. Why would a man such as Mr Clements who has spent years as Columbus service director and now on the planning commission make such a statement when it seems to be in direct opposition to the considerations of city council and the mayor.

"I do not think that the report of the Civil Aeronautics Administration applies to the aviation needs and requirements in Columbus," Clements asserted. For example Sullivant Avenue Airport offers many of the industrial plants on the west end of the city an opportunity to fly into the area, conduct their business only a few short minutes away and return to their business in other parts of the state.

Four airstrips now in operation could be chosen which do not conflict with landing patterns for Port Columbus or Lockbourne.

When a man of Clements stature and obvious know-how on regional planning of utilities, subdivisions, streets, highways, housing, and dozens of other phases which if improperly executed would lead to a hodge-podge community . . . suggests that four smaller airstrips should be city controlled . . . it is worth looking into.

Columbus has not met its responsibility to the air age, but it can take steps to do it.

PRECARIOUS LANDING

How many birds of answered prayer,
Winging from earth from nests far-out,
Must turn and go back, unable to land,
Since the branch of faith has been broken by doubt?

From somewhere — Thrift is a wonderful thing, and who hasn't wished his ancestors had practiced it more? . . . The television repairman was trying to locate the trouble in a friend's set. The six-year-old had watched the whole operation fascinated. "I'll bet," he said, "if you'd clean out the dead cowboys from the bottom of the set, it would work again" . . . Interviewer: "What do you think of New York City?" Interviewee: "It's unnecessary" . . . a job applicant was filling out an insurance form. When she came to the line that said "Age" she hesitated a long time. The job-seeker next to her finally whispered to her, "The longer you wait, the worse it gets."

A friend suggested that I write about my father, since Father's Day is coming up. Have never tried to put Dad on paper and am sure I won't do a very good job now. One of the first highlights of my life was the afternoon when I was about four.

Dad took me fishing and that evening on our way home, we went to the top of a mountain to watch the sun set. That evening he told me "Always believe in and search for beautiful things. It will make your life easier."

Dad taught us to love good literature; good music, and to see beauty in everyday, commonplace things. But don't get the idea that he was a sissy or a gentle, ethereal soul who went about spreading sweetness and light. He was strict, but he was a disciplinarian who was always just. We respected him, and we learned when we were very young that we couldn't put anything over on him.

Dad was a good father; a good soldier and champion of the under dog. Nobody hated war more than he did. He was in the Spanish-American War; World War One, and after Pearl Harbor, he made it again, against his doctor's orders. He was a colonel by that time. He did not live to see the end of World War II, but of course he never had the slightest doubt about how it would end.

Although Dad's father fought with the Union Army during the Civil War, General Robert E. Lee was always one of Dad's idols from the time he was a small boy. He thought America's three greatest gentlemen were Abraham Lincoln, Robert E. Lee and John J. Pershing.

To his children, Dad was a great gentleman too.

Mail—From Columbus: If June didn't do anything else, she would be loved because she brings honeysuckle and yellow roses . . . Also from Columbus: Are those "foot-long" hot dogs really a foot long? Some day I'm going to find out . . . From an eight-year-old Illinois girl: We had our first Salk vaccine shots and then the teacher prayed and thanked God for it and the children sang America. It was nice in school that day . . . From Zanesville: We saw the Pacific Ocean. We had never seen it before. It looks just like the Atlantic. I guess if you see one ocean you've seen them all.

In Passing—The summer issue of Ideals is beautiful . . . Did you read the story about Ohio in Holiday? . . . If you like psychological novels, you'll like "The Tall Dark Man" by Anne Chamberlain. When I became acquainted with Anne, she was Anne Chamberlain, of Marietta; now she is Mrs. Clyde Brown of Williamstown, W. Va. I'm not a name dropper; followers of the columns I edit knew that Anne's name appeared in them frequently, long before she became a successful novelist. I always knew she would be one some day. Her poetry and short stories have always been delightful. I've every right to be proud of her, and I am too . . . have often wondered why some people won't admit they sleep at night, and always brag that they "never slept a wink all night." And they're usually the ones who enjoy bad health. They resent it if they are told they look well. Their answer to that insult is usually: "I might LOOK well, but I don't FEEL well!" They should know about some really ill folks—for example, some of the members of Courage Incorporated!

REALISM IN ART

Blake—That man Sphagetallo is certainly a naturalistic singer.

Blair — What do you mean by that?

Blake—Why, last night he sang "Rolling Waves" with such realism that twenty people out of the audience had to leave on account of seasickness.

IT HAPPENED IN FRANKLIN COUNTY

Isaac And Jeremiah Miner White Sulphur Farm Settlers

By Gilbert P. Dodds

Among the early settlers of Franklin County were Isaac Miner and his brother, Jeremiah. In the year 1807, the brothers moved from the State of New York to Ohio and settled in the pioneer village of Franklinton. After residing here for two years, they moved to Deer Creek in Madison County where they engaged in farming.

Later they decided to return to Franklin County and finally purchased a large and valuable farm bordering the Scioto River south of Columbus. The farm soon became known as the "White Sulphur Farm" because a fine spring of bubbling sulphur water was located there.

Before white settlers came to Franklin County, an Indian village was located near "White Sulphur Spring." The village was situated near where Greenlawn bridge crosses the Scioto River. On a pleasant elevation near the spring was a fine oak grove where early Columbus residents picnicked and drove their carriages on warm summer afternoons and evenings.

The Miner farm was large and embraced all of the present Greenlawn Cemetery in addition to several hundred acres.

The Miner homestead, still standing today, was the scene of many important social functions during the period in which the Miner children were growing to adulthood. As Mr. Miner was a distinguished judge, many prominent families of the community were entertained in the Miner homestead. The judge died in 1881 and his sons continued to farm for many years. So famous had the farm become that when it was advertised for sale years later it still carried the "Sulphur Spring" name.

NEXT WEEK: CAPTURED BY INDIANS.

LETTERS TO THE EDITOR

Thanks For A Job Well Done

Dear Editor,

In behalf of Franklin County Council, The American Legion Auxiliary and The Franklin County Council of The Veterans of Foreign Wars, the personnel of both organizations would like to take this opportunity to say "Thanks a million" for the generous contributions and support given to these two service groups at the time of the joint Poppy Sale, Friday and Saturday, May 20 and 21.

We are sure that the money derived through the sale of the Memorial and Buddy Poppies which will be used for rehabilitation and child welfare work exclusively, will many times bring joy to the hearts of those receiving aid and a sense of sharing by those who gave so generously of their time and contributions. The public responded wholeheartedly and we do appreciate their thoughtfulness.

Special thanks to the personnel of the community newspapers for their understanding and cooperation.

YOUR YOUTH

By Dick Wilson

The Little Nine Baseball League is going full blast at this time with the biggest enrollment that it has had in the three years that I have been at the Hilltop YMCA.

Last Monday morning 180 boys turned out for the organizational meeting where the team managers were introduced, league rules were discussed and the season's schedules were passed out to each boy. Each team had one practice session this past week with five boys being picked from each team to try out for the All Star Team.

The All Star Team had their try-outs last Friday afternoon at West High School where 12 boys were selected to represent the league in exhibition play.

This Monday the Little Nine League play started with the Little Indians facing the Little Dodgers. The results of this game are not available at this time but the scores for all four games of the past week will be posted in next week's copy of Your Youth.

Bob Schmidt is vacationing in Florida and will return on July 11. At this time the Hilltop YMCA Summer Fun Club will start its interesting and varied activities for your youth of the Hilltop.

Bob has asked me to relay the message to you that there are still several openings left in the club so if you have not signed up yet, make fast tracks to the Hilltop YMCA office, get your application blank filled out and bring it back to become a member of the only Summer Fun Club on the Hilltop.

Avondale EUB Nips Lead In Church Softball League

By Dick Wilson

The Hilltop YMCA Intermediate Church Softball League got under way last Thursday evening at Westgate Park Diamonds with two close games and one slug-fest. Avondale EUB won the first game over Hillcrest Baptist by the score of 11 to 9. Potter was the winning pitcher with John Kuntz charged with the loss. Tom Coffman looked good afield for the losers while Dick Norris starred defensively for the victors.

West Park Methodist edged Westgate EUB in their game by the score of 6 to 5. The lead in this game changed hands three times with West Park forcing the winning run over in the last half of the seventh. Breckenridge was credited with the victory while Jack Kight was charged with the loss. Vern Sanford starred defensively for the Breckenridge coached Nine while Tom Reeves looked good afield for the losers.

Thomas Avenue Church of Christ massacred DeMolay by the score of 20 to 10. The result of this game was never in doubt from the beginning as the Church of Christ Team jumped into an early lead of 8 to 1 by the end of the second inning. Davis pitched good ball for the victors to gain credit for the win while Webb was charged with the loss.

Three Hilltoppers Unhurt When Boat Is Rammed

Three Hilltoppers were uninjured when their 16-foot outboard boat was in a collision with a 20-foot inboard just south of the Girls' Industrial School on Friday, June 17.

The Hilltoppers were Mr. and Mrs. Harold Banker and son, Ricky, 13, of 447 Demorest-rd. Three other persons were in their boat.

The Banker boat was doing about five miles per hour, when another boat, doing around 20 miles per hour, rammed them. The skipper of the other boat tossed life preservers to the six from the Banker craft and then the former's boat sank.

Ricky and the two from the other boat swam to shore, and the others were picked up by unidentified persons who came from shore in boats.

100-year-old Galloway Home Remodeled To Become 'Mansion' Style

The Nau place at 6721 O'Harra-rd, is a stand-out for both beauty of house and surroundings. The tall gracious elm trees shade the lawns which slope down toward the road and are enclosed by quaint stone walls. Staff Photos

The Hilltop Review

The Home of the Week

The door way is a good, example of classical Georgian Colonial architecture.

The old Steinway grand piano dominates the bay window area of the living room.

Along one wall of the kitchen are cabinets made of oak finished in its natural state.

Nau Residence On Hill Attracts Much Attention

By Elsie Ireland Weaver

If you are driving west from Galloway on O'Harra-rd you cannot help but notice an impressive sight on the lift, just a little way out of town — the large white frame Nau home, set on a hill and surrounded by lovely big elms. Reminiscent of Mount Vernon with its pillared portico and sloping lawns, the viewer is reminded of the leisurely life in a great southern mansion.

Before Mrs. Nau and her late husband, John Nau, remodeled the home at 6721 O'Harra-rd in 1933 it was merely a well-preserved house over 100 years old and anything but a mansion. They added what is now the living room, and the bedroom above, as well as a porch on each floor. It was probably the latter addition which "made" the spacious house "mansion" style and became the key to the home's great charm.

As one crosses the porch to enter the house one is taken by the beauty of the Georgian Colonial doorway with its fine classical details. The door itself is extra wide with a groove down the center which gives the appearance of imitating closed shutters. A circular window to the right of the doorway is unusual and attractive.

In the entrance hall one of the first impressions received by the visitor is that the surface of the woodwork of the doors is very distinctive. Mrs. Nau explains that the oak woodwork throughout the whole house has never been covered with any finish such as shellac, varnish or oil. It has not even been waxed. It is just the natural wood," says Mrs. Nau, "and has never had anything but soap and water applied to it." The result adds to the "old" look of the interior.

Carpeting in the hall and living-room has a biege background with pattern in shades of blue, gold and rose. These colors are repeated in the draperies and again in several living room chairs.. There are two sofas in this room. One is covered in gold-colored cloth with a self-stripe and the other is light green antique velvet. Walls have a neutral biege wallpaper with a darker patterned stripe.

Bookshelves flank the triple-windowed bay in front of which is a dark mahogany Steinway piano which is around 40 years old.

Also opening off the entrance hall is the dining room where the walls are painted green and draperies at the bay window are chartreuse heavy cotton. The round dining table, chairs and buffet are painted in antiqued white. Chair seats are covered in dark green and white striped material.

The corner cupboard and panelled wainscoting around the walls are fashioned of the same natural-finished oak found in the woodwork and doors. In the cupboard are some of Mrs. Nau's treasured antiques, notably the hot chocolate set on the bottom shelf and the ruby goblet on another shelf.

Above the buffet are hung an arrangement of five prints of old buggies while on top of the buffet pieces of silver are displayed.

In the homey kitchen the generous cupboards are the same dark oak. A refreshing note are the ivy vines which trail over the walls and ceiling on a white-grounded paper. The ivy green is repeated in green draperies at the windows and in tablecloth and other accessories. Linoleum on the floor is cream-colored and on the counter tops it is cheery red.

The back kitchen door opens onto a little old-fashioned screened porch, perfect for cool outdoor snacking and relaxing after hot kitchen chores.

Regular Inspection Lessens Expense

The wise home owner gives his home a regular inspection and watches out for the little imperfections that will occur in masonry and framework and other materials about his building. A regular inspection will locate the possible damage that may occur and become expensive later on. Roofs, sheet metal, masonry, woodwork, screens, windows, are all parts of the outside of the house that should be gone over thoroughly at least once each year.

If there be a crime of deeper dye than all the guilty train of human vices, it is ingratitude.—Brooks.

OSU Holds Far Eastern Lecture Series; Vorys Talks Thursday Night

Representative John M. Vorys (R., O.) will discuss "The Congressional Viewpoint on the Far East" in a public lecture at 8 p. m. on Thursday, June 23, in the Ohio Historical Museum auditorium.

This is the first in the series of lecturers in the Ohio State Summer Program on the Far East, which opened on June 20, and will continue through July 22, under the direction of Professor Kazuo Kawai of the political science department.

'Moon Is Blue' Playing At Playhouse-On-The-Green

Playhouse-on-the-Green, the first penthouse "theater in the round" in this area, has opened its 10-week summer season with the F. Hugh Herbert Broadway show, "The Moon Is Blue."

"The Rainmaker", an N. Richard Nash comedy about the Midwest, will follow the Herbert show. Tickets for both shows may be purchased at Heaton's Music Store. Mail orders must be accompanied by a stamped, self-addressed envelope.

Good Residential Floor Must Have Resiliency

One test of a really good floor, according to home building experts, is whether it is sufficently hard and strong, while at the same time resilient enough to be comfortable for those who stand or walk on it. Oak flooring, the kind used in about 80 per cent of all American homes, has been found to posses surprising resiliency. Research has shown that it absorbs much of the body shock caused in walking on a hard surface. As a result it indirectly contributes to health by minimizing fatigue.

For a Smooth Finish

High gloss interior enamel is meant for indoor use only. When this type of coating is dry it can be rubbed down with very fine sandpaper or steel wool to obtain a still smoother finish.

Rule For Arrangement

A basic rule in flower arrangement is this: If the container is upright, make the arrangement one and one-half times the height of the container. If the container is flat, use the same proportion in the width of the arrangement.

Powder Noisy Floor

Unless the boards are quite loose, in which case re-nailing is required, floor squeaks usually can be eliminated by dusting talcum powder into the cracks between the floor boards.

WHAT SHOULD YOU PAY FOR ALL-WOOL CARPETING?
Many people are confused by the term "all wool." In many instances all wool carpeting represents honest value at $10 or more a yard, but some all wool carpeting is overpriced at $3.50 a yard. Can you tell the difference? Most persons can't, and must depend upon a reputable dealer's integrity.

For 20 years we have built up a reputation for honest dealing — giving our customers full value for every dollar they have spent with us. If you are in need of carpeting or rugs, we suggest that you stop and see us. We can assure you that should you purchase from us, you will receive complete satisfaction.
